Sky High: George Ferris's Big Wheel Monica Kulling,2016-10-11 This fascinating Step 3 History Reader describes the invention of the first Ferris wheel—an engineering marvel. The 1893 World’s Fair organizers wanted something big to draw people to Chicago . . . something that would rival the Eiffel Tower. George Ferris, an American engineer, had the idea for an observation wheel that passengers could ride on. People laughed at his idea. They said it would never work. But it was a huge success, with thirty-six cars that could hold over 2,100 riders! That’s some big wheel! Ferris wheel lovers can thank George Ferris for never giving up his dream. Step 3 Readers feature engaging characters in easy-to-follow plots about popular topics—for children who are ready to read on their own.

George Ferris, What a Wheel! Barbara Lowell,2014-06-26 Have you ever ridden a Ferris wheel? You go up, up, up and can see for miles! But when the inventor of the Ferris wheel, George Ferris, first pitched the idea, everyone thought he was crazy. A 250-foot bicycle wheel that goes around and around and carries people in train cars? Can't be done, they said. But George proved them wrong. Read about how George's hard work, courage, and imagination created one of the most famous fair rides today. **George Ferris, What a Wheel** covers the concepts Imagination and Problem Solving.

The Fantastic Ferris Wheel Betsy Harvey Kraft,2015-10-13 The World's Fair in Chicago, 1893, was to be a spectacular event: architects, musicians, artists, and inventors worked on special exhibits to display the glories of their countries. But the Fair's planners wanted something really special, something on the scale of the Eiffel Tower, which had been constructed for France's fair three years earlier. At last, engineer George Ferris had an idea-a crazy, unrealistic, gigantic idea. He would construct a twenty-six-story tall observation wheel. The planners didn't think it could be done. They called it a monstrosity. It wouldn't be safe. But George fought for his design. Finally, in December 1892, with only four months to go until the fair, George was given permission to build his wheel. He had to fight the tight schedule, bad weather, and general disapproval. Against all odds, the Ferris Wheel turned out to be the talk of the Fair, and proof that dreaming big dreams could pay off. Today, George's Ferris Wheel is an icon of adventure and amusement throughout the world.
