Millions Saved Amanda Glassman,Miriam Temin,2016-05-24 Over the past fifteen years, people in low- and middle-income countries have experienced a health revolution—one that has created new opportunities and brought new challenges. It is a revolution that keeps mothers and babies alive, helps children grow, and enables adults to thrive. *Millions Saved: New Cases of Proven Success in Global Health* chronicles the global health revolution from the ground up, showcasing twenty-two local, national, and regional health programs that have been part of this global change. The book profiles eighteen remarkable cases in which large-scale efforts to improve health in low- and middle-income countries succeeded, and four examples of promising interventions that fell short of their health targets when scaled-up in real world conditions. Each case demonstrates how much effort—and sometimes luck—is required to fight illness and sustain good health. The cases are grouped into four main categories, reflecting the diversity of strategies to improve population health in low-and middle-income countries: rolling out medicines and technologies; expanding access to health services; targeting cash transfers to improve health; and promoting population-wide behavior change to decrease risk. The programs covered also come from various regions around the world: seven from sub-Saharan Africa, six from Latin America and the Caribbean, five from East and Southeast Asia, and four from South Asia.

Paths to Freedom Rosemary Brana-Shute,Randy J. Sparks,2021-03-03 An international comparative study of a mode of emancipation that worked to reinforce the institution of slavery Manumission—the act of freeing a slave while the institution of slavery continues—has received relatively little scholarly attention as compared to other aspects of slavery and emancipation. To address this gap, editors Rosemary Brana-Shute and Randy J. Sparks present a volume of essays that comprise the first-ever comparative study of manumission as it affected slave systems on both sides of the Atlantic. In this landmark volume, an international group of scholars consider the history and implications of manumission from the medieval period to the late nineteenth century as the phenomenon manifested itself in the Old World and the New. The contributors demonstrate that although the means of manumission varied greatly across the Atlantic world, in every instance the act served to reinforce the sovereign power structures inherent in the institution of slavery. In some societies only a master had the authority to manumit slaves, while in others the state might grant freedom or it might be purchased. Regardless of the source of manumission, the result was viewed by

its society as a benevolent act intended to bind the freed slave to his or her former master through gratitude if no longer through direct ownership. The possibility of manumission worked to inspire faithful servitude among slaves while simultaneously solidifying the legitimacy of their ownership. The essayists compare the legacy of manumission in medieval Europe; the Jewish communities of Levant, Europe, and the New World; the Dutch, French, and British colonies; and the antebellum United States, while exploring wider patterns that extended beyond a single location or era. They also document the fates of manumitted slaves, some of whom were accepted into freed segments of their societies; while others were expected to vacate their former communities entirely. The contributors investigate the cultural consequences of manumission as well as the changing economic conditions that limited the practice by the eighteenth century to understand better the social implications of this multifaceted aspect of the system of slavery.

On the Corner Gary Brana-Shute,1989 This book chronicles the author's two years of fieldwork in Paramaribo, Suriname--in which he has dramatically organized the details of human action on the male side of society of both the individual & the group.

Dugan Carlos Mercé,David Braña,Alberto Cimadevilla,2022-10-11 Dugan, Doctor en Biorrobótica Humanizada, ejerce en la clandestinidad mientras intenta mantenerse alejado de la violencia que aún perdura en el planeta, tras la guerra que hubo entre humanos y robots. Algo realmente complicado cuando 603, el hacker más famoso del mundo, acude a él con un galimatías por resolver. Esto llevará a Dugan a vivir situaciones límite junto a los robots Kali y Asimov donde se reencontrará con viejos conocidos con los que tiene más de una deuda pendiente.

The Brown Fox and Other Stories Jorge A. Brana,1989

Risk Analysis and Reduction in the Chemical Process Industry J.M. Santamaría Ramiro,P.A. Braña Aísa,2012-12-06 Concern for the environment has become one of the big issues in modern society, and one of the chief concerns is the environmental impact of modern industrial production. A particularly sensitive issue is the possibility of accidents in industries where there may be severe consequences for people, property and the environment. At one time the nuclear industry was seen as the most likely to be the cause of significant environmental damage, but after the occurrence of several major accidents such as Seveso, Flixborough and Bhopal, that concern extends to much of the chemicals industry. Pressure from society, reflected by strong legislation, coupled with a greater understanding of the impact that chemical processing operations can have, has led to the adoption of higher profile safety and environmental management programs within the chemical industry. Under

these programmes existing and new processes are rigorously examined to determine the possible causes and consequences of failure, and the results used to improve the process to make failure less likely. Any process audit, aimed at improving safety or lessening the environmental impact, cannot be carried out using intuition or experience alone, so the discipline of risk analysis has grown as a collection of tools and methods which can be utilized to give a quantitative assessment of the risks involved in operating any given process. In this new book the authors present risk analysis and reduction in a clear and unified way, emphasizing the various different methods which can be used together in a global approach to risk analysis in the chemical process industries. Originally conceived as a text book for graduate level courses in chemical engineering, the clear presentation and thorough coverage will ensure that anyone involved in risk assessment, environmental impact assessment or safety planning will find this book an invaluable source of reference.

The Revenant Brana Lobel,1979

Exit the Hollow Moon Brana Day,2003-09 Part of the story is a true memoir of a heartbreaking childhood because of a strangely abusive mother. There is a mother-child problem one can only call sensational because of its shocking dimensions. This story also is part of other true life stories of women from dysfunctional families. The women are survivors. And they are complicated, juicy, compelling and remarkably diverse. As the story moves from Los Angeles to the Middle East this contemporary story takes on the the theme of nationalism versus the true meaning of home, homeland, and our true connections to each other.

Retratos de braña y aldea Manuel Llano,Celia Valbuena,1997 Manuel Llano Díaz, escritor y periodista (1898-1938), está considerado en la literatura española como un poeta en prosa de primerísimo rango. Se recoge en esta obra una selección de textos con unidad original, entresacados de las diversas obras de Manuel Llano, y presenta un mundo rural que es trasunto de la profunda visión del autor. Estudio preliminar de Celia Valbuena. Contiene 37 extractos de escritos del autor

Mothers, Sisters, Resisters Brana Gurewitsch,1998 These powerful oral testimonies provide an important historical record of women's experiences during the Holocaust. In *Mothers, Sisters, Resisters*, 25 survivors of the Holocaust furnish compelling and historically vital testimony that illuminates and explores Jewish women's experiences during that terrible period. In entries that preserve each voice, personality, and style, survivors describe their efforts to evade Nazi laws and subsequent dehumanization, protect their children and siblings, and maintain their Jewish identity. Throughout each narrative, from Brandla Small's description of having her child dragged from her arms at Auschwitz, to Eva Schonbrun's remembrances of her sister who refused to leave her siblings and save herself, to Emilie Schindler's account of rescuing Jews left abandoned on a cattle car, we become intimately involved with each woman's struggle and eventual survival. We also gain a new appreciation and understanding of the Holocaust experiences unique to women.

Die Geschichte von Halfdan, dem Schützling der Brana Mathias Kruse,2009 Die Geschichte des dänischen Königssohnes Halfdan fällt in die graue Vorzeit des heidnischen Nordens. Es ist eine Geschichte von Zauberschiffen und Ritterturnieren, eine Geschichte voller märchenhafter Flüche und Verwünschungen, in der sich Berserker und Trolle tummeln, Prinzessinnen erobert werden und weite Reisen bis an die fernen Gestade Neufundlands unternommen werden. Beachtung fand die Saga, die nun erstmalig in deutscher Übersetzung vorliegt, vor allem wegen der bemerkenswerten Parallelen zum altenglischen Beowulf-Epos, wie sie sich in den geschilderten Trollbegegnungen finden lassen. Der ausführliche begleitende Kommentar führt in das Genre der altisländischen Vorzeitsaga ein und skizziert die Entstehung solcher Geschichten im mittelalterlichen Island, die handschriftliche Überlieferung der Saga und die verschiedenartigen Einflüsse, die die Geschichte prägen, vom höfischen Roman bis hin zum Märchen.

Slavery and Slaving in World History: A Bibliography, 1900-91: v. 1 David Y Miller,2019-07-23

This bibliography of 20th century literature focuses on slavery and slave-trading from ancient times through the 19th century. It contains over 10,000 entries, with the principal sections organizing works by the political/geographical frameworks of the enslavers.

Spinal Cord David Braña,2024-09-10 The members of heavy metal band Spinal Cord dream of making it big in the music world. When they are selected to participate in a prestigious touring

competition sponsored by famous metal label Pain Records, they jump at the chance to prove themselves. What they don't know is that the horrors haunting their journey are very, very real, and the contest will challenge more than just their musical talent. In fact, it will alter their very perception of reality... Written by David Braña and featuring art by Pahito, Spinal Cord is a love letter to heavy metal as well as a bone-chilling tale of horror.
