Command & Conquer (tm) Keith R.A. DeCandido,2009-07-22 The official novel of the bestselling real-time strategy franchise • In the twenty-first century, Earth is infested with Tiberium, an alien substance that could be humanity’s salvation . . . or its downfall. Though Tiberium is a resource that could solve the world’s energy crisis, it is also incredibly destructive, spreading disease, death, and devastation. Tiberium has divided the planet into two factions: the Global Defense Initiative (GDI), which tries to maintain order at any cost, and the Brotherhood of Nod, a terrorist organization turned superpower that believes with religious fervor in the potential of Tiberium. The groups have already fought two world wars, killing millions. Now, in the year 2047, a vicious Nod attack compels GDI to mobilize. Another epic global war is being waged, with humanity’s fate in the balance. One of GDI’s top units, the 22nd Infantry Division, must halt Nod’s agenda and keep the world from devolving into further chaos and loss of life. But in the midst of heavy fighting all over the world, mysterious visitors arrive . . . who may spell doom for the human race.

Living with Diabetes and Uncertainty in Cairo Mille Kjærgaard Thorsen,2023-05-18 Living with Diabetes and Uncertainty in Cairo offers an ethnographic exploration of the interactions of two different understandings of type-2 diabetes: one related to the notion of ḍagħṭ, translated as “pressure” or “stress,” and another related primarily to obesity. The book is set in Egypt but draws links to a diabetes clinic in Denmark and a multinational medical company, as well as engaging with international diabetes research and guidelines. It tells a story of uncertainty, not only among people in Cairo, but also within medical research, and considers what uncertainty may generate in both bodies and societies at large. The chapters provide valuable insight into the lives of those in Cairo who are diagnosed with type-2 diabetes, and explore how those lives are linked to global movements. The book ultimately reflects on the question of what is overlooked and why in prevention strategies and treatments of type-2 diabetes in Egypt. It will be of particular interest to scholars of anthropology, global and public health, and the Middle East and North Africa.

With the destruction of the GDSS Philadelphia during the Annual Energy Summit by the Brotherhood of NOD, Kane started the most destructive conflict between the Global Defence Initiative and his Followers. As the war raged from the White House to Europe and Australia the Alien Scrin would also launch their invasion of Earth revealing the secrets of the Tacitus. Solving The Equation of Love: A Manic Imagination [Equation Of Humanity Book 1] Eric J. Chou,2023-08-25 This book is the 1st compendium of my life story and work. I have lived experience of bipolar 1, and a vision disability, and that informs everything I’ve done. Looking back at the past decade of my life, and all I’ve accomplished to date, I can see it all in perfect focus, and I can see the guiding will of God moving through my life, bringing me through my relationships, and setting me on the paths I’ve not just walked, but the paths I’ve paved. I’ve organized and build communities 150+ members strong I’ve built a company and game project off of the fuel of passion alone. I’ve not just influenced but have literally saved lives. I’ve done research summarizing and highlighting my findings, so others can carry on the legacy of Honor I’ve started The journey has been long, and it’s been hard, but as I write this, I’m beginning a new chapter of my life, and I couldn’t be humbler and prouder. This book includes all the people, communities and projects I care about, and what has shaped me into the man, leader, and founder I am today. I hope this lived experience of Bipolar 1 helps break the stigma shrouding mental health, both in general, and specifically in the creative industries I’ve been privileged to be a part of. I wish to continue a dialog on these subjects, and show that Mental health issues are indeed double-edged swords that are core to who we are. This book contains select documents of snap shots in time of my Tiberium Secrets mod, a passion project that looks to the future of the Command & Conquer video game franchise. This book contains a new theory and model of mental health that is called “The PPF Model” = The Past Present and Future model, which aims to ground mental health discussions in common understandable terms. Thanks to all the unsung heroes in my life, I would not be who I am without all

of you. It’s time for a new challenge. The Future is Bright!
