Black Terror Richard Wesley,2019-03-15 In America's very near future, a guerilla revolution is in progress. A group of youths who call themselves the Black Terrorists has taken up arms against its oppressors. But Keusi, a Vietnam veteran and the group's most prized assassin, harbors counterrevolutionary thoughts. He doesn't believe that all the killing is necessary—he finds it hard to hate, and thinks the Black Terrorists are bravely but poorly led. When the terrorists decide to assassinate a black politician who has pledged to destroy the insurgency, Keusi has grave doubts. Should black men kill black men? When and how will the slaughter end?

The Other Side of Terror Erica R. Edwards, 2021-08-10 WINNER, 2022 John Hope Franklin Prize, given by the American Studies Association HONORABLE MENTION, 2022 Gloria E. Anzaldúa Book Prize, given by the National Women's Studies Association Reveals the troubling intimacy between Black women and the making of US global power The year 1968 marked both the height of the worldwide Black liberation struggle and a turning point for the global reach of American power, which was built on the counterinsurgency honed on Black and other oppressed populations at home. The next five decades saw the consolidation of the culture of the American empire through what Erica R. Edwards calls the "imperial grammars of blackness." This is a story of state power at its most devious and most absurd, and, at the same time, a literary history of Black feminist radicalism at its most trenchant. Edwards reveals how the long war on terror, beginning with the late-Cold War campaign against organizations like the Black Panther Party for Self-Defense and the Black Liberation Army, has relied on the labor and the fantasies of Black women to justify the imperial spread of capitalism. Black feminist writers not only understood that this would demand a shift in racial gendered power, but crafted ways of surviving it. The Other Side of Terror offers an interdisciplinary Black feminist analysis of militarism, security, policing, diversity, representation, intersectionality, and resistance, while discussing a wide array of literary and cultural texts, from the unpublished work of Black radical feminist June Jordan to the memoirs of Condoleezza Rice to the television series Scandal. With clear, moving prose, Edwards chronicles Black feminist organizing and writing on "the other side of terror", which tracked changes in racial power, transformed African American literature and Black studies, and predicted the crises of our current era with unsettling accuracy.

The Black Terror John Kirkwood Leys, 1900

Terror in Black September David Raab, 2007-09-04 On Sunday, September 6, 1970, the Popular Front for the Liberation of Palestine (PFLP) hijacked four airliners bound from Europe for New York. One, a brand new Pan Am 747, was taken to Cairo and blown up only seconds after its passengers escaped. The attempt to hijack a second plane, an El Al flight, was foiled and the plane landed safely in the UK. Two other planes, one TWA and one Swissair, were directed to the desert floor thirty-five miles northeast of Amman, Jordan, where a twenty-five day hostage drama began. With the additional hijacking of a British airliner, over four hundred and fifty hostages had landed in the Jordanian desert. David Raab was on the TWA flight with his mother and siblings but was separated from them and taken to a refugee camp and then to an apartment in Amman where he was held hostage through a civil war. This is his story.
