Terminator Omnibus Volume 1 James A. Robinson, 2008-02-19 They came from another time to ensure that the future would belong solely to the machines. They are Terminators indestructible killing engines hiding inside shells of flesh and blood. Tireless, fearless, merciless, unencumbered by human emotion, dedicated to the complete eradication of mankind. But despite the frailty of human flesh, nothing is as immortal as the human spirit, and even the strongest metal will bend by the will of a mother fighting for the future of her children. Dark Horse Comics has long been regarded as the heavyweight champion of adapting film blockbusters to graphic fiction, and The Terminator is one of the finest examples of bringing top comics talents to the expansion of a premier action/adventure mythos. The Terminator: The Original Comics Series-Tempest and One Shot John Arcudi, James A. Robinson, 2017-12-19 Heartless, mechanical cruelty meets dogged human courage and perseverance! In the aftermath of the events in James Cameron's The Terminator (1984), John Connor sends a strike team into the past to destroy Cyberdyne, the company that will eventually create the world-controlling computer Skynet. But the machines counter by sending a team of Terminators to block the attempt—turning Los Angeles into a war zone! Before Terminator 2: Judgment Day or any of the other film sequels, Dark Horse Comics carried the torch for the Terminator saga, creating a continuity that carried the action across the world and across time. The story in this volume, by John Arcudi and Chris Warner, paved the way for a rich parade of sequel tales. Terminator 3: Terminator Hunt Aaron Allston, 2013-11-05 Riding the crest of popularity following Terminator 3: Rise of the Machines, Terminator Hunt continues the action where Aaron Allston's first Terminator 3 novel,

Terminator Dreams left off, with an exciting original story of John Connor, Kate Brewster, and the human Resistance battling Skynet and its deadly robots. 2029 A.D.: Paul Keeley is a member of the Resistance who died over a year ago-or so everyone thinks, until he awakens in a hospital room and stumbles out into a raging battle between John Connor's elite team of Hellhounds and a group of Skynet robots led by the deadly Terminatrix. Back at Home Plate, Resistance headquarters, members of the Resistance discover that Paul has been brainwashed by Skynet. Living in a computer-simulated dream of the twentieth century, Paul, an expert on twentieth century life, was being used as part of an effort to train the T-X terminator for a time jump. John and Kate have no way of knowing where the jump will occur, so to prevent it from happening at all, they launch a daring plan to use John Connor as bait to capture the T-X. Meanwhile, Paul remains under suspicion, since no one knows how the brainwashing may still affect him. Capturing the T-X proves to be a deadly task with consequences nobody could foresee. The danger and suspense mount as Resistance action leads to an epic battle pitting human ingenuity and sheer courage against the coldblooded logic of machine intelligence. Fans of Terminator 3: Rise of the Machines will not be disappointed. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Terminator 3: Terminator Dreams Aaron Allston, 2013-11-05 Despite the heroic

efforts of John Connor and Kate Webster, and the ultimate sacrifice of a T-850 terminator, Skynet became operational and mobilized its machine forces in all-out war against its prime enemy: mankind. More than twenty years later the war continues, fought by human resistance forces led by John and Kate, and by people in secret enclaves around the world. Raiding machine facilities, using small guerrilla forces to sabotage and destroy Skynet forces, the resistance is holding its own . . . but it's not enough. The self-aware AI that controls the robot terminators, the hunter-killers, and the rest of what used to be America's arsenal is too smart, too quick, too flexible to be defeated. Or perhaps the answer to human victory lies shrouded behind the mists of time. Before Judgment Day, Danny Avila was a programmer on the project that became Skynet. In the months leading up to Judgment Day he began to have nightmares involving Terminators rampaging and destroying the world. Then, two days before the holocaust, he disappeared. Found years later by John and Kate, completely amnesiac about events of his life prior to Judgment Day, he became a useful member of the resistance, with an uncanny ability to predict Skynet tactics. Now he is having Terminator dreams again, dreams of the days when he was on the Terminator design team . . . of the days when the world was on the path to destruction. Could there be some kind of psychic link between the Danny of today and the Danny of nearly thirty years ago---a mental wire through which thoughts and images are transmitted forward and backward in time? Might this one desperately stressed man living in two eras be the time machine the resistance needs to undo the devastation of Judgment Day? A daring and dangerous experiment may prove the salvation of mankind's future . . . At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

If You Like The Terminator... Scott Von Doviak, 2012-05-01 (If You Like). The Terminator began life as a low-budget B movie seemingly destined for a short run at malls and drive-ins before blossoming into a billion-dollar franchise that launched the careers of director James Cameron and star Arnold Schwarzenegger. The original 1984 film not only spawned three sequels, a weekly television series, and countless novels, comic books, and videogames, it also redefined the science fiction genre with its blend of high tech and film noir. Here is the first book to explore the spectacular array of films, television shows, and other works that helped inspire The Terminator, as well as those that have drawn inspiration from it. *If You Like The Terminator ...* delves into the history of science-fiction cinema, from its earliest days to the golden age of the 1950s and beyond, encountering killer robots, time travelers and postapocalyptic wastelands along the way. This turbo-charged journey through time also reviews the improbable career of Arnold Schwarzenegger, revisits the action heroes of the 1980s, and reevaluates the films of James Cameron, before touching down in the computer-dominated realm of today's science fiction cinema and projecting the future of the Terminator franchise. From Metropolis to The Matrix, from Frankenstein to RoboCop, from H. G. Wells and Harlan Ellison to Roger Corman and Roland Emmerich, you'll find them all here in *If You Like The Terminator*.
