**Ain't No Place for a Hero** Kaitlin Tremblay,2017-10-17 A deep dive into the groundbreaking and bestselling video game series The critically acclaimed first-person shooter franchise Borderlands knows it's ridiculous. It's a badge of pride. After all, Borderlands 2 was promoted with the tagline 87 bazillion guns just got bazillionder. These space-western games encourage you to shoot a lot of enemies and monsters, loot their corpses, and have a few chuckles while chasing down those bazillion guns. As Kaitlin Tremblay explores in Ain't No Place for a Hero, the Borderlands video game series satirizes its own genre, exposing and addressing the ways first-person shooter video games have tended to exclude women, queer people, and people of colour, as well as contribute to a hostile playing environment. Tremblay also digs in to the way the Borderlands game franchise Ñ which has sold more than 26 million copies Ñ disrupts traditional notions of heroism, creating nuanced and compelling storytelling that highlights the strengths and possibilities of this relatively new narrative medium. The latest entry in the acclaimed Pop Classics series, Ain-t No Place for a Hero is a fascinating read for Borderlands devotees as well as the uninitiated.

**Shadow of an Empire** Max Florschutz,2018-06 A sweeping Wild-West Fantasy Epic full of magic, mystery, and adventure! Salitore Amazd is an imperial adjudicator, an enforcer of the law and keeper of the peace across the vast, desert stretches of the Indrim Empire's southern reaches known as the Outlands. For Sali, the job means long days in the saddle, constant travel, and hours of rugged, wilderness beauty far from the intrigue and politicking of the empire's core. Until a trainload of convicted prisoners, led by a noble named Nirren, vanishes from a high-security engine in an unprecedented escape, leaving behind only bodies, confused survivors, and a public letter accusing Sali of being a co-conspirator ... as well as a fellow idealist in their forthcoming revolution. An accusation with no evidence, but more than enough to turn the public eye of the empire in his direction. Now forcibly partnered with Meelo Karn, a member of the imperial inquisition with her own ties to the convicts, it's up to both of them to track down Nirren and his gang before they engulf the Outlands in a political firestorm that burns it to the ground. Be it wild animals, unfriendly locals, or even encounters with the enigmatic, steam-driven Grey Knights ... Sali and Meelo have a call to deliver justice. And justice will be done.

Borderlands: Gunsight John Shirley,2013-10-01 An original novel set in the universe of the award-winning video game! The Borderlands cannot be conquered! Mordecai and Daphne have gotten themselves in a tough spot near the highly dangerous town of Gunsight, one of the most remote outposts on the planet Pandora, out in the boonies of the boonies of the Borderlands. Daphne has been taken prisoner by Jasper, a local warlord who controls the area around Gunsight . . . except for that other settlement, the former mining town Tumessa. There's some kind of big secret operation going on in Tumessa—another warlord, a particularly mutated Psycho named Reamus, is somehow making money. And he's been relentlessly raiding Gunsight and kidnapping Jasper's people. Jasper may be scum, but he needs those people for raids on other towns, so it all has to balance out. Mordecai needs to negotiate for Daphne's release, but now the only way he'll ever see her alive again is to kill his way into Tumessa, find out what's going on there, and report back to Jasper—only then will Mordecai get a paycheck and the girl. Mordecai doesn't want the job, but he is pretty devoted to Daphne . . . and somehow, he just might be able to turn this entire mess to his advantage. . .

**The God Gene** F. Paul Wilson,2018-01-02 Rick Hayden and Laura Fanning of Panacea return to encounter another mindbending scientific scenario in, The God Gene, the new thriller by F. Paul Wilson. F. Paul Wilson is the winner of the Career Achievement in Thriller Fiction in the 2017 RT Reviewers' Choice Best Book Awards Rick's brother, Keith, a prominent zoologist at NYU, walks out of his office one day and disappears. The only clue they have are his brother's book, which mentions the God Gene. A million or so years ago, a gene designated hsa-mir-3998 appeared as if by magic from the junk DNA of the hominids who eventually evolved into Homo sapiens. It became a key player in brain development—specifically creativity—and laymen started calling it the God Gene. Keith had been tracking this gene through the evolutionary tree, and was excited by an odd blue-eyed primate he brought back from East Africa. But immediately after running the creature's genetic code, he destroyed all the results and vanished. Rick and Laura's search takes them to an uncharted island in the Mozambique Channel, home of the dapis-blue-eyed primates whose DNA hides a world-shattering secret. In a globe-spanning mixture of science, mystery and adventure reminiscent of Michael Crichton, The God Gene takes you to the edge of evolutionary theory and beyond...way beyond. **The Road** Cormac McCarthy,2007-03-20 WINNER OF THE PULITZER PRIZE • NATIONAL BESTSELLER • A searing, post-apocalyptic novel about a father and son's fight to survive, this tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful (San Francisco Chronicle). • From the bestselling author of The Passenger A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, each the other's world entire, are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's latest bestselling novels, The Passenger and Stella Maris.
