Bomb (Graphic Novel) Steve Sheinkin, 2023-01-24 A riveting graphic novel adaptation of the award-winning nonfiction book, *Bomb*—the fascinating and frightening true story of the creation behind the most destructive force that birthed the arms race and the Cold War. In December of 1938, a chemist in a German laboratory made a shocking discovery: When placed next to radioactive material, a Uranium atom split in two. That simple discovery launched a scientific race that spanned three continents. In Great Britain and the United States, Soviet spies worked their way into the scientific community; in Norway, a commando force slipped behind enemy lines to attack German heavy-water manufacturing; and deep in the desert, one brilliant group of scientists was hidden away at a remote site at Los Alamos. This is the story of the plotting, the risk-taking, the deceit, and genius that created the world's most formidable weapon. This is the story of the atomic bomb. New York Times bestselling author Steve Sheinkin's award-winning nonfiction book is now available reimaged in the graphic novel format. Full color illustrations from Nick Bertozzi are detailed and enriched with the nonfiction expertise Nick brings to the story as a beloved artist, comic book writer, and commercial illustrator who has written a couple of his own historical graphic novels, including *Shackleton* and *Lewis & Clark*. Accessible, gripping, and educational, this new edition of *Bomb* is perfect for young readers and adults alike. Praise for *Bomb* (2012): “This superb and exciting work of nonfiction would be a fine tonic for any jaded adolescent who thinks history is 'boring.' It's also an excellent primer for adult readers who may have forgotten, or never learned, the remarkable story of how nuclear weaponry was first imagined, invented and deployed—and of how an international arms race began well before there was such a thing as an atomic bomb.” —The Wall Street Journal “This is edge-of-the seat material that will resonate with YAs who clamor for true spy stories, and it will

undoubtedly engross a cross-market audience of adults who dozed through the World War II unit in high school.” —The Bulletin (starred review) Also by Steve Sheinkin: Fallout: Spies, Superbombs, and the Ultimate Cold War Showdown The Port Chicago 50: Disaster, Mutiny, and the Fight for Civil Rights Undeclared: Jim Thorpe and the Carlisle Indian School Football Team Most Dangerous: Daniel Ellsberg and the Secret History of the Vietnam War Born to Fly: The First Women's Air Race Across America The Notorious Benedict Arnold: A True Story of Adventure, Heroism & Treachery Which Way to the Wild West?: Everything Your Schoolbooks Didn't Tell You About Westward Expansion King George: What Was His Problem?: Everything Your Schoolbooks Didn't Tell You About the American Revolution Two Miserable Presidents: Everything Your Schoolbooks Didn't Tell You About the Civil War

The Bomb Howard Zinn, 2010-08-01 As a World War II combat soldier, Howard Zinn took part in the aerial bombing of Royan, France. Two decades later, he was invited to visit Hiroshima and meet survivors of the atomic attack. In this short and powerful book, Zinn offers his deep personal reflections and political analysis of these events, their consequences, and the profound influence they had in transforming him from an order-taking combat soldier to one of our greatest anti-authoritarian, antiwar historians. This book was finalized just prior to Zinn's passing in January 2010, and is published on the sixty-fifth anniversary of the bombing of Hiroshima. Simultaneous publication this August in the U.S. and Japan commemorates the 65th anniversary of the USA's two atomic bombings of Japan by calling for the abolition of all nuclear weapons and an end to war as an acceptable solution to human conflict. Zinn writes with an enthusiasm rarely encountered in the leaden prose of academic history...—New York Times Book Review This collection of essays is a great book for anybody who wants to be better informed about history, regardless of their political point of view.—O, The Oprah Magazine Zinn collects here almost three dozen brief, passionate essays...Readers seeking

to break out of their ideological comfort zones will find much to ponder here.—Publishers Weekly A bomb is highly impersonal. The dropper can kill hundreds, and never see any of them. The Bomb is the memoir of Howard Zinn, a bomber in World War II who dropped bombs along the French countryside while campaigning against Germany. After learning of Hiroshima and Nagasaki, Zinn now speaks out against the use of bombs and what it can do to warfare. Thoughtful and full of stories of an old soldier who regrets what he has done, The Bomb is a fine posthumous release that shares much of the lost wisdom of World War II.—James A. Cox, The Midwest Book Review Throughout his academic career, his popular writings and work as an activist Zinn consistently, and often successfully, threw a wrench in the works of the US war machine. He may be gone, but through his powerful and passionate body of work—of which The Bomb is an excellent introduction—thousands of others will be educated and inspired to work for a more humane and peaceful world.—Ian Sinclair, Morning Star The path that Howard Zinn walked—from bombardier to activist—gives hope that each of us can move from clinical detachment to ardent commitment, from violence to nonviolence.—Frida Berrigan, WIN Magazine Howard Zinn (1922 –2010) was raised in a working-class family in Brooklyn, and flew bombing missions for the United States in World War II, an experience he now points to in shaping his opposition to war. Under the GI Bill he went to college and received his Ph.D. from Columbia University. In 1956, he became a professor at Spelman College in Atlanta, a school for black women, where he soon became involved in the civil rights movement, which he participated in as an adviser to the Student Nonviolent Coordinating Committee (SNCC) and chronicled, in his book SNCC: The New Abolitionists. Zinn collaborated with historian Staughton Lynd and mentored a young student named Alice Walker. When he was fired in 1963 for insubordination related to his protest work, he moved to Boston University, where he became a leading critic of the Vietnam War. In his lifetime, Zinn received

the Thomas Merton Award, the Eugene V. Debs Award, the Upton Sinclair Award, and the Lannan Literary Award. He is perhaps best known for *A People's History of the United States*. CityLights Booksellers and Publishers previously published his essay collection *A Power Governments Cannot Suppress*.

Israel and the Bomb Avner Cohen,1999 In the first detailed account of Israel's nuclear record, Cohen forges an interpretive political history, drawing on thousands of American and Israeli once-classified documents.

The Bomb Theodore Taylor,2007 In 1945, when the Americans liberate the Bikini Atoll from the Japanese, 14-year-old Sorry Rinamu does not realize that the next year he will lead a desperate effort to save his island home from a much more deadly threat, in this long-out-of-print novel by the acclaimed author of *The Cay*.

India's Nuclear Bomb George Perkovich,1999 Publisher Fact Sheet The definitive history of India's long flirtation with nuclear capability, culminating in the nuclear tests that surprised the world in May 1998.

Time Bomb Joelle Charbonneau,2018 Seven students trapped in their school after a bomb goes off must fight to survive while also discovering who among them is the bomber in this provocative new thriller from the author of the New York Times bestselling *Testing Trilogy*. Perfect for fans of *This Is Where It Ends*. A congressman's daughter who has to be perfect. A star quarterback with a secret. A guy who's tired of being ignored. A clarinet player who's done trying to fit in. An orphaned rebel who wants to teach someone a lesson. A guy who wants people to see him, not his religion. They couldn't be more different, but before the morning's over, they'll all be trapped in a school that's been rocked by a bombing. When they hear that someone inside is the bomber, they'll also be looking to one

another for answers. Told from multiple perspectives, Time Bomb will keep readers guessing about who the bomber could be--and what motivated such drastic action.

Bomb, Book and Compass Simon Winchester, 2008-09-25 Before fate intervened, Joseph Needham was a distinguished biochemist at Cambridge University, married to a fellow scientist. In 1937 he was asked to supervise a young Chinese student named Lu Gwei-Djen, and in that moment began the two greatest love affairs of his life - Miss Lu, and China. Miss Lu inspired Needham to travel to China where he initially spent three dangerous years as a wartime diplomat. He established himself as the pre-eminent China scholar of all time, firm in his belief that China would one day achieve world prominence. By the end of his life, Needham had become a truly global figure, travelling endlessly and honoured by all - though banned from America because of his politics. And in 1989, after a fifty-two year affair, he finally married the woman who had first inspired his passion. The Magnificent Barbarian is Simon Winchester at his best - at once a magnificent portrait of one man's remarkable life and a riveting exploration of the country that so engaged him.

Stalin and the Bomb David Holloway, 1994-01-01 'Stalin and the Bomb' represents a comprehensive history of Soviet nuclear policy, from developments in physics in the 1920s to the emergence of nuclear deterrence in the 1950s. The author looks at how the bombs were built, and the role that espionage played.

Super Bomb Ken Young, Warner R. Schilling, 2020-02-15 Super Bomb unveils the story of the events leading up to President Harry S. Truman's 1950 decision to develop a super, or hydrogen, bomb. That fateful decision and its immediate consequences are detailed in a diverse and complete account built on newly released archives and previously hidden contemporaneous interviews with more than sixty political, military, and scientific figures who were involved in the decision. Ken Young

and Warner R. Schilling present the expectations, hopes, and fears of the key individuals who lobbied for and against developing the H-bomb. They portray the conflicts that arose over the H-bomb as rooted in the distinct interests of the Atomic Energy Commission, the Los Alamos laboratory, the Pentagon and State Department, the Congress, and the White House. But as they clearly show, once Truman made his decision in 1950, resistance to the H-bomb opportunistically shifted to new debates about the development of tactical nuclear weapons, continental air defense, and other aspects of nuclear weapons policy. What *Super Bomb* reveals is that in many ways the H-bomb struggle was a proxy battle over the morality and effectiveness of strategic bombardment and the role and doctrine of the US Strategic Air Command.

The Bomb Frank Harris, 1963 First published in 1908, and last reprinted in 1962, this is a fictionalised account of the story of Rudolph Schnaubelt, the bomber who was never apprehended for the crime of killing seven policeman during a labour protest in Chicago in 1886. Complete with classic linocuts of the bombing, this edition contains the full text of the novel by the notorious author whose 'My Life and Loves' caused a considerable scandal when first published.

Racing for the Bomb Robert Stan Norris, 2002 Colonel Leslie R. Groves was a career officer in the Army Corps of Engineers, fresh from over-seeing hundreds of military construction projects, including the Pentagon, when he was given the job in September 1942 of building the atomic bomb. In this full-scale biography, Norris places Groves at the centre of the amazing Manhattan Project story. Offering new information and vital insights into how the bomb got built and how the decision to use it was made, this is a completely new perspective on the military colossus behind the U.S.'s first nuclear bombs.

Lydia Davis and Francine Prose break down the intricacies of Davis's methods; Edwidge Danticat and Junot Díaz discuss the power of Caribbean diasporic fiction. This anthology brings together some of the greatest figures of world literature for a brilliant and unforgettable collection of sharp, insightful and intimate author conversations.

Fu-go Ross Coen, 2014-11-01 Near the end of World War II, in an attempt to attack the United States mainland, Japan launched its fu-go campaign, deploying thousands of high-altitude hydrogen balloons armed with incendiary and high-explosive bombs designed to follow the westerly winds of the upper atmosphere and drift to the west coast of North America. After reaching the mainland, these fu-go, the Japanese hoped, would terrorize American citizens and ignite devastating forest fires across the western states, ultimately causing the United States to divert wartime resources to deal with the domestic crisis. While the fu-go offensive proved to be a complete tactical failure, six Americans lost their lives when a discovered balloon exploded. Ross Coen provides a fascinating look into the obscure history of the fu-go campaign, from the Japanese schoolgirls who manufactured the balloons by hand to the generals in the U.S. War Department who developed defense procedures. The book delves into panic, propaganda, and media censorship in wartime. *Fu-go* is a compelling story of a little-known episode in our national history that unfolded virtually unseen.

Hiroshima Richard Tames, 2006 Find out why Japan was the first target for an atomic bomb. This book focuses on the impact of the bomb on Hiroshima, analyzing how it came about, describing it,

and discussing its consequences on history. Investigate the timeline to understand crucial dates surrounding the bombing of Hiroshima. Read the debate section so you can consider the arguments and weigh the evidence about its role in history. Clear photographs, maps, contemporary views, a glossary, and tips for future research are included to help you to understand the importance of this turning point in history.

The Bomb Beatrice Heuser, 2014-09-25 This tightly argued and profoundly thought provoking book tackles a huge subject: the coming of the nuclear age with bombing of Hiroshima and Nagasaki in August 1945, and the ways in which it has changed our lives since. Dr Heuser sets these events in their historical context and tackles key issues about the effect of nuclear weapons on modern attitudes to conflict, and on the ethics of warfare. Ducking nothing, she demystifies the subject, seeing 'the bomb' not as something unique and paralysing, but as an integral part of the strategic and moral context of our time. For a wide multidisciplinary and general readership.

The Bomb Frank Harris, 1963 Over 100 years ago the infamous Haymarket affair in Chicago pierced the world with news of what would now be characterized as terrorist violence. In the Haymarket incident, a bomb killed police gathered to club and maul labor protesters. And although the police could not find the man who threw the bomb, labor and anarchist leaders were found guilty in a notoriously ugly trial, and several were actually hanged. Frank Harris' novel comes from the point-of-view of the uncaught bomb-thrower, a German immigrant in love with the extreme political tactics of the notorious anarchist Louis Lingg.

Spying on the Bomb: American Nuclear Intelligence from Nazi Germany to Iran and North Korea Jeffrey Richelson, 2007-09-17 A global history of U.S. nuclear espionage traces the growth of nuclear activities in an increasing number of nations while indicating what the United States historically

believed about each country's laboratories, test sites, and decision-making councils, in an account that includes coverage of the mysterious Vela incident and current efforts to uncover nuclear secrets in Iran and North Korea. Reprint.

The Bomb: The Classic Anarchist Novel Frank Harris, 2019-12-31 In this classic novel of revolutionary struggle, seven men are accused of throwing a bomb during a protest and killing policemen. Only one is guilty. Author Frank Harris, inspired by the true-life events of the Haymarket Riot in Chicago, offers a scathing criticism of capitalism and the inequalities of the American justice system in this novel that continues to inspire those involved in the movement to smash the hierarchical structure of the state, ending oppression for all time. The Bomb is a searing, radical portrait, a window into past events that provides insight into the current cultural strife.

The Bomb Fred Kaplan, 2020-01-28 From the author of the classic The Wizards of Armageddon and Pulitzer Prize finalist comes the definitive history of American policy on nuclear war—and Presidents' actions in nuclear crises—from Truman to Trump. Fred Kaplan, hailed by The New York Times as “a rare combination of defense intellectual and pugnacious reporter,” takes us into the White House Situation Room, the Joint Chiefs of Staff’s “Tank” in the Pentagon, and the vast chambers of Strategic Command to bring us the untold stories—based on exclusive interviews and previously classified documents—of how America’s presidents and generals have thought about, threatened, broached, and just barely avoided nuclear war from the dawn of the atomic age until today. Kaplan’s historical research and deep reporting will stand as the permanent record of politics. Discussing theories that have dominated nightmare scenarios from Hiroshima and Nagasaki, Kaplan presents the unthinkable in terms of mass destruction and demonstrates how the nuclear war reality will not go away, regardless of the dire consequences.

The Bomb Maker Thomas Perry, 2023-08 Edgar Award-winning author Thomas Perry takes his plotting to an explosive new level in this standalone thriller, pitting a lethally clever bomb maker against the skilled LAPD Bomb Squad.
