History's Most Important Racing Aircraft Don Berliner, 2013-11-14 Don Berliner, a prolific aviation author, puts pen to paper once again to provide us with a definitive overview of the most important, influential, and iconic racing aircraft of the last century. The book looks at the incredible variety, growth, and rapid expansion of this area of aviation design and production. Individual events are relayed which deal with teams of designers, often equipped with a lot more ideas than money, making wild dashes for the checkered flag and fame. The excitement of this endeavor is translated here into vivid prose. Supplemented throughout by extensive illustrations (over 200 images) this piece of work is sure to appeal to enthusiasts of the genre interested in seeing the most select racing aircraft of all time consolidated into one volume.??Aircraft featured include the Schneider Cup winning 1919 Supermarine Sealion, the iconic De Havilland Comet, post-war jet racers such as the Lockheed P-80A and the North American F-86A as well as a whole host of Formula One, Sport Biplane and Jet Class racers. Details of the current status of each racer is given, indicating whether the craft is still active or whether preserved models are available for viewing. ??Berliner continues with characteristic style and ease of delivery, adding to his expanding library of acclaimed Pen and Sword publications.

Cleveland's Legacy of Flight Thomas G. Matowitz, 2008 Since the dream of flight was finally realized by two Ohioans, Wilbur and Orville Wright, it is little wonder that Greater Clevelanders were quick to embrace it. From the August day in 1910 when Glenn Curtiss flew from Euclid Beach Park to Cedar Point, aviation has had a strong following in Cleveland. World War I saw the dawn of aircraft production in the city, and the 1920s brought the world-renowned Cleveland National Air Races. Cleveland industry supported aviation in many different ways, and multiple airports, many now long gone, promoted business aviation and flight training for decades. During World War II, Cleveland was a center of war production, and much of this was aviation related. Subsequently, renovations of the Cleveland Municipal Airport created Cleveland Hopkins International Airport. A scene of thriving airline operations to this day, Cleveland's business community was quick to appreciate the advantages of corporate aviation, which remains a daily feature of Cleveland's aviation life.

Problems and Cases on Secured Transactions James A. Brook, Keith A. Rowley, 2023-09-15 Brook & Rowley's Problems and Cases on Secured Transactions provides an updated problem-based approach to teaching and learning Article 9 of the Uniform Commercial Code. Using a problem-based approach, Brook & Rowley's Problems and Cases on Secured Transactions 4th Edition engages students with imaginative scenarios while providing an accessible and manageable approach to personal property secured transactions, without avoiding the intricacies of UCC Article 9 or de-emphasizing its interplay with other UCC articles, selected state non-UCC law, or federal bankruptcy law. Designed for a standalone Secured Transactions course, but adaptable to other configurations, the book presents UCC Article 9 as completely comprehensible, even enjoyable, rather than as arcana that only an insider can be expected to understand. Cases have been thoughtfully selected and edited, and the authors' textual discussion helps connect the cases to the problems and explores the materials' practical (and practice-oriented) relevance. A good mix of shorter and longer problems gives each chapter a focused flow while frequently recurring characters and basic fact patterns help to reinforce how the lessons of each chapter build onto the more comprehensive whole mapped out in prior and upcoming chapters. Earlier problems lean more heavily, though not exclusively, on the individual and consumer-borrower situations. As the lessons advance, the mix of materials progressively includes more small-business and large-business transactions. New to the Fourth Edition: New co-author Keith A. Rowley brings a quarter century of experience teaching Secured Transactions, augmented by insights gained over nearly two decades of active involvement in the ABA Business Law Section and during his tenures as a Uniform Law Commissioner and as an elected member of the American Law Institute, in which capacity he actively consulted on the 2010 Amendments to UCC Article 9 and made several contributions to the 2022 UCC Amendments, which span the entire Code. New cases that replace statutorily obsolete or judicially superseded ones included in the prior edition or that augment cases carried over from the prior edition. Extensively edited and judiciously augmented textual materials. Extensively edited and judiciously augmented chapter problems. Corrected, replaced, and supplemented end-of-part multiple-choice review questions. Brief discussion of the 2022 UCC Amendments (which have only been adopted in a handful of states), as they relate to pre-amendment UCC Article 9. Professors and students will benefit from: Simple, straightforward organization of chapters and of material within each chapter that makes it easy to tailor assignments according to differing class credits and to the individual instructor's coverage preferences. Textual introductions, direction to particular statutory sections and comments, and thoughtfully edited cases designed to focus student attention on the issues at hand. Interesting and engaging problems that encourage the students to prepare answers before class discussion, allowing the student to continually monitor their understanding of the topic being covered. Recurring characters and basic fact patterns help students to more readily bridge from one topic to the next and see the bigger picture of UCC Article 9 and how each chapter contributes to better appreciating that picture. Review Questions (with answers) at the end of each Part of the book that helps students gauge their comprehension of and facility with the material discussed over several chapters and help professors meet new ABA formative assessment requirements.

Hangar Sweepings Harold Mills, 2009-01-30 After Charles Lindbergh made his historic non-stop flight from NY to Paris, the whole country went air crazy. All the fashionable young women wore cloche hats with simulated goggles and danced the Lindy Hop. My Mom was one of these. The following year, when I was three, we stood in front yard and cheered when Lindy flew over in the Spirit of St. Louis in the front seat of Curtis Jenny. I never got over it. My Dad only flew once in his life, with me after I got a Private license. It was a trust thing. He sat in the back seat of Cub rigid as a board the whole time. These stories all first appeared in the Carolina Unicom which is the monthly newsletter of the EAA Chapter 1083 based at the Rowan County Airport in Salisbury NC. The stories were gleaned from my days as a Ramp Rat at the airport and 22 years as a Photo Interpreter in the Air Force. The pencil sketches were made by my youngest son, Curtis. Some of the photos were made by me, the others were made by my old friend, G.C. Luke Teeter, John Suther, Jim Torrence and Smith Kirk.
