**The Capital of Hope** Alex Shoumatoff,1990

Brasília, Plan and Reality David G. Epstein,1973-01-01 A masterful account of Brasilia, the city of the future, where Brazil's continental destiny was to be fulfilled, where government would be efficient and functional, without the interference of radical students and labor leaders. The building of the city was a gigantic public-works program, reflecting the various ties that existed between the planners on one hand and the contractors and suppliers on the other. Epstein gives a detailed account of the pilot plan and the rise of satellite towns between 1957 and 1967. The planners dreamed of a city that would transcend the frustrations of urban life in the underdeveloped world, but they failed to provide a sector where the actual builders of the dream city would live. Shantytowns soon developed, and have expanded to accommodate migrants--often displaced, landless cultivators--who continue to be attracted to the city. The conclusion Epstein comes to is that urban squatting will remain a prominent feature of Brasilia, a part of a system deeply rooted in local, national, and global structure and ideology. Until there are revolutionary changes in society, squatting and shantytowns will be a fact of life in the underdeveloped world.

*Building Brasilia* Kenneth Frampton,2010 Published on the occasion of Brasilia's fiftieth anniversary: a celebration in contemporary photography of the building of Brazil's capital city.

The Modernist City James Holston,1989-09-08 The utopian design and organization of Brasília—the modernist new capital of Brazil—were meant to transform Brazilian society. In this sophisticated, pioneering study of Brasília from its inception in 1957 to the present, James Holston analyzes this attempt to change society by building a new kind of city and the ways in which the paradoxes of constructing an imagined future subvert its utopian premises. Integrating anthropology with methods of analysis from architecture, urban studies, social history, and critical theory, Holston presents a critique of modernism based on a powerfully innovative ethnography of the city.

**Brasília - an analogy of modernism** Adrian Waschmann,2012-11-08 Seminar paper from the year 2012 in the subject Politics - International Politics - Region: Middle- and South America, grade: 9, University of Amsterdam, language: English, abstract: Die Seminararbeit befasst sich mit der Entstehung der brasilianischen Hauptstadt Brasília. Es wird die konzeptuelle Phase beleuchtet, ebenso wie die tatsächliche Erbauung der Stadt und der künstlerische und ideologische Rahmen in welchem das Bild der Stadt bedacht wurde. Hier werden vor allem die unterschiedlichen Ansätze beleuchtet mit denen Kubitschek zum einem und Costa und Niemeyer zum anderen an das Projekt heran getreten sind. Abschließend wird ein Vergleich gezogen zwischen den Begriffen Modernity und Modernism und in den Konzept Brasília interpretiert.

Brasilia René Burri,2011 Last year marked the fiftieth anniversary of the inauguration of Brazil's capital Brasilia. Designed by architects Lúcio Costa and Oscar Niemeyer, it has since become one of the most famous and widely studied urban planning projects. Niemeyer's cathedral, Catedral Metropolitana Nossa Senhora Aparecida; his building for the national parliament, the Congresso Nacional; and the city's 707-foot television tower have become icons of twentieth-century architecture. The entire city, marked by its cross-shaped layout and vast open spaces, was named a UNESCO World Heritage site in 1987. René Burri, an internationally celebrated Swiss-born photographer and member of the legendary Magnum agency, visited the city for the first time on a long journey around South America in 1958, when most of Brasilia was a vast building site. He returned many times over more than thirty years, documenting the growth and development of this urban utopia. Besides documenting the buildings in various stages of completion, Burri took portraits of Niemeyer and his workers and photographed Brasilia's street scenes and people: workers with their tools, machinery and building materials, pedestrians on the newly finished streets and squares, and aerial views from the air of the city's first slums abutting brand-new blocks of residential buildings. His images capture the strong sense of a new era and a vibrant atmosphere of hard work and strain; they reflect the huge dimensions of the landscape and the great scale of this project and its ambition to design and build a new capital--and fill it with life. Complete with an essay by eminent architect and scholar of architectural history Arthur Rüegg, René Burri. Brasilia marks the city's fiftieth anniversary and allows readers to look at an extraordinary city through the eyes of an exceptional photographer.

**Brasilia** Adonai Rocha,2013-03-06 Brasília - the modernist utopia A photographic essay by Adonai Rocha Brasília seems the ultimate modernist fantasy: pristine, elegant, refined , and a remarkable demonstration of lucidity. These shots seem to offer a sumptuousness to that vision. The light, color and panorama provide an exoticism. The modernist utopia of a socially ambitious beauty comes unhinged, when we see in the shadow of the great civic buildings, children living amongst the trees. That this cultivated treat of Brasília arises or was created ex-nihilo (or out of nothing) suggests to me a certain view that the natural process of growth, in all its human messiness, is somehow corrupt. The experience of the GigaPan in viewing these images provides remarkable intimacy. At the same time I seem a voyeur. And I feel strongly compelled to experience it firsthand. Maura Doern Danko, Painter, Faculty Humanities / General Education Department The Art Institute of Pittsburgh History Inaugurated in 1960, Brasilia - the capital city of Brazil is a masterpiece of modernist architecture. It is the only city in the world built in the 20th century to be awarded (in 1987) the status of Cultural Heritage of Humanity by UNESCO. Behind the construction of Brasília lay a monumental campaign to construct an entire new Capital City for Brazil. In 1956, Juscelino Kubitschek de Oliveira is elected President and ordered the construction of Brasília, fulfilling an article of the country's constitution dating back to 1891 stating that the capital should be moved from Rio de Janeiro to a place close to the center of the country. Kubitschek invites a young architect, Oscar Niemeyer, to command the project. In the same year, the work on site starts.

**Free City** João Almino,2013-09-05 Free City is master storyteller João Almino's third novel to focus on the city of Brasília, the social swirl of its early years, when contractors, corporate profiteers, idealists, politicians, mystical sects, and even celebrities mingled—including Aldous Huxley, Fidel Castro, Andre Malraux, John Dos Passos, Elizabeth Bishop, and many others. Putting past and present into direct conflict, the story takes the form of a blog, even incorporating comments from other bloggers, each with their vested interests, each with new reasons for spinning fictions of their own.

**The Art of Brasília** Sophia Beal,2020-01-29 People from outside of Brasília often dismiss Brazil's capital as socially divided, boring, corrupt, and emotionally cold. Apparently its founders created not a vibrant capital, but a cultural wasteland. However, as Sophia Beal argues, Brasília's contemporary artists are out to prove the skeptics wrong. These twenty-first-century artists are changing how people think about the city and animating its public spaces. They are recasting Brasília as a vibrant city of the arts in which cultural production affirms a creative right to the city.

Various genres—prose, poetry, film, cultural journalism, music, photography, graffiti, street theater, and street dance—play a part. Brasília’s initial 1960s art was state-sanctioned, carried out mainly by privileged, white men. In contrast, the capital’s contemporary art is marked by its diversity, challenging norms about who has a voice within the Brasília art scene. This art demystifies the capital’s inequities and imagines alternative ways of inhabiting the city.

**Brazil on the Move** John Dos Passos,2011-11-16 John Dos Passos, the distinguished American novelist and historian has been personally interested in Brazil for the last fifteen years. He first visited the country in 1948, and returned again in 1956 and 1962. This book, which is based on his experiences in Brazil, presents the people and landscapes of a young country on the move. Here you will find several extraordinary reports on Brasilia, first in the planning stage, second in the wildly frantic period when it was a half-finished group of buildings, and, finally, as it appeared to Mr. Dos Passos in the summer of 1962 when it was at last beginning to function as a city. Here, too, is the story of Brazil’s great road building program designed to unify the country, and of the political battles in this enormous country which totters on the verge of a Communist takeover. From traveling the length and breadth of the land and from interviewing all kinds of people: politicians like Carlos Lacerda and religious leaders like Bishop Sales, Mr. Dos Passos has been able to transmit some of the flavor of the most important of Latin American nations. Mr. Dos Passos himself is of Portuguese descent, and he speaks Portuguese as well as Spanish. He begins this readable and fascinating book with a much needed short sketch of the history of Brazil and how the Portuguese tradition differs from the Spanish in South America.
