We the People Zero, Bryan Johnson, 2023-11-19 In the late 21st century, a neurotechnology called Bridge has changed the world. Bridging allows a person to program their own body and mind to achieve untold enhancement. There was one problem: It only works in children. Within a single generation, a new world order developed. Bridged Children grew smarter, faster, and stronger than the Adults and demanded equal rights. The Adults fought back. During the ensuing war, Adams, a prodigy among the Children, hid in seclusion on the Nordic coast. But when a family secret pulls him into the public eye, Adams must unravel the details of a sinister, mind-bending plot of global domination before it is too late. Writing as “Zero,” author Bryan Johnson is an entrepreneur and explorer of new frontiers of human existence. Johnson has founded multiple companies: Blueprint (longevity), Kernel (neurotechnology), OS Fund (AI, computation, and biotechnology), and Braintree Venmo (payments). In *We the People*, Johnson explores what it means to program the body, the mind, and society, using the technologies of tomorrow.

DON'T DIE Zero, Bryan Johnson, 2023-11-14 On his final day alive, Scribe convenes a reunion of his closest friends. Though they'd been separated since a harrowing climb on Mt. Kilimanjaro, Scribe hopes the gathering will inspire an actionable plan for humanity in the face of existential challenges. Through a series of conversations, debates, and negotiations, the participants develop a blueprint for the way forward. Writing as “Zero,” author Bryan Johnson is an entrepreneur and explorer of the new frontiers of being human. Johnson took stock of his health and realized that a decade of chronic depression and poor cognitive control earlier in life had affected every measure of his well-being. He decided it was time to fight back. In *DON'T DIE*, Johnson catalogs the social and philosophical strategies necessary for the fight, both individually and as a species. Johnson's controversial ideas and methods have attracted both detractors and devoted followers around the globe.

A Good Man Mark Shriver, 2012-06-05 In this intimate portrait of an extraordinary father-son relationship, Mark K. Shriver discovers the moral principles that guided his legendary father and applies them to his own life. When Sargent Sarge Shriver—founder of the Peace Corps and architect of President Johnson's War on Poverty—died in 2011 after a valiant fight with Alzheimer's, thousands of tributes poured in from friends and strangers worldwide. These tributes, which extolled the daily kindness and humanity of a good man, moved his son Mark far more than those who lauded Sarge for his big-stage, headline-making accomplishments. After a lifetime searching for the path to his father's success in the public arena, Mark instead turns to a search for the secret of his father's joy, his devotion to others, and his sense of purpose. Mark discovers notes and letters from Sarge; hears personal stories from friends and family that zero in on the three guiding principles of Sarge's life—faith, hope, and love—and recounts moments with Sarge that now take on new value and poignancy. In the process, Mark discovers much about himself, as a father, as a husband, and as a social justice advocate. *A Good Man* is an inspirational and deeply personal story about a son discovering the true meaning of his father's legacy.

Friendly Fire C. D. B. Bryan, 2016-05-10 The true story of Michael Mullen, a soldier killed in Vietnam, and his parents' quest for the truth from the US government: “Brilliantly done” (The Boston Globe). Drafted into the US Army, Michael Mullen left his family's Iowa farm in September 1969 to fight for his country in Vietnam. Six months later, he returned home in a casket. Michael wasn't killed by the North Vietnamese, but by artillery fire from friendly forces. With the government failing to provide the precise circumstances of his death, Mullen's devastated parents, Peg and Gene, demanded to know the truth. A

year later, Peg Mullen was under FBI surveillance. In a riveting narrative that moves from the American heartland to the jungles of Vietnam to the Vietnam Veterans Against the War march in Washington, DC, to an interview with Mullen's battalion commander, Lt. Col. H. Norman Schwarzkopf, author C. D. B. Bryan brings to life with brilliant clarity a military mission gone horrifically wrong, a patriotic family's explosive confrontation with their government, and the tragedy of a nation at war with itself. Originally intended to be an interview for the New Yorker, the story Bryan uncovered proved to be bigger than he expected, and it was serialized in three consecutive issues during February and March 1976, and was eventually published as a book that May. In 1979, Friendly Fire was made into an Emmy Award-winning TV movie, starring Carol Burnett, Ned Beatty, and Sam Waterston. This ebook features an illustrated biography of C. D. B. Bryan, including rare images from the author's estate.

Fat, Drunk, and Bipolar Lynn Bryan Johnson,2014-11-25 For years, all Lynn Bryan Johnson saw in the mirror was a big, fat loser-a sad, angry, self-loathing waste of a person. She walked with her head lowered, unable to deal with being alive. Johnson lives with bipolar disorder, a frequently misunderstood mental illness characterized by episodic depression and mania. The disease contributed, at least in part, to her alcoholism. When depressed, she feels suicidal. When caught in the grip of mania, she experiences intense rages, or a state of self-destructive euphoria. In Fat, Drunk, and Bipolar, Johnson invites readers to explore her world from the inside out, sharing the thoughts, feelings, and actions that result from living with a debilitating mental illness.

Nothing is sugarcoated; everything is real. And while often dark, Johnson's writing betrays a sharp sense of humor that survives despite the constant war within her. Beginning with her childhood, Johnson shows how bipolar disorder touched every aspect of her life, from the uncertainties of adolescence and college to family life and finding her place in the world. And while there's no cure, she learns something of great value. She's not a loser-she's a warrior, fighting a lifelong battle against overwhelming odds.

Banks, Erica Johnson, 2017-09-18 This volume examines the French Revolution's relationship with and impact on religious communities and religion in a transnational perspective. It challenges the traditional secular narrative of the French Revolution, exploring religious experience and representation during the Revolution, as well as the religious legacies that spanned from the eighteenth century to the present. Contributors explore the myriad ways that individuals, communities, and nation-states reshaped religion in France, Europe, the Atlantic Ocean, and around the world.

Zero Charles Seife, 2019-11-28 A NEW YORK TIMES NOTABLE BOOK The Babylonians invented it, the Greeks banned it, the Hindus worshipped it, and the Christian Church used it to fend off heretics. Today it's a timebomb ticking in the heart of astrophysics. For zero, infinity's twin, is not like other numbers. It is both nothing and everything. Zero has pitted East against West and faith against reason, and its intransigence persists in the dark core of a black hole and the brilliant flash of the Big Bang. Today, zero lies at the heart of one of the biggest scientific controversies of all time: the quest for a theory of everything. Within the concept of zero lies a philosophical and scientific history of humanity. Charles Seife's elegant and witty account takes us from Aristotle to superstring theory by way of Egyptian geometry, Kabbalism, Einstein, the Chandrasekhar limit and Stephen Hawking. Covering centuries of thought, it is a concise tour of a world of ideas, bound up in the simple notion of nothing.

When Einstein Walked with Gödel Jim Holt, 2018-05-15 From Jim Holt, the New York Times bestselling author of *Why Does the World Exist?*, comes an entertaining and accessible guide to the most profound scientific and mathematical ideas of recent centuries in *When Einstein Walked with Gödel: Excursions to the Edge of Thought*. Does time exist? What is infinity? Why do mirrors reverse left and right but not up and down? In this scintillating collection, Holt explores the human mind, the cosmos, and the thinkers who've tried to encompass the latter with the former. With his trademark clarity and humor, Holt probes the mysteries of quantum mechanics, the quest for the foundations of mathematics, and the nature of logic and truth. Along the way, he offers intimate biographical sketches of celebrated and neglected thinkers, from the physicist Emmy Noether to the computing pioneer Alan Turing and the discoverer of

fractals, Benoit Mandelbrot. Holt offers a painless and playful introduction to many of our most beautiful but least understood ideas, from Einsteinian relativity to string theory, and also invites us to consider why the greatest logician of the twentieth century believed the U.S. Constitution contained a terrible contradiction—and whether the universe truly has a future.
