The Slaughter of Farmed Animals Temple

Grandin,Michael Cockram,2020-06-03 This book provides both evidence-based scientific studies and practical guidance to enhance the welfare of cattle, pigs, sheep and poultry at slaughter. Temple Grandin and Michael Cockram have brought together a range of international experts to prepare chapters on philosophical and ethical views on the slaughter of farmed animals. These include welfare issues and their assessment, the condition of animals on arrival and their management during lairage, animal handling, methods of humane slaughter and assessment of

unconsciousness. The book boldly tackles controversial issues around the compromises necessary when balancing animal welfare concerns with commercial realities, as well as religious slaughter. Chapters cover methods of stunning, pre-slaughter handling, equipment design, monitoring welfare with abattoir data and auditing methods. It is an important publication for those involved in implementing improvements in the humane slaughter of farmed animals and is recommended for veterinarians, students, abattoir managers and government regulators.

**Principles of Angels** Jaine Fenn, 2010-09-16 Khesh City floats above the surface of the uninhabitable planet of Vellern. Topside, it's extravagant, opulent, luxurious; the Undertow is dark, twisted and dangerous. Khesh City is a place where nothing is forbidden - but it's also a democracy, of sorts, a democracy by assassination, policed by the Angels, the élite, state-sponsored killers who answer only to the Minister, their enigmatic master. Taro lived with Malia, his Angel aunt, one of the privileged few, until a strange man bought

his body for the night, then followed him home and murdered Malia in cold blood. Taro wants to find the killer who ruined his future, but he's struggling just to survive in the brutal world of the Undertow. Then an encounter with the Minister sets him on a new course, spying for the City; his target is a reclusive Angel called Nual. Elarn Reen is a famous musician, sent to Khesh City as the unwilling agent of mankind's oldest enemy, the Sidhe. To save her own life, she must find and kill her ex-lover, a renegade Sidhe. Though they come from different worlds, Taro and Elarn's fates are linked, their lives apparently forfeit to other people's schemes. As their paths converge, it becomes clear that the lives of everyone in Khesh City, from the majestic, deadly Angels to the barely-human denizens of the Undertow, are at risk. And Taro and Elarn, a common prostitute and an uncommon singer, are Khesh City's only chance

**Hand-arm vibration: Exposures to isolated and repeated shock vibrations** Paul Pitts, Uwe Kaulbars, Hans Lindell, Snævar Leó Grétarsson, Michael Machens, Anthony J. Brammer, Gongqiang Yu, Thomas Schenk, Fabian

Haas,2017-09-01 ISO 5349, developed by ISO Technical Committee ISO/TC 108, "Mechanical vibration and shock", is the generic standard for the measurement and assessment of human vibration exposure. Ever since it was originally published in 1986, this standard has been unclear in its assessment of repeated isolated shocks. The current version of ISO 5349-1:2001 states in its scope that the time dependency for human response to repeated shocks is not fully known. Caution is therefore advised in the application of this part of ISO 5349 to such vibration (isolated shocks). In response to an initiative on the part of the ISO/TC 108 Technical Committee, a workshop was held at the 13th International Conference on Hand-Arm Vibration in Beijing in 2015 for the purpose of determining the current state of knowledge concerning exposure to repeated isolated shock vibration caused by machinery and tools and its pathophysiological and epidemiological assessment, and evaluating gaps in knowledge in the interests of future research activity. This report contains the papers presented at the workshop. Part I provides an overview of the results of the workshop and of details of two papers. Part II contains a research report containing background information on two further papers presented at the workshop.

Despite this collector interest exists, and the hardy little rifle has served faithfully around the globe, with descendants of it still in service today. Meet the rifle that served in the hands of the French Foreign Legion, the German Army, with the Viet Minh and later the Viet Cong, and now serves with Syrian and Kurdish fighters.
