The Restorer's Reference BMW 2002 1968-1976 provides restorers, collectors, and enthusiasts all the key information necessary to correctly refurbish these classic German coupes. As the value of these cars continues to rise, it's more important than ever to ensure accuracy in restoration and preservation. From exterior colors to the myriad small details of the engine and interior, The Restorer's Reference BMW 2002 1968-1976 covers all of the details that add up to a correct, original car./div

BMW 2002 Ultimate Portfolio 1968-1976 ,2007-05-01 The 2002 began as the brainchild of Max Hoffmann, BMW's US importer, who wanted a car to follow up the 1600-2. Hoffman suggested using the 2-liter engine from its larger saloons, which would give excellent performance even in emissions-controlled form. The BMW engineers did as Hoffmann suggested and the result took the motoring world by storm on its announcement in 1968. So popular did the 2002 become that it went on to sell more than 300,000 examples over the seven years of its production. The original 2002 was complemented by a whole range of derivatives - convertible, hatchback touring models and finally, the legendary 2002 Turbo. The 2002 models are widely and rightly recognized as classics of their period and enjoy a large and committed following. This book forms an invaluable reference work and will be welcomed by enthusiasts everywhere.

Bmw 2002 Gold Portfolio 1968-1976 R. M. Clarke, 1993-09-15 The 2002 began as the brainchild of Max Hoffmann who wanted a car to follow up the 1600 in the USA. Because of emission regulations the logical choice was the 2-litre engine from the larger saloons. The car was announced in 1968 and was so popular that it sold more than 300,000 examples over the seven years of its production. There were a range of derivatives and when the last 2002 was produced in 1975 the grand total was just under 418,000. Ran When Parked Rob Siegel, 2017-05-05 The author buys a long-dead vintage BMW sight-unseen, travels a thousand miles to where it sits, gets it running, and drives it home. During the twelve-day trip, he finds that what began as a story of man-versus-machine turns into something else entirely--a story of the kindness of strangers, and how doors sometimes open exactly when you need them to. Rob Siegel is a writer with the mind of a mechanic and a mechanic with the mind of a writer. He's also an old-school romantic of the best kind, and one of the few people who understands what car culture really means to the people invested in it-free of stereotype, cliché, or pat sentiments you've read a thousand times before. Like all of his writing, *Ran When Parked* focuses heavily on the why behind the hobby. It's a mix of casual, long-form blog entry; detailed how-to; and emotive confessional; most of all, he seems to believe the world would be a better place if everyone else followed on his crazy path and devoted their free time to resurrecting old iron. He's right. -Sam Smith Editor at Large,

The Best of the Hack Mechanic Rob Siegel, 2021-05-21 In 1986, after owning eleven BMWs in three years, Rob Siegel sent an unsolicited article to Roundel, the magazine of the BMW Car Club of America. Little did he know that it would kick off 35 years of do-it-yourself automotive writing, and that his monthly column The Hack Mechanic? would attract a community of like-minded enthusiasts who, like Rob, try to come up with creative workarounds to keep their cars running without taking them to the dealer every time they hiccup. More than just use 10mm wrench on bolt B instructions, though, the columns have always been small journeys into passion and problem solving, philosophy lessons disguised as a repair articles, and short stories about getting into and hopefully out of automotive trouble. The Best Of The Hack Mechanic? is a selection of these pieces, including ones on how to buy a vintage BMW and not get burned, the most creative way possible to lock your keys in a running car, why car folks will do just about anything to avoid buying a family minivan when the money obviously

would be so much better spent on something fun, why a car nut really does need seven cars, why the odds of having a car start is often inversely proportion to the number of cars in the driveway, why finding one of his father's tools is enough to make Rob cry, and why working on your car feels so damned good, all written in Rob's Hack Mechanic voice that hovers somewhere between J.D. Salinger, Bill Bryson, and David Sedaris. Informative, irreverent, and poignant, *The Best Of The Hack Mechanic?* will have you hoping Rob has another 35 years of columns in him.

Resurrecting Bertha Rob Siegel, 2019-09-15 To most people, cars are just appliances to be disposed of when they rust, become unreliable, or are outgrown. But to car people, it's different. Cars are like photographs that occupy physical space. They hold aromas that trigger memories, and remind us of who we once were. In addition, to some people, the relationship with the car itself is a real thing. Many enthusiasts pine for the cars of their youth, regret that they ever let them go, and yearn and search for them the way people do with old lovers, hoping to find them and rekindle that old spark. In *Resurrecting Bertha*, Rob Siegel assures you that this is normal (well, as normal as anything is with car people), and embarks on this journey himself. Writing in his trademark Hack Mechanic voice that's enthralled readers for 35 years, Rob describes his original eight-year relationship with his highly-modified 1975 BMW 2002 Bertha, selling the car to a dear friend, its 26 years of storage, and buying it back in a weak whisky-soaked moment only to experience the oh dear God what did I just do regret when he raises the long-closed garage door and comes face-to-face with the badly deteriorated car. The book details the steps Rob went through to get the car running, then driving, then sufficiently sorted to make a 2000-mile drive, and how the reconnection with the car was so much deeper than he expected. *Resurrecting Bertha* is about more than just the nuts and bolts; it's about deciding what's important, the joy of doing good, and how, if you do it right, not only can you go home again, but you can do so in the same car.
