Starting Out Kaiya Kokoro, 2015-01-25 Your complete anime persona takes account of your unique personality and appearance, and develops and accentuates those traits which have a natural place in an anime life. Your individual characteristics, aside from being developed in alignment with your ideal anime life, are also contrasted with a group of friends, each also committed to developing an anime lifestyle and persona. Together, individual similarities and differences help create a dynamic and fun group environment. And since no anime lifestyle is complete without some exciting plot-line, the group is put into action going on adventures, working on projects, and achieving goals together. In chapter 1, you will take several quizzes to help you determine what anime personality traits you have. This will help you find your niche among the friends who will take the anime dream to the next level, providing a context for your individual character to be fully realized. In chapter 2, you will learn how you can bring the anime dream to its ultimate manifestation by structuring your group around a Group Focus. The Group Focus serves as a kind of plot-line within which talents will be realized and adventures will be had. In chapter 3, you'll learn how to plan exciting adventures. From fun afternoons to overnight trips - adventures of all sorts are discussed in detail, as well as how to make them affordable and safe. Chapter 4 discusses ways to add anime magic to holidays. In addition to traditional Western holidays that are also celebrated in Japan, common Japanese holidays, celebrated in Japan and in anime, will be discussed. We will review ways to incorporate those holidays in your life through small celebrations with your friends. Chapter 5 discusses group projects - activities that you and your friends can work on together such as making a group photo book, sewing costumes, and making anime style accessories. There is even a how-to guide for creating anime-like photos.

One Thing or Your Mother Kirsten Beyer, 2008-01-01 It's tough being a teenage Slayer. On the verge of failing her junior year -- thanks to annoying Principal Snyder, who seems to be acting even stranger than usual lately -- Buffy agrees to meet with a tutor. Not helping her studies is the fact that lately she's been exhausted, waking up each morning feeling more tired than she did the night before. To make matters even worse, she's tasked with investigating the disappearance of a child...a little girl who happens to have gone missing mere hours before a child vampire surfaced in Sunnydale, accompanied by a wheelchair-bound male who fits Spike's description perfectly. Fighting off exhaustion and uneasy at the prospect of staking a child vamp, Buffy learns that Principal Snyder is the target of a sleep-deprivation spell that has taken over Sunnydale. Putting aside her fear that her tutor is out to get her, and hoping that the sleeping spell is affecting both humans and demons, Buffy investigates Snyder's odd behavior. She follows him to his childhood home to discover that he has arranged to have his abusive mother banished to the demon dimension. Meanwhile, Drusilla, who has been playing mother figure to the child vampire, is learning how difficult it is to be a parent. As sleep takes hold of the citizens of Sunnydale, Buffy begins to realize that unless she breaks the spell soon, the nightmare is just beginning.

Kinderfernsehen und Wertekompetenz Petra Grimm, Sandra Horstmeyer, Jutta Weiss, Marc Calmbach, 2003 In unserer Gesellschaft kommt dem Fernsehen als Leitmedium eine wesentliche Bedeutung zu. Es gehört somit auch zur

Alltagswelt von Kindern und liefert ihnen neben Unterhaltung und Informationen Erfahrungen, die fuer die Entwicklung von Wertvorstellungen relevant sein können. Aber welche Werte(systeme) werden in Kinderprogrammen ueberhaupt vermittelt? Dieser Frage geht erstmals die vorliegende Studie nach, in der die Werteprofile von aktuellen Kindersendungen analysiert und Kinder zu ihrem Werteverständnis befragt werden. Darueber hinaus enthält sie einen Leitfaden, der es Eltern und Erziehern ermöglicht, mit Kindern ueber das Fernsehen auf Werte zu sprechen zu kommen und deren Wertekompetenz auszubilden. .

Halo: Shadows of Reach Troy Denning, 2020-10-20 USA TODAY BESTSELLER A Master Chief story and original full-length novel set in the Halo universe—based on the New York Times bestselling video game series! October 2559. It has been a year since the renegade artificial intelligence Cortana issued a galaxy-wide ultimatum, subjecting many worlds to martial law under the indomitable grip of her Forerunner weapons. Outside her view, the members of Blue Team—John-117, the Master Chief; Fred-104; Kelly-087; and Linda-058—are assigned from the UNSC Infinity to make a covert insertion onto the ravaged planet Reach. Their former home and training ground—and the site of humanity's most cataclysmic military defeat near the end of the Covenant War—Reach still hides myriad secrets after all these years. Blue Team's mission is to penetrate the rubble-filled depths of CASTLE Base and recover top-secret assets locked away in Dr. Catherine Halsey's abandoned laboratory—assets which may prove to be humanity's last hope against Cortana. But Reach has been invaded by a powerful and ruthless alien faction, who have their own reasons for being there. Establishing themselves as a vicious occupying force on the devastated planet, this enemy will soon transform Blue Team's simple retrieval operation into a full-blown crisis. And with the fate of the galaxy hanging in the balance, mission failure is not an option...

Black Space Adilifu Nama, 2010-01-01 Winner, Rollins Book Award, Southwest Texas Popular Culture Association/American Culture Association, 2008 Science fiction film offers its viewers many pleasures, not least of which is the possibility of imagining other worlds in which very different forms of society exist. Not surprisingly, however, these alternative worlds often become spaces in which filmmakers and film audiences can explore issues of concern in our own society. Through an analysis of over thirty canonic science fiction (SF) films, including Logan's Run, Star Wars, Blade Runner, Back to the Future, Gattaca, and Minority Report, Black Space offers a thorough-going investigation of how SF film since the 1950s has dealt with the issue of race and specifically with the representation of blackness. Setting his study against the backdrop of America's ongoing racial struggles and complex socioeconomic histories, Adilifu Nama pursues a number of themes in Black Space. They include the structured absence/token presence of blacks in SF film; racial contamination and racial paranoia; the traumatized black body as the ultimate signifier of difference, alienness, and otherness; the use of class and economic issues to subsume race as an issue; the racially subversive pleasures and allegories encoded in some mainstream SF films; and the ways in which independent and extra-filmic productions are subverting the SF genre of Hollywood filmmaking. The first book-length study of African American representation in science fiction film, Black Space demonstrates that SF cinema has become an important field of racial analysis, a site where

definitions of race can be contested and post-civil rights race relations (re)imagined.

The Animated Movie Guide Jerry Beck, 2005-10-28 Going beyond the box-office hits of Disney and Dreamworks, this guide to every animated movie ever released in the United States covers more than 300 films over the course of nearly 80 years of film history. Well-known films such as Finding Nemo and Shrek are profiled and hundreds of other films, many of them rarely discussed, are analyzed, compared, and catalogued. The origin of the genre and what it takes to make a great animated feature are discussed, and the influence of Japanese animation, computer graphics, and stop-motion puppet techniques are brought into perspective. Every film analysis includes reviews, four-star ratings, background information, plot synopses, accurate running times, consumer tips, and MPAA ratings. Brief guides to made-for-TV movies, direct-to-video releases, foreign films that were never theatrically released in the U.S., and live-action films with significant animation round out the volume.

Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book.
