Let Me Off at the Top! Ron Burgundy, 2013-11-19 A shockingly candid and raw autobiography from legendary anchorman, jazz flutist, and host of The Ron Burgundy Podcast, Ron Burgundy. From his humble beginnings in a desolate Iowa coal mining town, his years at Our Lady Queen of Chewbacca High School to his odds-defying climb to the dizzying heights of becoming America's most trusted and beloved television News Anchor, Ron Burgundy pulls no punches in Let Me Off at the Top! In his very own words Burgundy reveals his most private thoughts, his triumphs and his disappointments. His life reads like an adventure story complete with knock-down fights, beautiful women and double-fisted excitement on every page. He has hunted jackalopes with Bobby Kennedy and Peter Lawford, had more than his share of his amorous exploits, and formed the greatest on-air team in the history of televised news. Along the way, he hobnobbed with people you wish you knew and some you honestly wish you didn't—celebrities, presidents, presidents' wives, celebrities' wives, dogs, and, of course Veronica Corningstone, the love of his life. Walter Cronkite, Barbra Streisand, Katie Couric, the list goes on. Who didn't Mr. Burgundy, or "Ron" as he is known to his friends, rub elbows with in the course of his colorful and often criminal life? This may well be the most thrilling book ever written, by a man of great physical, moral and spiritual strength and not surprisingly a great literary talent as well. This book deserves a real shot at a Pulitzer Prize. In fact if it doesn't win one then we will finally have proof that the Pulitzer is rigged. Ron Burgundy has taken the time to write a book. We owe it to him, as honest Americans, to read it.

Kind of a Big Deal Saul Austerlitz, 2023-08-22 From the author of *Generation Friends*, featuring brand-new interviews with Will Ferrell and Adam McKay, a surprising, incisive, and often hilarious book about the film that changed comedy, *Anchorman*. It's been nearly twenty years since Ron Burgundy burst into movie fans' lives, reminding San Diego to "stay classy" while lampooning a time gone by—although maybe not as far gone as we might think? In *Kind of a Big Deal*, comedy historian Saul Austerlitz tells the history of how *Anchorman* was developed, written, and cast, and how it launched the careers of future superstars like Will Ferrell, Steve Carell, and Paul Rudd, also setting the stage for a whole decade of comedy to come and influencing films like *The 40-Year-Old Virgin*, *Talladega Nights*, *Knocked Up*, *Superbad*, and so many more. But *Kind of a Big Deal* isn't only a celebration of *Anchorman*—it's also a cultural analysis of the film's significance as a sly commentary on feminism, the media, fragile masculinity, 1970s nostalgia, and more. Featuring brand-new interviews with stars such as Will Ferrell, director Adam McKay, and other key players, the book includes insider commentary alongside updated pop-culture analysis. And it also shares surprising stories and facts: from the film's original conception as a plane crash/cannibal comedy mashup to the surprising, real-life newscaster who inspired the character of Veronica. Overall, this is a celebration of a movie that millions love—but it's also an unsparing look back at what has and hasn't changed, since the 1970s and since 2004. Perfect for fans of the film and anyone who cares about comedy today, *Kind of a Big Deal* proves that the movie was, and is, exactly that.

form the cinematic canon, this book explores the twelve films Veber directed between 1976 and 2008. These include *Le Jouet* (1976), *Les fugitifs* (1986) and *L'emmerdeur* (2008).

The Enlightened Bracketologist Nigel Holmes, Richard Sandomir, Mark Reiter, 2008-12-09 Every March, the NCAA men's basketball tournament blankets newspapers and the Internet, and attracts millions of television viewers over the course of three weeks. Will a perennial favorite like Duke win? Or will it be a dark horse like Gonzaga? The phenomenon known as March Madness galvanizes a nation of viewers as few other sports events can. The reason? Bracketology. America eagerly watches as 64 teams become 32, then 16, then 8, then 4, then 2, and finally #1. Now it's time to use the same rigorous method for everything that really matters in culture, people, history, the arts and more. In *The Enlightened Bracketologist* the editors have organized the world's most haunting and maddeningly subjective questions into a scheme of binary pairings that finally reveal what is truly the best in its class: La Tache or Chateau Latour? (1) Barry Bonds or Terrell Owens? (2) Vissi d'arte or Dove Sono? (3) OJ verdict or JFK assassination? (4) Top of the world, Ma or Nobody's perfect? (5) Two by two, *The Enlightened Bracketologist* pits our cultural mainstays against each other; only the finest survive. Every double-page spread of this book will contain a series of brackets compiled by experts and celebrities, with text call-outs that highlight the reason why one competitor moves on and another doesn't. Already committed are Elvis Costello on popular songs; David Bouley on cookbooks; Leon Fleisher

on piano music; René Fleming on opera arias; Henry Beard on French phrases; Joseph Ward on wine.

Weather on the Air Robert Henson, 2013-01-22 From low humor to high drama, TV weather reporting has encompassed an enormous range of styles and approaches, triggering chuckles, infuriating the masses, and at times even saving lives. In *Weather on the Air*, meteorologist and science journalist Robert Henson covers it all—the people, technology, science, and show business that combine to deliver the weather to the public each day. Featuring the long-term drive to professionalize weathercasting; the complex relations between government and private forecasters; and the effects of climate-change science and the Internet on today's broadcasts. With dozens of photos and anecdotes illuminating the many forces that have shaped weather broadcasts over the years, this engaging study will be an invaluable tool for students of broadcast meteorology and mass communication and an entertaining read for anyone fascinated by the public face of weather.

The Press Gang Godfrey Cheshire, Matt Zoller Seitz, Armond White, 2020-09-29 A dialogue about cinema's legacy and best directors through essays by three of the best long-

form critics out there, collected from the legendary NYPress for the first time. Comprising of the kind of long-form criticism that is all too rare these days, the weekly film columns in the NYPress included polemics, reviews, interviews, festival reports and features. A far cry from what is often derisively termed the consumer report mode of criticism, Cheshire, Seitz and White were passionately engaged with the film culture of both their own time, and what had come before. They constituted three distinctly different voices: equally accomplished, yet notably individual, perspectives on cinema. Their distinctive tastes and approaches were often positioned in direct dialogue with each other, a constant critical conversation that frequently saw each writer directly challenging his colleagues. Dialogue is important in criticism, and here you can find a healthy example of it existing under one proverbial roof. This three-way dialogue between Cheshire, Seitz and White assesses the 1990s in cinema, along with pieces on New York's vibrant repertory scene that allow us to read the authors' takes on directors such as Hitchcock, Lean, Kubrick, Welles, Fassbinder and Bresson; as well as topics such as the legacy of Star Wars, film noir, early film projection in New York City, the New York Film Critics Circle, Sundance, the terrorist attacks of 9/11 and the emerging cinema of Iran and Taiwan.

Hamlet, Globe to Globe Dominic Dromgoole, 2017-04-26 A New York Times Notable Book: "A loving testament to the enduring ability of Shakespeare's play to connect in myriad ways across countries and cultures" (Pop Matters). For the 450th anniversary of Shakespeare's birth, the Globe Theatre undertook an unparalleled journey: to take Hamlet to every country on the planet, to share this beloved play with the entire world. The tour was the brainchild of Dominic Dromgoole, artistic director of the Globe, and in Hamlet:

Globe to Globe, Dromgoole takes readers along with him. From performing in sweltering deserts, ice-cold cathedrals, and heaving marketplaces, and despite food poisoning in Mexico, the threat of ambush in Somaliland, an Ebola epidemic in West Africa, and political upheaval in Ukraine, the Globe's players pushed on. Dromgoole shows us the world through the prism of Shakespeare—what the Danish prince means to the people of Sudan, the effect of Ophelia on the citizens of Costa Rica, and how a sixteenth-century play can touch the lives of Syrian refugees. And thanks to this incredible undertaking, Dromgoole uses the world to glean new insight into this masterpiece, exploring the play's history, its meaning, and its pleasures. "The Shakespearean equivalent of Bourdain's TV series, *Parts Unknown*. . . [Dromgoole's] aesthetic principle, or unprincipled aesthetic, makes him a natural tour guide for global Shakespeare . . . A comic epic." —The Washington Post

Yes We (Still) Can Dan Pfeiffer, 2018-06-19 From Obama's former communications director and current co-host of *Pod Save America* comes a colorful account of how politics, the media, and the Internet changed during the Obama presidency and how Democrats can fight back in the Trump era. On November 9th, 2016, Dan Pfeiffer woke up like most of the world wondering WTF just happened. How had Donald Trump won the White House? How was it that a decent and thoughtful president had been succeeded by a buffoonish reality star, and what do we do now? Instead of throwing away his phone and moving to another country (which were his first and second thoughts), Pfeiffer decided to tell this surreal story, recounting how Barack Obama navigated the insane political forces that created Trump, explaining why everyone got 2016 wrong, and offering a path for where Democrats go from here. Pfeiffer was one of Obama's first hires when he decided to run for president, and was

at his side through two presidential campaigns and six years in the White House. Using never-before-heard stories and behind-the-scenes anecdotes, *Yes We (Still) Can* examines how Obama succeeded despite Twitter trolls, Fox News (and their fake news), and a Republican Party that lost its collective mind. An irreverent, no-BS take on the crazy politics of our time, *Yes We (Still) Can* is a must-read for everyone who is disturbed by Trump, misses Obama, and is marching, calling, and hoping for a better future for the country.

hammer: announcing the most wildly inventive, eco-friendly craft book on repurposing everyday objects since Generation T. Except in this case the raw material isn't a T-shirt, but the stuff we all have lying around and have no idea what to do with, or even how to get rid of properly—your old cell phone, a broken printer, irredeemable iPod, busted digital camera, mysterious thatches of cables and wires, orphaned keyboards, and of course, those dead PCs and laptops. Created by a Parsons design graduate who's obsessed with navigating the intersection of art and technology, here are 62 ingenious projects that are irresistibly geek-chic. An iMac Terrarium—how cool is that? A laptop Digital Photo Frame. The impressively green Scanner Compost Bin. Jean Baudrillard David B. Clarke, Marcus Doel, William Merrin, Richard G. Smith, 2008-09-25 Jean Baudrillard was one of the most influential, radical, and visionary thinkers of our age. His ideas have had a profound bearing on countless fields, from art and politics to science and technology. Once hailed as the high priest of postmodernity, Baudrillard's sophisticated theoretical analyses far surpass such simplistic caricatures. Bringing together Baudrillard's most accomplished and perceptive commentators, this book assesses his legacy for the twenty-first century. It includes two outstanding essays by Baudrillard: a remarkable, previously unpublished work entitled 'The vanishing point of

communication,' and one of Baudrillard's final texts, 'On disappearance', a veritable tour de force that serves as a culmination of his theoretical trajectory and a provocation to a new generation of thinkers. Employing Baudrillard's key concepts, such as simulation, disappearance, and symbolic exchange, and deploying his most radical strategies, such as escalation, seduction, and fatality, the volume's contributors offer a series of thought-provoking analyses of everything from art to politics, and from laughter to terror. It will be essential reading for anyone concerned with the fate of the world in the new millennium.
