American Autopsy Michael M. Baden, MD, 2023-01-17 A revealing history of covering up the true causes of deaths of BIPOC in custody—from the forensic pathologist whose work changed the course of the George Floyd, Eric Garner, and Michael Brown cases Dr. Michael Baden has been involved in some of the most high-profile civil rights and police brutality cases in US history, from the government’s 1976 re-investigation of the assassination of Martin Luther King, Jr., to the 2014 death of Michael Brown, whose case sparked the initial Ferguson protests that grew into the Black Lives Matter movement. The playbook hasn’t changed since 1979, when Dr. Baden was demoted from his job as New York City’s Chief Medical Examiner after ruling that the death of a Black man in police custody was a homicide. So in 2020 when the Floyd family, wary of the same system that oversaw George Floyd’s death, needed a second opinion—Dr. Baden is who they called. In these pages, Dr. Baden chronicles his six decades on the front lines of the fight for accountability within the legal system—including the long history of medical examiners of using a controversial syndrome called excited delirium (a term that shows up in the pathology report for George Floyd) to explain away the deaths of BIPOC restrained by police. In the process, he brings to life the political issues that go on in the wake of often unrecorded fatal police encounters and the standoff between law enforcement and those they are sworn to protect. Full of behind-the-scenes drama and surprising revelations, *American Autopsy* is an invigorating—and enraging—read that is both timely and crucial for this turning point in our nation’s history.

How to Fight Presidents Daniel O'Brien, 2014-03-18 Make no mistake: Our founding fathers were more bandanas-and-muscles than powdered-wigs-and-tea. As a prisoner of war, Andrew Jackson walked several miles barefoot across state lines while suffering from smallpox and a serious head wound received

when he refused to polish the boots of the soldiers who had taken him captive. He was thirteen years old. A few decades later, he became the first popularly elected president and served the nation, pausing briefly only to beat a would-be assassin with a cane to within an inch of his life. Theodore Roosevelt had asthma, was blind in one eye, survived multiple gunshot wounds, had only one regret (that there were no wars to fight under his presidency), and was the first U.S. president to win the Medal of Honor, which he did after he died. Faced with the choice, George Washington actually preferred the sound of bullets whizzing by his head in battle over the sound of silence. And now these men—these hallowed leaders of the free world—want to kick your ass. Plenty of historians can tell you which president had the most effective economic strategies, and which president helped shape our current political parties, but can any of them tell you what to do if you encounter Chester A. Arthur in a bare-knuckled boxing fight? This book will teach you how to be better, stronger, faster, and more deadly than the most powerful (and craziest) men in history. You're welcome.

Policing Terrorism Graeme R. Newman, R. V. G. Clarke, 2010
This manual is designed to help police executives and other senior executives meet the new challenges involved in countering the threat of terrorism by summarizing writings on the essential components of a counterterrorism plan. The first three parts of the manual address the preparatory steps of the executives preparing themselves and their agencies for the efforts to follow, understanding the threat, and development of a plan and a support network. The last three parts of the manual cover in more depth the three essential components of a counterterrorism plan: developing intelligence on possible terrorists; identifying and protecting major targets; and expanding disaster-response capabilities to encompass the response to a terrorist attack. Joss Whedon Amy Pascale, 2014-08-01 From the cult favorite Buffy the Vampire Slayer, which netted four million viewers per episode, to the summer blockbuster The Avengers, which amassed a box office of \$1.5 billion, Joss Whedon has made a name for himself in Hollywood for his penchant for telling meaningful, personal tales about love, death, and redemption even against the most dramatic and larger-than-life backdrops. This biography follows his development from a creative child and teenager who spent years away from his family at an elite English public school, through his early successes—which often turned into frustrating heartbreak in both television (Roseanne) and film (Buffy the Vampire Slayer)—to his breakout turn as the creator, writer, and director of the Buffy television series. Extensive, original interviews with Whedon's family, friends, collaborators, and stars—and with the man himself—offer candid, behind-the-scenes accounts of the making of groundbreaking series such as Buffy, Angel, Firefly, and Dollhouse, as well as new stories about his work with Pixar writers and animators during the creation of Toy Story. Most importantly, however, these conversations present an intimate and revealing portrait of a man whose creativity and storytelling ability have manifested themselves in comics, online media, television, and film.

Policing Terrorism Graeme R. Newman, R. V. G. Clarke, 2008 Description from Brief 01: It has been said that 9/11 changed everything. This is certainly true for local police agencies and other chiefs. It is increasingly clear that federal agencies, such as the FBI and the US Secret Service, can no longer work alone in protecting the United States from further

attack. Rather, they must work in partnership with other public and private agencies, and most important, with local police. Local police can identify potential terrorists living or operating in their jurisdictions, they can help protect vulnerable targets, and they can coordinate the first response to terror attacks. These are heavy new responsibilities that significantly expand the workload of already busy departments. Many departments welcome these new responsibilities, but they cannot be shrugged off because elected officials and the public will increasingly expect their police to be prepared.

100 film d'oggi. Il cinema negli anni 2011-2016 Alessio Conca, 2016-08-11 Il libro raccoglie 100 schede sui film distribuiti nel mercato italiano dal settembre 2011 al settembre 2016. La maggior parte dei titoli sono italiani, statunitensi e francesi, ma si è cercato di dare spazio anche a produzioni provenienti da paesi di solito poco presenti nel circuito delle sale italiane (tra gli altri, Germania, Croazia, Bulgaria, Russia, Iran, Cina, Australia). La lettura di queste pagine può essere un'occasione per scoprire titoli magari sfuggiti (o ignorati) al momento dell'uscita, e più in generale per ragionare, attraverso il cinema, su tanti fenomeni della nostra epoca, nella consapevolezza che il discorso su un film finisce sempre per riflettere anche i tempi e il contesto mutevole della vita di ognuno.

Scoring the Hollywood Actor in the 1950s Gregory

Camp,2020-12-30 Scoring the Hollywood Actor in the 1950s theorises the connections between film acting and film music using the films of the 1950s as case studies. Closely examining performances of such actors as James Dean, Montgomery Clift, and Marilyn Monroe, and films of directors like Elia Kazan, Douglas Sirk, and Alfred Hitchcock, this volume provides a comprehensive view of how screen performance has been musicalised, including examination of the role of music in relation to the creation of cinematic performances and the perception of an actor's performance. The book also explores the idea of music as a temporal vector which mirrors the temporal vector of actors' voices and movements, ultimately demonstrating how acting and music go together to create a forward axis of time in the films of the 1950s. This is a valuable resource for scholars and researchers of musicology, film music and film studies more generally.
