Stefan Bellof. L'ultima curva Piero Tecchio, 2022-12-13 PREFAZIONE di PAOLO CICCARONE, giornalista e direttore responsabile di RMC motori. Stefan Bellof è stato una figura di rilievo del motorismo degli anni Ottanta pur essendo mancato già nel 1985. Nei pochi anni in cui ha corso ha messo in mostra classe e coraggio che ce lo fanno ricordare anche a quasi quarant'anni dalla scomparsa. Questo libro ne ripercorre la vita, dai primi passi nel kart e nelle formule minori, fino a quando diventò Campione del mondo con le Sport Prototipi nel 1984 con la Porsche 956. E soprattutto ce lo fa conoscere anche nella vita privata, svelando una personalità interessante e dalle molteplici sfaccettature. Un personaggio che amava prendere sul serio le corse, ma che per il resto amava scherzare e ridere. Un uomo che purtroppo è volato via troppo presto, lasciando un senso di incompiuto nei suoi tanti ammiratori che pure lo ricordano per quel fantastico record sul giro ottenuto al

Nürburgring e per quella splendida prestazione sotto l'acqua battente messa in mostra a Montecarlo in Formula 1 nel 1984.

Derek Bell Richard Heseltine, Derek Bell, 2018-08-14 Derek Bell's name became inextricably linked with that of Porsche during his long and hugely successful career as a racing driver. In this new 276-page book, Bell collaborates with renowned motorsport author Richard Heseltine to give the reader a very personal insight into his experiences racing for the legendary German marque. The approach taken by this latest publication from Porter Press International is to look at every race Bell drove for Porsche, in detail and with revealing comments from the book's subject. Light is cast on Bell's most prestigious victories with Porsche - four of his five in the Le Mans 24 Hours, three in the Daytona 24 Hours, two in the World Sportscar Championship - and many more besides. Bell describes the Porsches he raced, from the fearsome 917 to the iconic 956, 962, and 911. And he shares his thoughts on the now-legendary drivers he raced with, including six-time Le Mans winner Jacky Ickx, the famously flamboyant Hans Stuck, and two immense talents who lost their lives to the sport, Jo Siffert and Stefan Bellof. The overall effect is a fascinating trip back in time to a golden era for Porsche and sports car racing as a whole.

BMW Racing Motorcycles Laurel Allen, Mark Gardiner, 2008-05-15 Here is the intriguing story of one of the world's most admired and enduring motorcycle companies, and how their fortunes were molded by a determination to win races. Early in the last century, the fledgling company decided to test its products, demonstrate the quality of its designs, and showcase German technology by winning competitions. That determination has lasted to this day, as BMW has remained a formidable competitor in various venues of motorcycle racing. The book covers the company's early mutation from aircraft engine builder to producer of reliable, high-quality motorcycles. Its development of supercharged engines, advanced suspension systems, and many other innovations led to its dominance of various race competitions at different times, with many of those technologies making their way into production motorcycles. BMWs have long been known for reliability and endurance; it is precisely those characteristics which gave the company the deciding advantage in sidecar racing, endurance competitions, and Superbike racing.

Gasoline and Magic Hilar Stadler, Martin Stollenwerk, 2015-02 Everything about them is cool. The

baby blue Porsche 917, the Chevy Camaro, the blue-, red- and yellow-striped overalls, the boys in low-buttoned shirts, sporting moustaches and a full head of hair, with the sunshine in their faces. Women wearing thick eyeliner and bell-bottoms, girls in crocheted bikinis at the finishing line, garlands of flowers for the winner. Motor sports in the 1960s, '70s and '80s gave rise to a whole world of imagery that arouses a certain wistfulness nowadays. Not only a nostalgia for beautiful old racing cars, but a more comprehensive yearning for the days when even major auto races were still held on ordinary roads, when ambitious auto mechanics would tinker away at a racing car in the local garage and international Grand Prix stars were still approachable. Gilles Villeneuve pushes a strand of hair behind his ear, Pedro Rodriguez rests up on a little stone wall, Jo Siffert stands around in white jeans and cowboy boots, Ayrton Senna is absorbed in thought. The cars race through Monaco and Le Mans and over the hills of Palermo. Most of the pictures in *Gasoline and Magic*, often impressive and quasi intimate shots, were taken by amateur photographers, who now share with us their fascination with fast cars. Swiss filmmaker and collector Thomas Horat spent years tracking down, labeling and archiving these pictures, which he now presents for the first time to the world at large in *Gasoline and Magic*.

The House that Pinterest Built Diane Keaton, 2017-10-10 At once a style guide, an inspirational tome, and a how-to volume on creating one's home, this book will serve as a go-to reference for all those seeking to spur their own creativity as they embark on the creation of home. When Diane Keaton decided that she wanted to build her own home from the ground up, she took the advice of her dear friend, film director Nancy Meyers, and took to the boards of Pinterest to find inspiration. There she discovered the practical and the fantastical, elements and styles long adored and ones that she never knew she was drawn to. Keaton's dream house was officially under way and this book that resulted is a compelling account of her that house, from idea to realization in brick, stone, and wood. *The House that Pinterest Built* defines what home and house mean to the celebrated movie star, who is known for her love affair with houses and design. Filled with ideas that reveal a personal yet engaging aesthetic, this volume includes compelling photos from Keaton's past homes and those she admires, as well as a multitude of details from every corner of those spaces and objects that excite and inspire the house designer and dreamer—dramatic staircases and magical light fixtures, film stills and book covers, pottery and art—drawn from the visual treasure trove known as Pinterest and Keaton's private collection, as she creates and designs her newest house. Rich imagery is accompanied by Keaton's ideas for selecting furniture, kitchen layout, and bedroom design; she talks

about the importance of lighting in the bathroom and why the living room needs to be reimagined. Beyond the interior, she explores curb appeal and environmental sensitivity, always with an eye to making home the way it should be—a place of tranquility, a place where one is restored and where one returns to dream again and again. The book culminates in the dream realized, the house she has imagined, designed, and made, now shared with the world for the first time in all-new photography. “If you want to explore. If you love to see. If you’re looking to look; this book is an example of a home made from the gifts of other people’s addictive yearnings for the perfect home, with the perfect landscape and the perfect interior. It illustrates my choices of your choices. Who knows, you might find one of your pins here. You might smile. You might shake your head and say, ‘This isn’t what I had in mind.’ You might think: ‘Hey that’s my kitchen. She copied my kitchen.’ But the truth is, as much as I tried, I could never entirely recreate the light filled photograph of a kitchen that led the way to the journey that brought me here. No one can.” – Diane Keaton

Success Manifesto Nick Nanton, Jw Dicks, Brian Tracy, 2016-08-11 Action is the foundational key to all success. Pablo Picasso What does it take to succeed? How can I succeed? These are the questions that have been asked over the years. One method of learning more is to review the Success Manifesto of those who have attained success in their fields. As we know, a manifesto is a public declaration of intentions, motives or views. In this book, the CelebrityExperts(R) herein share their experiences in their various fields. Like most readers, these authors began their missions at ground zero. As they progressed to success, they harnessed or developed many traits that they share. These traits typically include: a vision or chosen goal, perseverance, a knowledge of and passion for the subject, a willingness to take calculated risks, a plan, and the courage to take action. Regardless of the goals the authors have chosen, by using their ideas to mentor you, you can profit from their experiences, both positive and negative - thereby avoiding a loss of time and resources as you move closer to your own goal(s). So, are you ready? If you are, then go into action and start the process. Just think - one day you could write your own Success Manifesto It had long since come to my attention that people of accomplishment rarely sat back and let things happen to them. They went out and happened to things. Leonardo da Vinci

International Facility Management Kathy Roper,Lisa Borello,2014-02-17 This up-to-date compilation of topics on the maturity and changes occurring within facility management worldwide offers insights into the growth and development of FM and its impact on today's business organisations. International Facility Management presents a comprehensive and diverse collection of topics that provides current, cutting edge research in the evolving field of FM. The editors here offer a holistic approach to both the study and the practice of facility management, incorporating the perspective of scholars and practitioners from across the globe. Topics covered deal with the changes occurring in the field today and include key research areas for both academics and practitioners. The focus is on actual practice of FM organizations – rather than on what FM should be - and the authors examine the latest techniques, models and case studies to provide a unique exploration of the new global world of facility management. Chapters here cover the changing spectrum of topics including sustainability and energy conservation, and workplace transitions for greater collaboration. The international scope and emphasis on maturity and professionalism of the field further sets this book apart from its competitors.
