EXTRACT In 1987, Kojima unveiled the first installment in the Metal Gear franchise for the MSX 2. This event would define his life forever. Before continuing with the creation of this franchise, the other works of this games designer deserve some consideration. In 1988, Snatcher was released on the MSX 2 and NEC PC-8801. This adventure game, similar to the interactive graphic novel, was inspired by Blade Runner (Ridley Scott, 1982) and the cyberpunk movement. Kojima's interest in dense plotlines resurfaced. The game was subsequently remade for the PC Engine CD-Rom2 in 1992, and was enlivened by its use of voice acting. Snatcher was released in Europe and the United States on the Megadrive Mega-CD two years later. Its spiritual successor, Policenauts, appeared on the NEC PC-9821 in 1994, then on the PlayStation and 3DO in 1995 and the Saturn in 1996. For Hideo Kojima,

Snatcher and Policenauts were major accomplishments in his career. He has retained a particular affection for these two games, so much so that they are frequently referenced in the Metal Gear series. ABOUT THE AUTHORS Nicolas Courcier and Mehdi El Kanafi - Fascinated by print media since childhood, Nicolas Courcier and Mehdi El Kanafi wasted no time in launching their first magazine, Console Syndrome, in 2004. After five issues with distribution limited to the Toulouse region of France, they decided to found a publishing house under the same name. One year later, their small business was acquired by another leading publisher of works about video games. In their four years in the world of publishing, Nicolas and Mehdi published more than twenty works on major video game series, and wrote several of those works themselves: Metal Gear Solid. Hideo Kojima's Magnum Opus, Resident Evil Of Zombies and Men, and The Legend of Final Fantasy VII and IX. Since 2015, they have continued their editorial focus on analyzing major video game series at a new publishing house that they founded together: Third. Educated in law, Denis Brusseaux has worked as a journalist for fifteen years and is a specialist in the two arts that he loves: cinema and video games. He has

contributed to the magazines Joypad and Videogamer, and the website DVDrama. He also co-wrote the 2012 film *The Lookout* (French title: *Le Guetteur*), which starred Daniel Auteuil and Mathieu Kassovitz.

The Performance of Video Games Kelly I. Aliano, 2022-10-27 When viewed through the context of an interactive play, a video game player fulfills the roles of both actor and spectator, watching and influencing a game's story in real time. This book presents video gaming as a virtual medium for performance, scrutinizing the ways in which a player's interaction with the narrative informs personal, historical, social and cultural understanding. Centering the author's own experiences as both video game player and performance scholar, the book thoroughly applies concepts from theatre and performance studies. Chapters argue that the posthuman player position now challenges what can be contextualized as a lived experience, and how video games can change players' relationships with

historical events and contemporary concerns, ultimately impacting how they develop a sense of self. Using the author's own gaming experiences as a framework, the book focuses on the intersection between player and narrative, exploring what engagement with a storyline reveals about identity and society.

Phantom Lady Archives V1 (1941 - 1943) The Eisner and Iger studio, Phantom Lady is a fictional superheroine, one of the first female superhero characters to debut in the 1940s Golden Age of Comic Books. Originally published by Quality Comics, the character was subsequently published by a series of now-defunct comic book companies, and a new version of the character currently appears in books published by DC Comics. As published by Fox Feature Syndicate in the late 1940s, the busty and scantily-clad Phantom Lady is a notable and controversial example of good girl art, a style of comic art depicting voluptuous female characters in provocative situations and pin-up poses that contributed to widespread criticism of the medium's effect on children. Phantom Lady was created by the Eisner & Iger studio, one of the first to produce comics on demand for publishers. The character's early

adventures were drawn by Arthur Peddy. The character was ranked 49th in Comics Buyer's Guide's 100 Sexiest Women in Comics list. Phantom Lady first appeared in Quality's Police Comics #1 (Aug, 1941), an anthology title the first issue of which also included the debut of characters such as Plastic Man and the Human Bomb. That issue established her alter ego as Sandra Knight, the beautiful Washington, D.C. debutante daughter of U.S. Senator Henry Knight. The issue established that it was not her first appearance as the Phantom Lady, but it did not go into her origin. Stories published decades later by DC Comics would give her a proper origin, which was altered several times to give Sandra a more active role. Her skimpy costume was eventually explained as a deliberate tactic to distract her usually male foes. Sandra Knight assumed the identity of Phantom Lady in a costume consisting of a green cape and the equivalent of a one-piece yellow swimsuit. She used a black light projector, a device which allowed her to blind her enemies and make herself invisible. She drove a car whose headlights also projected black light when necessary. She was sometimes assisted by her fiancé, Donald Borden, an agent of the U.S. State Department. Phantom Lady ran as one of the

features in Police Comics through #23. Arthur Peddy continued as the artist through #13, with Joe Kubert drawing her feature in Police Comics #14-16; Frank Borth on #17-21; Arthur Peddy returned for #22,; and Rudy Palais on #23. Phantom Lady also appeared in Feature Comics #69-71 as part of a crossover with Spider Widow and the Raven

Graphic Indigeneity Frederick Luis Aldama, 2020-06-04 Honorable Mention Recipient for the Comics Studies Society Prize for Edited Book Collection Contributions by Joshua T. Anderson, Chad A. Barbour, Susan Bernardin, Mike Borkent, Jeremy M. Carnes, Philip Cass, Jordan Clapper, James J. Donahue, Dennin Ellis, Jessica Fontaine, Jonathan Ford, Lee Francis IV, Enrique García, Javier García Liendo, Brenna Clarke Gray, Brian Montes, Arij Ouweneel, Kevin Patrick, Candida Rifkind, Jessica Rutherford, and Jorge Santos Cultural works by and about Indigenous identities, histories, and experiences circulate far and wide. However, not all films, animation, television shows, and comic books lead to a nuanced understanding of Indigenous realities. Acclaimed comics scholar Frederick Luis Aldama shines light on how mainstream comics have clumsily distilled and reconstructed

Indigenous identities and experiences. He and contributors emphasize how Indigenous comic artists are themselves clearing new visual-verbal narrative spaces for articulating more complex histories, cultures, experiences, and narratives of self. To that end, Aldama brings together scholarship that explores both the representation and misrepresentation of Indigenous subjects and experiences as well as research that analyzes and highlights the extraordinary work of Indigenous comic artists. Among others, the book examines Daniel Parada's *Zotz*, Puerto Rican comics *Turey el Taíno* and *La Borinqueña*, and *Moonshot: The Indigenous Comics Collection*. This volume's wide-armed embrace of comics by and about Indigenous peoples of the Americas and Australasia is a first step to understanding how the histories of colonial and imperial domination connect the violent wounds that still haunt across continents. Aldama and contributors resound this message: Indigeneity in comics is an important, powerful force within our visual-verbal narrative arts writ large.

Posttraumatic Stress Disorder, Trauma, and History in Metal Gear Solid V Amy M.

Green, 2017-08-22 This book explores the video game Metal Gear Solid V's exploration of trauma and posttraumatic stress disorder (PTSD) through a careful analysis of its thematic elements and characters. It also considers the game's complex take on post-9/11 history. Metal Gear Solid V consists of two interrelated titles, Ground Zeroes and The Phantom Pain. Ground Zeroes is examined as a post-9/11 narrative exploring America's use of Guantanamo Bay and the extraordinary rendition program as tools in the War on Terror. The Phantom Pain is examined as a work exploring post-9/11 in trauma, especially in returning soldiers. The characters appearing in both games are given substantial consideration and analysis as embodiments of different forms of PTSD and trauma. This book appeals especially to those interested in video game study, to those who are enthusiasts of video

games, and those interested in post-9/11 narratives.

On Video Games Soraya Murray, 2017-10-30 Today over half of all American households own a dedicated game console and gaming industry profits trump those of the film industry worldwide. In this book, Soraya Murray moves past the technical discussions of games and offers a fresh and incisive look at their cultural dimensions. She critically explores blockbusters like *The Last of Us*, *Metal Gear Solid*, *Spec Ops: The Line*, *Tomb Raider* and *Assassin's Creed* to show how they are deeply entangled with American ideological positions and contemporary political, cultural and economic conflicts. As quintessential forms of visual material in the twenty-first century, mainstream games both mirror and spur larger societal fears, hopes and dreams, and even address complex struggles for recognition. This book examines both their elaborately constructed characters and densely layered worlds, whose social and environmental landscapes reflect ideas about gender, race, globalisation and urban life. In this emerging field of study, Murray provides novel theoretical approaches to discussing games and playable media as culture. Demonstrating that games are at the frontline of power

relations, she reimagines how we see them - and more importantly how we understand them.

Militarised Responses to Transnational Organised Crime Tuesday Reitano, Sasha Jespersen, Lucia Bird Ruiz-Benitez de Lugo, 2017-10-06 This edited volume examines the use of militarised responses to different forms of criminal activity, discussing the outcomes and unintended consequences. Politicians and policymakers frequently use militarised responses to look tough on crime. The deployment of armies, navies, military assets and militarised approaches can send a powerful message, but have produced mixed results. While they generate the perception that governments are actively engaged on issues of concern to the public, and in some cases have resulted in notable successes, on the downside they have frequently also increased the loss of life, exacerbated the

humanitarian consequences of a particular crime and entrenched divides between security and state institutions and the criminal proponents, narrowing the possibilities for future negotiated solutions. By focusing on four different areas of criminality – wildlife crime, piracy, migration and drug trafficking – the book allows context and evidence-based conclusions to be drawn on the strategic value and commonality of responses and their outcomes.

How to Restore a Timeline Peter Counter,2023-10-10 When a stranger shoots his dad on a Costa Rican pier, Peter Counter hauls his blood-drenched father to safety. Returning home, Counter

discovers that his sense of time and memory is shattered, and in its place is a budding new mental illness: post-traumatic stress disorder. Counter begins to see violence everywhere. From the music of Cat Stevens to Jeb Bush's Twitter feed. Walter Benjamin to Johnny Carson. Taskmaster. Video games. ASMR videos on YouTube. The world is steeped in gore. Again and again, Counter finds himself reliving his father's shooting as his trauma is fragmented, recast, and distorted on a compulsive mental Tilt-A-Whirl. Formally inventive and incisively smart, *How to Restore a Timeline* revels in a fragile human condition battered by real conflict and hyper-curated media portrayals of death. Channelling Phoebe Bridgers, George Orwell, and Jordan Peele, these essays look us dead in the eye and ask: What kind of life can we piece together amid all the carnage?
