Plain Kate Erin Bow,2010-09-01 A debut novel that's as sharp as a knife's point. Plain Kate lives in a world of superstitions and curses, where a song can heal a wound and a shadow can work deep magic. As the wood-carver's daughter, Kate held a carving knife before a spoon, and her wooden charms are so fine that some even call her witch-blade -- a dangerous nickname in a town where witches are hunted and burned in the square.

Stand on the Sky Erin Bow,2019 Twelve--year-old Aisulu defies the expectations of her Kazakh family and tradition to train an eagle in order to save her brother, Serik, and prevent her family from giving up their nomadic life forever.

Clara Bow David Stenn,2000-03-13 Hollywood's first sex symbol, the 'It' girl, Clara Bow was born in the slums of Brooklyn in a family plagued with alcoholism and insanity. She catapulted to fame after winning Motion Picture magazine's 1921 Fame and Fortune contest. The greatest box-office draw of her day—she once received 45,000 fan letters in a single month, Clara Bow's on screen vitality and allure that beguiled thousands, however, would be her undoing off-camera. David Stenn captures her legendary rise to stardom and fall from grace, her success marred by studio exploitation and sexual scandals.

Traditional Bowyer's Handbook Clay C. Hayes,2017-11-11 I can't really explain my attraction to the bow and arrow. I can't explain the pull of a camp fire either, or the ocean, or the open hills where you can see forever. It's just there. These things are in all of us I think, some vestige of our primitive past buried so deep in our genome as to be inseparable from what it is to be human. What we think of as civilization is a new experiment in the eyes of Father Time.

Experts say that humans have been around for some fifty thousand years. We've been carrying the bow for maybe five thousand (atlatls and spears before that), and pushing the plow for maybe two thousand. We have been hunters forever. We are built to run, to pursue big game on the open savannas, to kill and eat them. With the dwindling of the Pleistocene mega fauna, mammoths and such, the bow became more important and indeed helped to make us who we are today. It still holds that attraction, same as the hearth. When I was a kid I would make crude bows from green plum branches, big at one end and small at the other. A discarded hay string would serve as a bowstring. My arrows were fat and unfletched and would scarcely fly more than a few yards, usually tumbling over in midair. The small creatures around our home were plenty safe. When I was about 12 or so my brother brought me two old Ben Person recurves he'd found at a yard sale. One was a short bow, probably no more than 48 inches and the other was more of a standard size. They both drew about 50 lbs if I recall. That fall happened to be a good year for cottontails around our little farm and I spent countless hours walking the fields and shooting at them as they busted from underfoot. Although I'd get several shots a day I never did hit one on the fly but I remember that fall fondly nonetheless. The pleasure of jumping rabbits and seeing the feathered shaft streaking toward them was a thrill I've never forgotten. I made my first real bow when I was in high school, after getting a copy of the Traditional Bowyers Bible in the mail (more on this in a moment). My first bow, a decrowned mulberry flatbow, broke within about 10 shots. The second held together quite well and is probably still around somewhere and capable of shooting an arrow, though it would probably draw about 70lbs. When I first started making bows I used the woods I had close at hand; mulberry, common persimmon, red maple, white cedar, etc. I'd probably made more than a dozen bows of various woods before I ever saw a piece of Osage. People often ask me where they can find a bow stave and, invariably, I tell them to use what they have close by. No matter where you live, you'll have something near that will make a bow. Go cut it down and get started. This book is an attempt to share some of what I've learned over my years of bow making. The Traditional Bowyers Bible series, as mentioned earlier, is still a great source of information. Why write another book on making wood bows you might ask? The simple answer is that there are so many ways of doing and explaining things. There are still unanswered questions and we'll cover many of them here. We will cover all of the most frequently asked questions, and lay out a simple plan that should guide you through the entire process, from finding a stave to stringing your bow and shooting your first arrow. Some of what you'll find here, you'll find nowhere else.

Bow's Boy Richard Babcock, 2010-05-11 Every now and then, a small American town produces someone with such out-of-place talent that he seems to have come from a different world. In the 1960s hardscrabble town of Laroque, Wisconsin, seventeen-year-old Ginger Piper, a high school sports hero and a disarmingly poised and articulate young man, is that sort of figure. Or at least G. Bowman Epps—a rich, lonely, middle-aged lawyer—believes he is. Bow is something of a town legend too: Ungainly and scarred, brilliant and stern, famous for great inherited wealth, he seems a vestige of a time gone by in a town where the legacy of past greatness—embodied in the ornate, decaying, and defunct opera house—casts a literal shadow. But when Bow discovers Ginger Piper, he is energized and inspired. Where others have seen merely a charming basketball star, Bow spies the seeds of something greater and the drive, intelligence, and passion to carry on Bow's legacy as a groundbreaking criminal attorney. When Bow offers the boy a summer apprenticeship in his orderly practice, it is an investment in a certain future, and the initiation of an oddly matched friendship. But when Ginger is accused of a startling crime that changes the town's perception of him, Bow is not only surprised, he's also implicated, and forced to choose between his fierce sense of logic and his admiration for the boy. The

story unfolds as the first agonizing repercussions of the Vietnam War are being felt and the American people are struggling to comprehend a new kind of war. It inspires a startling division between the generations at home, as politics and personal lives inevitably collide. Bow's investigator, Charlie Stuart, narrates the events thirty years later, adding a perspective colored by tortured memories of his manic father and his halting pursuit of a young woman in town. Anchored by a compelling mystery, *Bow's Boy* is ultimately about greatness, heroism, loyalty, and justice, and the pain and solace of family.

Bows and Arrows of the Native Americans Jim Hamm, 1991 A step-by-step guide to Native American bows and arrows, including information on how to build and care for wooden bows, sinew-backed bows, composite bows, strings, arrows, and quivers.

Hunting with the Bow and Arrow Saxton Temple Pope, 2017-05-31 It was, therefore, a distinct surprise to the first explorers of America that the natives used the bow and arrow so effectively. In fact, the sword and the horse, combined with the white man's superlative self-assurance, won the contest over the aborigines more than the primitive blunderbuss of the times. The bow and arrow was still more deadly than the gun. With the gradual extermination of the American Indian, the westward march of civilization, and the improvement in firearms, this contest became more and more unequal, and the bow disappeared from the land. The last primitive Indian archer was discovered in California in the year 1911. When the white pioneers of California descended through the northern part of that State by the Lassen trail, they met with a tribe of Indians known as the Yana, or Yahi. That is the name they called themselves. Their neighbors called them the Nozi, and the white men called them the Deer Creek or Mill Creek Indians. Different from the other tribes of this territory, the Yana would not submit without a struggle to the white man's conquest of their lands. The Yana were hunters and warriors. The usual California natives were yellow in color, fat and inclined to be peaceable.

Setting Up the Perfect Hunting Bow Bill Winke, 2009-05-01 Petersen's Bowhunting field editor and bowhunting expert Bill Winke takes you through critical yet surprisingly easy steps to bow setup and maintenance. Along the way, he breaks down how bows and accessories work together and the best tuning methods to get your arrows shooting accurately. From paper tuning to getting fixed-blade broadheads to fly straight, Winke has taken the mystery and guesswork out of setting up an accurate hunting bow and produced an illustrative and in-depth tuning guide that will be a great addition to your bowhunting library.

The Warrior's Tools Eric Smith, 2019-03-19 Written from a practical Native American perspective in easy-to-understand prose, *THE WARRIOR'S TOOLS* combines practical how-to information on bow making with historical insight on the place bows, arrows, quivers and shields played in tribal life in the past and continue to play today.

Hunting with the Bow and Arrow Saxton Pope, 2015-05-15 *Hunting with the Bow and Arrow* from Saxton Pope. American doctor, teacher, author and outdoorsman (1875-1926).

Soulwinder Travis Daniel Bow, 2021-11-15 Three strangers. Two plots. One champion. In the crater of a volcanic island, musical magic and enchanted swordplay rule society. Every seven years a champion from each caste climbs the tournament ladder for a chance at a new life. This year three apparent strangers—a sabotaged craftsman trying to save his mentally disabled father, a legendary duelist resisting the machinations of her master, and a Magistry janitor

fighting an empathy-sapping talent—are desperate to reach the final battle. But a web of strange coincidence connects them, the city is on the brink of collapse, and nothing is as it seems. Everyone's a puppet... but who holds the strings?

The Spanish Bow Andromeda Romano-Lax, 2008-09-05 A “riveting historical page-turner” about a cellist caught up in the tumult and passions of early twentieth-century Spain (Booklist). A Library Journal Best Book of the Year I was almost born Happy . . . So begins *The Spanish Bow* and the remarkable history of Feliu Delargo, who just misses being “Feliz” by a misunderstanding at his birth—which he barely survives. The bequest of a cello bow sets Feliu on the course of becoming a musician, an unlikely destiny given his beginnings in a dusty village in Catalonia. When he is compelled to flee to anarchist Barcelona, his education in music, life, and politics begins. But it isn’t until he arrives at the court of the embattled monarchy in Madrid that passion enters the composition, thanks to Aviva, a virtuoso violinist with a haunted past. As Feliu embarks on affairs, friendships, and rivalries, forces propelling the world toward a catastrophic crescendo sweep Feliu along in their wake—in this haunting fugue of music, politics, and passion set against a half century of Spanish history, from the tail end of the nineteenth century through the Spanish Civil War and World War II, by the acclaimed author of *Behave* and *Plum Rains*. “Expertly woven throughout the book are cameo appearances by Pablo Picasso, Adolf Hitler, Francisco Franco, Bertolt Brecht, and others, but it is the fictional Feliu, Justo, and Aviva who will keep you mesmerized to the last page.” —The Christian Science Monitor “An impressive and richly atmospheric debut.” —The New York Times Book Review
