God Guardian: Perpetual Slaves Bracer Jack,2020-02-18 A story about how Aliens use technologies to trap our soul into perpetual incarnation.

Humpty Dumpty God Bracer Jack,2020-04-16 Ancient man has a very cartoonish, innocent, naive...and almost foolish way of contemplating hell and many of us are finally wise enough to realize where we are. Hell is being given hope and then experience having it being taken away over and over again. Hell is being given love and then watches it go away by every possible creative means under the sun over and over again. Hell is never feeling that you truly belong anywhere, that secret feeling that you have that you doesn't really belong to this place that you can never get rid of and yet here you are. Hell is living in a world where someone/group/institution/combo/ANYTHING have control over you, you know deep within that you are suppose to be a free agent but in this place you are not, you constantly tell yourself this is the way it is but you couldn't really believe it do you... Hell is having the feeling that any time...right about now...something is going to happen and you are going to lose something...everything. The foolish ones wish they could live forever, well I have good news for them, they will, as do all of us. We just don't remember that's all... And on and on it goes... Because the divine wishes to live through us...that we may suffer for him that he may experience all that there is to experience...without actually having to be in the shit that we are all in. You may have all the ironically unconditional love you ever want from the divine...as long as you continue to do his bidding. You can never die and you can never truly leave...the ONLY REASON you were given the mercy to get to forget your past life is so that you are fresh again to experience all that suffering again like it is the first time...everytime... Welcome to Hell. In this book we are going to explore what happened, what led to this.

The Amesbury Archer and the Boscombe Bowmen A. P. Fitzpatrick,2013-11-01 Found a few kilometres from Stonehenge,

the graves of the Amesbury Archer and the Boscombe Bowmen date to the 24th century BC and are two of the earliest Bell Beaker graves in Britain. The Boscombe Bowmen is a collective burial and the Amesbury Archer is a single burial but isotope analyses suggest that both were the graves of incomers to Wessex. The objects placed in both graves have strong continental connections and the metalworking tool found in the grave of the Amesbury Archer may explain why his mourners afforded him one of the most well-furnished burials yet found in Europe. This excavation report contains a series of wide-ranging studies and scientific analyses by an array of experts and a discussion of the graves within their British and continental European contexts.

An Examination of Prehistoric Stone Bracers from Britain Ann Woodward, John Hunter, David Bukach, Fiona Roe, 2024-01-31 This book is a mandatory read for any researcher interested in the cultural and social dynamics of the third millennium cal BC. Let us hope that other researchers across Europe will follow the pioneering footsteps of Woodward, Hunter, and their colleagues. -- Marc Vander Linden in *European Journal of Archaeology* 16 (2) 2013 This volume presents a detailed study of the thin, usually rectangular, pieces of pierced fine stone that occur in inhumation graves of Beaker date mainly of the second half of the third millennium cal BC. These objects are considered to be archer's bracers or wristguards. The study forms part of a more wide-ranging research project to identify more accurately the significance of burial assemblages from Beaker and Early Bronze Age contexts in England and Wales. The key objective is to produce a detailed analysis of the nature and function of these grave goods, beginning with the bracers, and to test the hypothesis that many of the artifacts were originally designed for use as components of ritual costume or as equipment for use in religious acts and ceremonies. The volume includes an illustrated database of all recorded bracers.

With a Bended Bow Erik Roth, 2011-11-30 Archery, one of mankind's most ancient skills, was Europe's most important weapon for centuries. English archers in the Hundred Years War outnumbered men-at-arms by as many as ten to one. *With a Bended Bow* covers all aspects of the manufacture of 'artillery', the shooting styles and the uses

of mediaeval and Renaissance archery based upon contemporary manuscripts, preserved artefacts and accurate reproductions. The book is in two parts. The Guilds considers bows and arrows and their manufacture, for citizens and for the crown. The Archers is about the use of bows in practice, in hunting, and in warfare. The book is illustrated throughout with mediaeval illustrations and line drawings by the author. Over the past ten to fifteen years, there has been an explosion of interest in mediaeval history and 'primitive' or instinctive archery. Re-enactment groups have mushroomed in the United States and Canada, New Zealand, Great Britain and continental Europe. This book answers many questions asked by members of such groups and by those with an interest in the Mediaeval period. How were bowstrings attached? How long were clothyard arrows? Were laminated bows used? Were bow sights used? What kind of targets were made? Did combat archers actually shoot accurately, or just rely on mass volleys? With a Bended Bow is a significant contribution to our understanding of the Middle Ages.
