Bristol F2 Fighter Aces of World War I Jon Guttman,2007-09-18 This is the history of the best Allied fighter-destroyer of World War 1 and the pilots who flew it. Nicknamed Biff by the pilots, the Bristol F2 Fighter enjoyed extraordinary success over the Western Front in the final 18 months of the war. However, it had an inauspicious debut, as an entire flight of F2As was wiped out by von Richthofen's Jasta 11. A new improved F2B was soon delivered to the front which functioned in an entirely different manner. The crews operated the plane not as a standard two-seater, but as a single-seat with a sting in the tail in the form of a rear gunner with a Lewis machine gun. Numerous ace teams earned the Biff grudging respect from its German opponents. This book charts the development of the plane from its unpromising beginnings to the revised model operating with a new kind of tactics. Moreover, the numerous first-hand accounts and combat reports give a fascinating insight into the experiences of the pilots themselves.

Winged Sabres Robert A. Sellwood,2018-05-30 Winged Sabres is the story of a RFC & RAF squadron flying the cumbersome FE2 from February 1916 to September 1917, and then the superlative Bristol Fighter: a two-seater fighter-reconnaissance squadron with an astonishingly high success rate.20 Squadron was possibly the highest scoring squadron of the war and one of the most highly decorated, claiming over 600 combat victories with well over 400 confirmed in RFC & RAF Communiquis. Its members won seventy gallantry decorations including a posthumous Victoria Cross, and included fliers from the U.K. and around the world. Over 40 became aces, including the American Iaccaci brothers and some Canadians and others. But with a casualty rate of around 50% including killed, wounded and POW they paid a high price.Over 15 years research has gone into this book, covering a seldom-explored aspect of WW1 in the air: the two-seater fighter-reconnaissance squadrons. 20 Squadrons motto was Facta Non Verba Deeds Not Words!

Beaufighter Aces of World War 2 Andrew Thomas,2013-02-20 Entering service at the end of the Battle of Britain, the pugnacious Bristol Beaufighter was deployed in numbers by Fighter Command just in time for the start of the Luftwaffe's night 'Blitz' on Britain. Flown by specialised nightfighter squadrons – several of them elite pre-war Auxiliary Air Force units – it was the first nightfighter to be equipped with an airborne radar as standard. Thus equipped, it combined the ability to 'see' the enemy at night with the devastating hitting power of four cannon and six machine guns. This book covers the exploits of the men who made ace in the Beaufighter and includes stunning original artwork together with first hand accounts of the action.

An Account Of Bristol Fighter Pilot Mario Joffrion,2021-12-03 You've probably heard a lot of stories about the Second World War but what about the First one? Let this book give you a chance to hear one of thousands of World War I stories out there by purchasing a copy today! Trust me, you won't regret it. Ron Adair was a mechanic in Maryborough, Queensland, Australia in 1916, and an original member of 1 Squadron Australian Flying Corps. After service in Egypt as a mechanic, Adair volunteered for pilot training and flew with 1 Sqn for the remainder of the war from February 1918, completing 60 operational sorties, shooting down several enemy aircraft, surviving forced landings, and returning to Australia. He had a successful post-war career in civil aviation, especially in WW2, but this is not part of this book. Adair was typical of the young volunteers of the time when aviation was in its infancy. They flew in open cockpits, had only warm clothes against the cold of high flying, had no voice radio communications, no parachutes, and were bombed by estimating the position below of the target. There were no set tours of operational flying. Many other pilots and observers in 1 Sqn were veterans of Gallipoli and actions in the Desert and set high standards for the rest of the aircrew. Adair had to meet those standards on operational flights over enemy territory

Dogfight David Owen,2015-06-20 Innumerable books have been published on the two most famous fighter aircraft of all time, the Supermarine Spitfire and the Messerschmitt Bf109. But books setting out to tell the story of both aircraft are very much rarer - probably fewer than the fingers of one hand. Yet their joint story is one which bears retelling since both were essential to the air campaigns of World War Two. Incredibly, the men who designed them lacked any experience of designing a modern fighter. R J Mitchell had begun his career working on industrial steam locomotives, Willy Messerschmitt had cut his aeronautical teeth on light and fragile gliders and sporting planes. Yet both men not only managed to devise aircraft which could hold their own in a world where other designs went from state-of-the-art to obsolete in a staggeringly short time, but their fighters remained competitive over six years of front-line combat. Despite the different ways their creators approached their daunting tasks and the obstacles each faced in acceptance by the services for which they were designed, they proved to be so closely matched that neither side gained a decisive advantage in a titanic struggle. Had either of them not matched up to its opponent so well, then the air war would have been a one-sided catastrophe ending in a quick defeat for the Allies or the Axis powers, and the course of twentieth century history would have been changed beyond recognition.

Beaufighter Boys Graham Pitchfork,2019-08-29 The author of Shot Down in the Drink shares photos and anecdotes detailing the history of the World War II fighter plane and its crews across the globe. Researched many years ago by Graham Patrick for a project that did not come to fruition, Beaufighter air and ground crew gave freely of their stories, which ranged from complete memoirs to brief anecdotes. And there were a plethora of original photographs for him to choose from. He has built on these tales to trace the roles of Beaufighter squadrons spread across all the theatres of World War II operations. From home bases, through northwest Europe, North Africa, Malta and the Mediterranean, to the Far East and southwest Pacific, the Beaufighter served far and wide, as did the crews of the RAF, RAAF, SAAF, and New Zealand and Canadian squadrons. All are covered in this quite unique book to be savored by all those interested in the war in the air from 1939–1945.
