Black Star Eric A. Glover,2021-05-11 Stranded on an alien planet, two astronauts must battle deadly elements and each other to recover a reserve shuttle built for one Black Star is a debut graphic novel by Eric Anthony Glover, based on his original unproduced screenplay, and illustrated by Arielle Jovellanos. In the future, interstellar travel is past its prime and sending shuttles beyond our solar system—even for vital scientific research—is a life-threatening gamble. However, in order to retrieve samples of an alien flower that may hold the key to saving countless lives, Harper North and her crew of scientists must journey to Eleos, a dangerous planet in deep space. But as they approach Eleos, their ship is caught in an asteroid storm and as it hurtles towards the surface, its reserve shuttle detaches, landing over 100 kilometers away. When the rest of the crew perishes in the burning wreckage of the ship, North races towards the rescue shuttle built for one, hoping to fulfill their mission and survive. But North isn't alone: The team's wilderness expert is still alive and hell-bent on hunting North down and claiming the shuttle for herself. Now, North has no choice but to reach the shuttle first—and fast. The fuel is leaking. Her GPS battery is dying. And the planet's deadly seasonal change is coming. As she battles the flora and fauna and tries to elude her ruthless former crew mate, North will find the cost of survival is dear . . . Will she be willing to pay that price?

Black Star Renegades Michael Moreci,2018-01-02 In the tradition of Star Wars, a galaxy-hopping space adventure about a galactic kingdom bent on control and the young misfit who must find the power within before it's too late. SyFy Wire—January Sci-Fi and Fantasy Books to Pick Up as soon as Possible The Verge—18 Science Fiction and Fantasy Books to Read in January Chicago Review of Books—Best New Books of January Cade Sura holds the future of the galaxy in his hands: the ultimate weapon that will bring total peace. He didn't ask for it, he doesn't want it, and there's no worse choice to wield it in all of space, but if he doesn't, everyone's totally screwed. The evil Praxis kingdom is on the cusp of having every star system under its control, and if that happens, there'll be no contesting their cruel reign. Especially if its fanatical overlord, Ga Halle, manages to capture Cade and snag the all-powerful weapon for herself. Cade can't hide from Praxis, and he can't run from the destiny that's been shoved into his hands. So he only has one option: He has to fight. Cade's not going to let destiny send him on a suicide run, though. With some help from his friends—rebels and scoundrels alike—Cade's going to use this weapon to chart a new destiny for the galaxy, and for himself. He just has to do so before everyone around him discovers that he's a complete and total fraud. Blending the space operatics of Star Wars and the swagger of Guardians of the Galaxy, Black Star Renegades is a galaxy-hopping adventure that blasts its way from seedy spacer bars to sacred temples guarded by deadly creatures—all with a cast of misfit characters who have nowhere to go and nothing to lose.

Black Star, Bright Dawn Scott O'Dell,2008 Bright Dawn must face the challenge of the Iditarod dog sled race alone when her father is injured. Soon she realizes that the race and her life depend on how much she can rely on her lead dog, Black Star.

Black Star, Crescent Moon Sohail Daulatzai,2012 Linking discontent and unrest in Harlem and Los Angeles to anticolonial revolution in Algeria, Egypt, and elsewhere, Black leaders in the United States have frequently looked to the anti-imperialist movements and antiracist rhetoric of the Muslim Third World for inspiration. Daulatzai maps the shared history between Black Muslims, Black radicals, and the Muslim Third World, showing how Black artists and activists imagined themselves not as national minorities but as part of a global majority, connected to larger communities of resistance. Son of a Trickster Eden Robinson,2017-02-07 Shortlisted for the Scotiabank Giller Prize: With striking originality and precision, Eden Robinson, the author of the classic *Monkey Beach* and winner of the Writers' Trust of Canada Fellowship, blends humour with heartbreak in this compelling coming-of-age novel. Everyday teen existence meets indigenous beliefs, crazy family dynamics, and cannibalistic river otters . . . The exciting first novel in her trickster trilogy. Everyone knows a guy like Jared: the burnout kid in high school who sells weed cookies and has a scary mom who's often wasted and wielding some kind of weapon. Jared does smoke and drink too much, and he does make the best cookies in town, and his mom is a mess, but he's also a kid who has an immense capacity for compassion and an impulse to watch over people more than twice his age, and he can't rely on anyone for consistent love and support, except for his flatulent pit bull, Baby Killer (he calls her Baby)--and now she's dead. Jared can't count on his mom to stay sober and stick around to take care of him. He can't rely on his dad to pay the bills and support his new wife and step-daughter. Jared is only sixteen but feels like he is the one who must stabilize his family's life, even look out for his elderly neighbours. But he struggles to keep everything afloat...and sometimes he blacks out. And he puzzles over why his maternal grandmother has never liked him, why she says he's the son of a trickster, that he isn't human. Mind you, ravens speak to him--even when he's not stoned. You think you know Jared, but you don't.

The Black Star Passes John W. Campbell,2020-02-15 A sky pirate armed with superior weapons of his own invention, first contact with an alien race dangerous enough to threaten the safety of two planets and the arrival of an unseen dark sun whose attendant marauders aimed at the very end of civilization in this Solar System. These were the first three challenges of many that tested the skill and minds of the brilliant team of scientist-astronauts Arcot, Wade, and Morey.

DeFord Bailey David C. Morton,Charles K. Wolfe,1993 Bailey is largely forgotten today, a victim of the recording industry's emphasis on the blues during the 1920s--a decision which segregated forever black folk music from white folk music. Bailey was from an African American mountain culture that shared much of its musical heritage with its Anglo-Saxon neighbors, producing a unique hybrid which Bailey called black hillbilly. A virtuoso on the harmonica, guitar, and banjo, Bailey became one of the Grand Old Opry's earliest stars during the 1920s, only to be fired from the Opry in 1941 during one of the Opry's more repressive eras. Bailey's story is told mainly in his own words through interviews conducted by his longtime friend Morton, with Wolfe (English and folklore, Middle Tennessee State Univ.) providing cultural and historical background. The authors' stated goal was to write a book of universal appeal, and indeed the work is a fascinating cultural history. -- Library Journal

The Black Star Lin Carter,2020-05-28 It was rarer and more beautiful and more precious than any piece of mineral, and its dark glory outshone the lights of the heavens. The Gods had wrought it in the Country of the Immortals, and no other thing like it had ever been upon the earth. No emperor could hold the Throne without the Black Star. And now it was missing. The evil Green-Robed One who had usurped the Throne would use his darkest powers to reclaim it - and the young warrior fleeing across the embattled land with his beautiful lady to save this treasure of all the world would know the torments of the damned...

Black Star Chronicles D. J. Arneson,Tony Tallarico,1981 Seven stories of the planet, Black Star.

The Eye in the Door Pat Barker,2013-12-31 In this haunting second installment of the Regeneration Trilogy, a World War I officer grapples with the complex realities of PTSD, identity, sexuality, and society's perceptions of mental illness. It is the spring of 1918, and Britain is faced with the possibility of defeat by Germany. A beleaguered government and a vengeful public target two groups as scapegoats: pacifists and homosexuals. Many are jailed, others lead dangerous double lives, the "the eye in the door" becomes a symbol of the paranoia that threatens to destroy the very fabric of British society. Central to this novel are such compelling, richly imagined characters as the brilliant and compassionate Dr. William Rivers; his most famous patient, the poet Siegfried Sassoon; and Lieutenant Billy Prior, who plays a central role as a domestic intelligence agent. With compelling, realistic dialogue and a keen eye for the social issues that have gone overlooked in mainstream media, *The Eye in the Door* is a triumph that equals *Regeneration* and the third novel in the trilogy, the 1995 Booker Prize-winning *The Ghost Road*, establishing Pat Barker's place in the very forefront of contemporary novelists.

Black Star Anandi Ramamurthy, 2013-09-03 *Black Star* documents the Asian Youth Movements that emerged in 1970s and 1980s Britain. These organizations, established by the children of early migrants, were determined to struggle against both the racism of the street and the state. Anandi Ramamurthy shows how they drew inspiration from black power movements as well as anti-imperialist and workers struggles across the globe. Ramamurthy traces how they saw themselves as part of a wider collective of people struggling for social justice and national liberation. In their struggle to make Britain their home they identified with a broad-based black unity where black was a political color inspiring unity amongst all those struggling against racism. The book documents how by the late 1980s this broad based black identity disintegrated as Islamophobia became a new form of racism. In the process the legacy of the Asian Youth Movements has been largely hidden. *Black Star* retrieves this history and assesses its importance for political struggles in Britain today.

Blackstar Theory Leah Kardos, 2021-12-16 *Blackstar Theory* takes a close look at David Bowie's ambitious last works: his surprise 'comeback' project *The Next Day* (2013), the off-Broadway musical *Lazarus* (2015) and the album that preceded the artist's death in 2016 by two days, *Blackstar*. The book explores the swirl of themes that orbit and entangle these projects from a starting point in musical analysis and features new interviews with key collaborators from the period: producer Tony Visconti, graphic designer Jonathan Barnbrook, musical director Henry Hey, saxophonist Donny McCaslin and assistant sound engineer Erin Tonkon. These works tackle the biggest of ideas: identity, creativity, chaos, transience and immortality. They enact a process of individuation for the Bowie meta-persona and invite us to consider what happens when a star dies. In our universe, dying stars do not disappear - they transform into new stellar objects, remnants and gravitational forces. The radical potential of the *Blackstar* is demonstrated in the rock star supernova that creates a singularity resulting in cultural iconicity. It is how a man approaching his own death can create art that illuminates the immortal potential of all matter in the known universe.

Facing Black Star Thierry Gervais, Vincent Lavoie, 2023-06-13 *The Black Star Collection* at The Image Centre: the expectations, challenges, and results of a decade of research in a key photo agency's print collection. In 2005, Toronto Metropolitan (formerly Ryerson) University (TMU) acquired the massive collection *Black Star Collection* of the photo agency previously based in New York City—nearly 292,000 black-and-white prints. Preserved at The Image Centre at TMU, the images include iconic stills of the American Civil Rights movement by Charles Moore, among thousands of ordinary photographs that were classified by theme in the agency's picture library. While the move of the collection from a corporate photo agency to a public cultural institution enables more access, researchers must still face the size of the collection, its structural organization, the materiality of the prints, and the lack of ephemera. *Facing Black Star* aims to fruitfully highlight this tension between research expectations and challenges. Coeditors Thierry Gervais and Vincent Lavoie have gathered local, national, and international researchers ranging from graduate students to established scholars and curators to illuminate the staggering range of the collection, from its disquieting record of the Nazis' rise to power to its visual archive of climate change. Each contribution highlights methodological, epistemological, and political issues inherent to conducting research in photographic archives and collections, such as indexing protocols and their impact on research, the photographic archive as a place of visibility and invisibility, and the photographic archive as a hermeneutic tool. Shedding new light on current issues in the theory and history of photography, this impressive volume containing 100 images will not only discuss the subjects portrayed in the photographs but will also address the history of photojournalism, the role of such a photographic archive in our Western societies, and ultimately photography as a medium. Like the other volumes of the RIC Books series (MIT Press/The Image Centre [formerly the Ryerson Image Centre]), this publication will appeal as much to academics of visual history as it will to photography enthusiasts in general.

Blame It on the Black Star Gabriel Morley, 2012-11-01 Westbrook Washington is a bright 14-year-old African-American boy from Mississippi. He is not worried when his 19-year-old brother, Corey, is shipped off to Iraq with the local National Guard unit because the war is pretty much over anyway. But West is surprised when he begins receiving letters from Corey who details his experiences in Iraq and his disillusionment with the war. When Corey is killed by a roadside bomb, West is tasked with writing Corey's obituary for the local newspaper. In the meantime, he teams up with Corey's best friend Ray Ray to find the local Army recruiter who talked Corey into joining the Army so they can beat him up. Along the way, swept up in the anger and confusion over his brother's death, Westbrook steals every American flag in town and burns them at an abandoned train yard. When a WWII veteran who lives near the train yard is critically injured by the fire, both boys realize the potential consequences of their actions and come to understand that childhood is behind them. I'm a librarian and wrote this book because I could not find contemporary, meaningful books for young adult boys. I wanted to write a book that dealt with the experience many boys are facing - an older brother who joins the Army and is then immediately sent to war. One day you are a high school kid, the next day you are being shot at in a foreign country for no reason.
