Brabham Tony Davis, Tony Davis And Akos Armont, 2019-09-26 The story of Australia's greatest motoring hero. Sir Jack Brabham was unique in the world of motor racing. He was the boy from Sydney who took on the elite of motor racing and won three F1 world championships, the last one in a car not only built by his own Brabham company, but with an Australian engine he'd helped develop. To those who saw him on the podium, Jack Brabham might have seemed glorious and triumphant. But he was also a man of secrets. He shunned the media, rarely using 'two words when none would do'. He kept vital information from his competitors, his team mates - and his family. It led to unrivalled success. It led to wealth too, much of it hidden around the world. But it also left a trail of hurt and bewilderment ... In this first ever book-length biography of Jack Brabham, his extraordinary accomplishments are laid out with new commentary from his rivals, colleagues, employees and long-time engineering partner Ron Tauranac. And, with the help of his sons Geoffrey and David, it represents the first major attempt to unravel the enigma who became known as 'Black Jack'.

Brabham Tony Davis, Ákos Armont, 2019 The story of Australia's greatest motoring hero, and the dynasty he founded. Sir Jack Brabham was unique in the world of motor racing. He was the boy from Sydney who took on the elite of motor racing and won - not only three major F1 championships but the last one in a car he had built in his home country to his own specifications. To those who saw him on the podium, Jack Brabham might have seemed glorious and triumphant, but his story is full of pain, risk, snubs, endurance, wins, and losses. And only now is he gaining the recognition he deserves as someone who revolutionised Formula One. In 2017 he was inducted into the F1 Hall of Fame. Racing with greats including Stirling Moss, Jackie Stewart and Bernie Ecclestone, he revolutionised Formula One. He also encouraged others, such as Bruce McLaren. But he remained an outsider - a colonial. Now his sons want to revive the Brabham name and the Brabham brand. With interviews from those who raced with and against 'Black Jack', those who built cars with him, those who

loved with him, those who crossed him, this is a brilliant and vivid portrait of a motor genius and the racing dynasty he founded.

Brabham Ralt Honda the Ron Tauranac Story M. Lawrence,2011-02 288 pages, 63 illustrations, size 5.5 x 8.5 inches. Until now, the man whose racing cars have won more victories than anyone else's, and whose design skills have brought fame to hundreds of drivers and made champions of a good many of them, has remained in the background.Ron Tauranac - British-born, but brought up in Australia - always preferred to let his cars sing his praises where it really mattered - on the race tracks of the world. They have never been known as Tauranacs, but the names Brabham and Ralt will be very familiar to anyone who has followed motor racing since the Sixties. And so, of course, is Honda, the company which supplied the engines for some of Tauranac's most successful Brabham and Ralt racing cars and with which he still retains close links as a design consultant, working behind the scenes on several of their motor racing activities.Sir Jack Brabham, in his foreword to this long overdue biography, pays generous tribute to his former business partner into whose hands he entrusted the design and construction of all his own racing cars from 1962 until his retirement from driving in 1970, plus all the production Brabhams which brought so much success to many other top drivers during their formative years. Many of Ron Tauranac's former colleagues and customers - amongst them the most powerful people in motor racing today - speak candidly about the man they have known and worked with, someone who has never courted popularity, but whose talents have been such that his contribution to the motor racing scene is possibly beyond measure. Anyone who is either involved in the sport or fascinated by it will be delighted that through this book The Ron Tauranac Story has finally been told.

To Finish First Phil Kerr,2008-05-01 This book fills an important gap in the history of top-level motor racing during the historic era of the 1960s and 70s. The author was at the center of it all, first as Sir Jack Brabham's right-hand man during his leadership of the Cooper team, and later when he formed his own Brabham Racing Organization. Subsequently, when Phil Kerr joined his great friend Bruce McLaren, to become joint managing director of an ever expanding company, which was to achieve unrivalled success in Can-Am racing as well as being at the forefront of Formula One, he and his colleagues had to cope with the tragedy of the founder's untimely death while testing a Can-Am car at Goodwood. The author's description of how the shattered team was saved and ultimately restored by the bravery of Bruce's co-driver Denny Hulme, already sidelined by agonizing burns to his hands, is a poignant highlight of his story. Includes a balanced mix of racing and off-duty pictures, many being seen for the first time and 15 reproductions of paintings by the renowned artist Michael Turner.

Brabham BT52 Owners' Workshop Manual 1983 (all models) Andrew van de Burgt, 2016-02-01 Designed to suit new regulations, after ground-effect cars were banned at the end of 1982, the BT52 was very distinctive, with short, angular sidepods and a dart-shaped profile. During the 1983 season, the innovative Brabham team, with now F1 supremo Bernie Ecclestone at the helm, introduced the first high-pressure fuel rig seen in F1, to speed up refuelling stops, and used 'ovens' to pre-heat tyres prior to pitstops. This manual provides a fascinating insight into the design, evolution, operation and maintenance of the Brabham BT52.

Crowdsourcing Daren C. Brabham, 2013-05-10 A concise introduction to crowdsourcing that goes beyond social media buzzwords to explain what crowdsourcing really is and how it works. Ever since the term "crowdsourcing" was coined in 2006 by Wired writer Jeff Howe, group activities ranging from the creation of the Oxford English Dictionary to the choosing of new colors for M&Ms have been labeled with this most buzz-generating of media buzzwords. In this accessible but authoritative account, grounded in the empirical literature, Daren Brabham explains what crowdsourcing is, what it is not, and how it works. Crowdsourcing, Brabham tells us, is an online, distributed problem solving and production model that leverages the collective intelligence of online communities for specific purposes set forth by a crowdsourcing organization—corporate, government, or volunteer. Uniquely, it combines a bottom-up, open, creative process with top-down organizational goals. Crowdsourcing is not open source production, which lacks the top-down component; it is not a market research survey that offers participants a

short list of choices; and it is qualitatively different from predigital open innovation and collaborative production processes, which lacked the speed, reach, rich capability, and lowered barriers to entry enabled by the Internet. Brabham describes the intellectual roots of the idea of crowdsourcing in such concepts as collective intelligence, the wisdom of crowds, and distributed computing. He surveys the major issues in crowdsourcing, including crowd motivation, the misconception of the amateur participant, crowdfunding, and the danger of "crowdsploitation" of volunteer labor, citing real-world examples from Threadless, InnoCentive, and other organizations. And he considers the future of crowdsourcing in both theory and practice, describing its possible roles in journalism, governance, national security, and science and health.

Crowdsourcing in the Public Sector Daren C. Brabham, 2015-04-20

Crowdsourcing is a term that was coined in 2006 to describe how the commercial sector was beginning to outsource problems or tasks to the public through an open call for solutions over the internet or social media. Crowdsourcing works to generate new ideas or develop innovative solutions to problems by drawing on the wisdom of the many rather than the few. US local government experimented with rudimentary crowdsourcing strategies as early as 1989, but in the last few years local, state, and federal government have increasingly turned to crowdsourcing to enhance citizen participation in problem solving, setting priorities, and decision making. While crowdsourcing in the public sector holds much promise and is part of a larger movement toward more citizen participation in democratic government, many challenges, especially legal and ethical issues, need to be addressed to successfully adapt it for use in the public sector. Daren C. Brabham has been at the forefront of the academic study of crowdsourcing. This book includes extensive interviews with public and private sector managers who have used crowdsourcing. Brabham concludes with a list of the top ten best practices for public managers.
