Pacific Clipper Albert S. J. Tucker, Matthew W. Paxton, 2001

Night Over Water Ken Follett, 2011-06-04 Set during the outbreak of the Second World War, *Night Over Water* is about a perilous journey across the Atlantic to escape Britain, from the number one bestseller and master of the historical thriller, Ken Follett. The Eve of War Britain has just declared war against Nazi Germany. In Southampton, the world's most luxurious airliner, the Pan American Clipper, takes off on its final flight to neutral New York – a haven for those fleeing the conflict. A Disparate Group Flees The passengers aboard the plane each have their own reasons for leaving Britain. Amongst them are an English aristocrat fleeing with his family and a fortune in jewels; a German scientist running away from the Nazis; a murderer returning under FBI escort; a wife escaping her controlling husband; and a devious thief determined to keep his spoils. A Journey into Danger Trapped on the plane, with only their fellow passengers for company, their journey over the Atlantic becomes increasingly fraught. Especially when it becomes apparent a plot is unfolding that may endanger all of their lives

. . .
The Pan Am Clipper Roy Allen, 2018-03 The history of Pan American Airways is, to a great degree, the story of international air transport and, within that, the flying-boat is one of the airliner's most recognizable aircraft. The Pan Am Clippers, as the Boeing B-314s, Sikorskys and Martin M-130s were known, were probably the most romantic planes ever built. The experience of flying in them was intended to rival the great ocean liners that had previously been the only way for passengers to cross the globe. Sleeping berths, lounges, silver goblets and meals on real china served by white-coated stewards were all part of the Clipper experience. The Pan Am Clipper covers one of aviation history's most inspiring and magical periods. Illustrated with more than 100 archive photographs, this impressive book is a tribute to a technical wonder that continues to fascinate and captivate many people today.

The Long Way Home - Revised Edition MR Ed Dover, 2010-11 ...the story of the Pacific Clipper, a B-314 caught between Noumea, New Caledonia and Auckland, New Zealand at the outbreak of World War II and ordered to return home by flying west around the world in radio silence to avoid capture or destruction by enemy forces.--P. [4] of cover.

High Hulls Charles R. G. Bain , 2018-11-27 For a time, the flying boat was seen as the way of the future. These aircraft, so strange and foreign to the modern mind, once criss-crossed the world and fulfilled essential military roles. In his latest book for Fonthill, Charles Bain looks at the golden age of the flying boat, when these sometimes strange and often beautiful vessels spanned the globe. These vessels-a combination of ship and airplane-found themselves working as patrol aircraft, passenger aircraft, transports, and even as combat aircraft. This volume contains their stories, from memorable aircraft such as the Short Sunderland and Boeing 314 Clipper, to the craft that roamed the Pacific Theatre of the Second World War, to forgotten giants from Saunders-Roe and even strange jet fighters that once landed like ducks. It even includes the flying boat that has not let time get in

the way of doing its job-the Martin Mars. Each of these aircraft has a story worthy of the telling, and often a memorable role to play in the history of aviation. 'High Hulls' delves deeply into a long-vanished part of aviation's golden age.

The Dakota Hunter Hans Wiesman,2015-03-19 A tale of a lifelong passion for a WWII aircraft that changed the author's life: "It is almost like an adventure novel except it is true" (Air Classics). This book tells the story of a Dutch boy who grew up during the 1950s in postwar Borneo, where he had frequent encounters with an airplane, the Douglas DC-3, a.k.a. the C-47 Skytrain or Dakota, of World War II fame. For a young boy living in a remote jungle community, the aircraft reached the proportions of a romantic icon as the essential lifeline to a bigger world for him, the beginning of a special bond. In 1957, his family left the island and all its residual wreckage of World War II, and he attended college in The Hague. After graduation, he started a career as a corporate executive—and met the aircraft again during business trips to the Americas. His childhood passion for the Dakota flared up anew, and the fascination pulled like a magnet. As if predestined, or maybe just looking for an excuse to come closer, he began a business to salvage and convert Dakota parts, which meant first of all finding them. As the demand for these war relic parts and cockpits soared, he began to travel the world to track down surplus, crashed, or derelict Dakotas. He ventured deeper and deeper into remote mountains, jungles, savannas, and the seas where the planes are found, usually as ghostly wrecks but sometimes still in full commercial operation. In hunting the mythical Dakota, he often encountered intimidating or dicey situations in countries plagued by wars or revolts, others by arms and narcotics trafficking, warlords, and conmen. The stories of these expeditions take the reader to some of the remotest spots in the world, but once there, one is often greeted by the comfort of what was once the West's apex in transportation—however now haunted by the courageous airmen of the past.

Escape of the Pacific Clipper George L. Flynn,1997-01-01 The Escape of Pan Am's Pacific Clipper on its maiden voyage is a true story of adventure and suspense. In 1941, the Pacific Clipper was a technological marvel and the finest commercial plane in the air. Not only did Japan and Germany seek the capture of such a desirable prize, but

America's allies and friends looked for ways of laying claim to her. Trapped in New Zealand after the bombing of Pearl Harbour, with all their Pacific bases under attack or captured, the valiant crew of eleven men challenged the Imperial Japanese Navy, 30,000 miles of uncharted waters, and the German Luftwaffe to try for a safe landing in America. With courage and skill, the crew of the Pacific Clipper eluded the pursuing Japanese through Australia, Indonesia, Ceylon, and India. In Iran, the Germans took up the chase through Egypt, the Congo, and Brazil. After a final stop at Trinidad, the heroic crew brought the Clipper home to New York and the final showdown. Without arms, money or proper maintenance facilities, and under strict radio silence, they succeeded where most would have given up or failed. Their gripping tale and magnificent odyssey is captured by George Flynn and illustrated with maps, schematics, and technical data on this revolutionary mono-wing seaplane.

Pan American Clippers James Trautman, 2019 Illustrated with rare period photographs, vintage travel posters, magazine ads and colorful company brochures, Pan American Clippers covers every aspect of the era of flying boats, from 1931-1946. Trautman explains PanAm's founding and growth, their wartime activities, and the design choices that made the company a symbol of luxury. --

China Clipper - Floatplanes Of Pan Am Larry W Jones, 2021-08-16 This publication, *China Clipper - Floatplanes Of Pan Am*, is the only book to document all the 4-engine Clippers operated by Pan American and BOAC (British Overseas Airways Corp). China Clipper Robert Gandt, 2010-10-01 When the China Clipper shattered aviation records on its maiden six-day flight from California to the Orient in 1935, the flying boat became an instant celebrity. This lively history by Robert Gandt traces the development of the great flying boats as both a triumph of technology and a stirring human drama. He examines the political, military, and economic forces that drove its development and explains the aeronautical advances that made the aircraft possible. To fully document the story he includes interviews with flying boat pioneers and a dynamic collection of photographs, charts, and cutaway illustrations.

Skygods Robert Gandt, 1999 In 1966, Pan American Airways reached the zenith of its wealth & influence. Its pilots were lords of the sky; Skygods. Under aviation pioneer Juan Trippe's autocratic control, Pan Am bought jet airliners before its competitors & made record profits. It was the first U.S. airline to order the supersonic transport; it accepted reservations for the first service to the Moon. Then Pan American Airways fell to earth. In Skygods, Robert Gandt, a Pan Am pilot for 26 years, gives an inside account of the great airline's unprecedented

demise. He interviewed hundreds of former Pan Am airmen & executives. He reveals how Pan Am's captains, in Navy-style uniforms, once commanded their ships like petty tyrants. They were the best & brightest in airline industry, but there were disturbing stories of captains who allowed stewardesses to land their aircraft, flew them at the wrong altitude & in the wrong direction & who tragically disappeared, often without a trace. All was not well either in the Pan Am Building, the massive landmark in New York where a succession of impulsive & short-sighted CEOs combined to preside over the demise of a great airline. Pan Am bought a domestic airline it did not need; bought aircraft it did not need & operated half-empty planes on low-density routes. It sold the entire Pacific network for a bargain price & sold precious assets to meet its payrolls. And then came the Lockerbie tragedy. This is a fascinating account of what can go wrong with a pillar of strength of the U.S. industry, when its leaders lose their sense of direction & when their star employees-the Skygods-discover that they are mere mortals.

The Story of American Aviation Jim Ray,2019-11-29 This book traces the history of aviation in America, from its early days to post-World War II. The book covers a range of topics, including the first transatlantic flight, the birth of precision bombing, the development of the first aircraft carrier, and the growth of commercial air travel. It also provides a detailed account of key events and innovations in American aviation and the impact of aviation on modern society.

Pan American World Airways Laura J. Hoffman with retired Pan Am Captain Duyane A. Hoffman,2015 In 1927, American entrepreneur Juan T. Trippe founded what would later become Pan American World Airways, one of the world's most prominent airlines of the 20th century. From the very first airmail flight flown from Key West to Cuba, Trippe provided leadership and innovation that put Pan Am at the top of the commercial airline industry. His global pioneering spirit expanded the world's reach for the masses while at the same time provided the most glamorous of air-travel experiences. The rise and fall of an American empire is examined in this full-color postcard history of Pan Am.

20th Century Passenger Flying Boats Leslie Dawson,2021-04-20 From Henri Fabre's first successful take-off from water, to the introduction of a hull (rather than floats) by American Glenn Curtiss, to the world-wide development of huge, ocean-crossing flying boats on both sides of the Atlantic - the passenger flying boat era continues to fascinate aviation enthusiasts and historians alike. It is a sadly missed epoch of flight. In this pictorial account, the reader embarks on a fast-moving journey, from the pioneering early years to the present day. The book features images sourced from private, public and corporate archives around the world.
