Cherie Priest

Boneshaker Cherie Priest,2009-09-29 In the early days of the Civil War, rumors of gold in the frozen Klondike brought hordes of newcomers to the Pacific Northwest. Anxious to compete, Russian prospectors commissioned inventor Leviticus Blue to create a great machine that could mine through Alaska's ice. Thus was Dr. Blue's Incredible Bone-Shaking Drill Engine born. But on its first test run the Boneshaker went terribly awry, destroying several blocks of downtown Seattle and unearthing a subterranean vein of blight gas that turned anyone who breathed it into the living dead. Now it is sixteen years later, and a wall has been built to enclose the devastated and toxic city. Just beyond it lives Blue's widow, Briar Wilkes. Life is hard with a ruined reputation and a teenaged boy to support, but she and Ezekiel are managing. Until Ezekiel undertakes a secret crusade to rewrite history. His quest will take him under the wall and into a city teeming with ravenous undead, air pirates, criminal overlords, and heavily armed refugees. And only Briar can bring him out alive. The Bone Shaker Edward Cox,2019-06-18 Sir Vladisal and her Knights of Boska must venture into a demon-infested forest to rescue the kidnapped son of their Duchess. Epic fantasy distilled into a novella.

The Boneshaker Kate Milford,2010-05-24 Thirteen-year-old Natalie Minks loves machines, particularly automata—self-operating mechanical devices, usually powered by clockwork. When Jake Limberleg and his traveling medicine show arrive in her small Missouri town with a mysterious vehicle under a tarp and an uncanny ability to make Natalie's half-built automaton move, she feels in her gut that something about this caravan of healers is a bit off. Her uneasiness leads her to investigate the intricate maze of the medicine show, where she discovers a horrible truth and realizes that only she has the power to set things right. Set in 1914, *The Boneshaker* is a gripping, richly textured novel about family, community, courage, and looking evil directly in the face in order to conquer it. This ebook includes a sample chapter of *THE BROKEN LANDS*.

The Boneshaker Kate Milford,2011-05-23

Boneshaker ,2010 The editors of *Boneshaker* believe that the bicycle, when conceived of and used appropriately, can become a tool for social change and community building. And though bicycling has become, for better or worse, an activity tied to radical undertones and bohemian implications, we are less interested in those types of categorizations and more so with simply riding bicycles to get where we are going. This almanac is, therefore, a collective ode to the ride itself, that fundamentally lonesome experience one has in the saddle, and the results of repeating that ride over and over in different directions on different days with different destinations in each instance. With interviews of respected members of the bicycling community, as well as profiles of bike-related grassroots organizations and individuals, not to mention essays, graphs, lists, letters, charts, maps, poems, schedules, manifestos, drawings, art, and stories, *Boneshaker* attempts to shine light on utilitarian bicycling. --

Boneshaker Joshua Dalzelle,2020-03-31 Marine First Lieutenant Jacob Brown is bored. For months he's been sitting around on an alien planet, waiting for command to recall his scout team so they could rest and be re-outfitted. The team went through hell during their previous mission, losing both their commanding officer and their ship. For now, Jacob was acting CO of Scout Team Obsidian and their ship was a broken down old surplus combat shuttle they'd stolen from narco-smugglers on a planet called Niceen-3. When command finally does reach out, however, it isn't to order Obsidian home for some much needed R&R. Instead, they are being reactivated and sent out into the contested space of the recently conquered Eshquarian Empire to track down a single Terran cruiser called the Eagle's Talon. The Talon's captain has gone rogue and is operating within a fleet of ships bent on open rebellion against the quadrant's only remaining superpower. If that ship is discovered within the rebel fleet, Earth will bear the brunt of the ConFed's reprisal. Jacob's team is in a race against time to locate the missing ship and her rogue captain so that a Navy strike force can swoop in and reclaim her... or destroy her.

Mind is the Ride Jet McDonald,2019-05-16 When Jet McDonald cycled four thousand miles to India and back, he didn't want to write a straightforward account. He wanted to go on an imaginative journey. The age of the travelogue is over: today we need to travel inwardly to see the world with fresh eyes. *Mind is the Ride* is that journey, a pedal-powered antidote to the petrol-driven philosophies of the past. The book takes the reader on a physical and intellectual adventure from West to East using the components of the bike as a metaphor for philosophy, which is woven into the cyclist's experience. Each chapter is based around a single component, and as Jet travels he adds new parts and new philosophies until the bike is 'built'; the ride to India is completed; and the relationship between mind, body and bicycle made apparent.

The Bone Snatcher Charlotte Salter,2017-02-14 Murder, madness, and sea monsters combine in this thrilling and atmospheric middle grade debut perfect for fans of Neil Gaiman, Lemony Snicket, and Tim Burton. Sophie Seacove is a storyteller. She tells stories of what the world would be like if madness hadn't taken over. If her parents hadn't sold her off as a servant to pay for their passage out of London. If she wasn't now trapped in a decaying mansion filled with creepy people and surrounded by ravenous sea monsters. The mansion has plenty of stories, too: About fantastical machines, and the tragic inventor who created them. About his highly suspicious death. And about the Monster Box, a mysterious object hidden in the house that just might hold the key to escaping this horrible place—and to reuniting Sophie with her family. But not everyone wants Sophie to have the Monster Box, and as she gets closer to finding it, she finds herself unspooling years-old secrets—and dodging dangerous attacks. Sophie needs to use her brains, her brawn, and her unbreakable nature if she wants to make it off this wretched island...and live to tell this story.

The Inexplicables Cherie Priest,2012-11-13 Rector Wreck 'em Sherman was orphaned as a toddler in the Blight of 1863, but that was years ago. Wreck has grown up, and on his eighteenth birthday, he'll be cast out out of the orphanage. And Wreck's problems aren't merely about finding a home. He's been quietly breaking the cardinal rule of any good drug dealer and dipping into his own supply of the sap he sells. He's also pretty sure he's being haunted by the ghost of a kid he used to know—Zeke Wilkes, who almost certainly died six months ago. Zeke would have every reason to pester Wreck, since Wreck got him inside the walled city of Seattle in the first place, and that was probably what killed him. Maybe it's only a guilty conscience, but Wreck can't take it anymore, so he sneaks over the wall. The walled-off wasteland of Seattle is every bit as bad as he'd heard, chock-full of the hungry undead and utterly choked by the poisonous, inescapable yellow gas. And then

there's the monster. Rector's pretty certain that whatever attacked him was not at all human—and not a rotter, either. Arms far too long. Posture all strange. Eyes all wild and faintly glowing gold and known to the locals as simply The Inexplicables. In the process of tracking down these creatures, Rector comes across another incursion through the wall—just as bizarre but entirely attributable to human greed. It seems some outsiders have decided there's gold to be found in the city and they're willing to do whatever it takes to get a piece of the pie unless Rector and his posse have anything to do with it. Dreadnought Cherie Priest,2010-09-28 Nurse Mercy Lynch is elbows deep in bloody laundry at a war hospital in Richmond, Virginia, when Clara Barton comes bearing bad news: Mercy's husband has died in a POW camp. On top of that, a telegram from the west coast declares that her estranged father is gravely injured, and he wishes to see her. Mercy sets out toward the Mississippi River. Once there, she'll catch a train over the Rockies and—if the telegram can be believed—be greeted in Washington Territory by the sheriff, who will take her to see her father in Seattle. Reaching the Mississippi is a harrowing adventure by dirigible and rail through war-torn border states. When Mercy finally arrives in St. Louis, the only Tacoma-bound train is pulled by a terrifying Union-operated steam engine called the Dreadnought. Reluctantly, Mercy buys a ticket and climbs aboard. What ought to be a quiet trip turns deadly when the train is beset by bushwhackers, then vigorously attacked by a band of Rebel soldiers. The train is moving away from battle lines into the vast, unincorporated west, so Mercy can't imagine why they're so interested. Perhaps the mysterious cargo secreted in the second and last train cars has something to do with it? Mercy is just a frustrated nurse who wants to see her father before he dies. But she'll have to survive both Union intrigue and Confederate opposition if she wants to make it off the Dreadnought alive. Boneshaker: The Clockwork Century 1 Cherie Priest,2009-06-01 Ezekiel Blue's father committed a crime, unleashing a deadly menace into steampowered Seattle. And his bereaved family has paid the price. Now, Ezekiel is determined to clear his father's name, risking death and the undead in the attempt. Sixteen years ago, as the American Civil War dawned, gold brought hordes to the frozen Klondike. Fanatical in their greed, Russian prospectors commissioned Dr Leviticus Blue to create a great machine, to mine through Alaska's ice. Thus the Incredible Bone-Shaking Drill Engine was born. But the Boneshaker went awry, destroying downtown Seattle and unearthing a subterranean vein of blight gas. Anyone who breathed its fumes turning into the living dead. The devastated city is now walled in to contain the blight. But unknown to Briar, his widowed mother, Ezekiel is going in. His quest will take him into a city teeming with ravenous undead, air pirates, criminal overlords, and heavily armed refugees. And only Briar can bring him out alive.

Boneshaker KateMilford,2015-03-30 Merkwürdige Dinge können an Kreuzungen geschehen. Und die Kreuzung vor Arcane macht da keine Ausnahme. Die dreizehnjährige Natalie kennt die alten Geschichten über ihre kleine Stadt, z.B. die vom wunderbaren Gitarristen Tom Guyot und seiner Begegnung mit dem Teufel. Aber nicht einmal sie ist auf das Ungeheuerliche gefasst, das mit Dr. Jake Biegebeins Technologischer Medizinausstellung in Arcane Einzug hält. Genial verschmilzt Kate Milford in ihrem Roman alte, unheimliche Geschichten mit der Gegenwart einer Stadt mitten in Amerika im frühen 20. Jahrhundert.
