Various, Andrew Chambliss, Joss Whedon

Unnatural Selection Tim Lebbon, 2006-04-30

Hellboy, a bloodred, cloven-hoofed demon raised by the United States government, is a top field agent for the Bureau for Paranormal Research and Defense. He questions the unknown -- then beats it into submission. A dragon is seen perching on the statue of Christ the Redeemer overlooking Rio de Janeiro . . . A werewolf stalks the streets of Baltimore . . . A griffin slaughters a herd of horses in Madrid . . . Weird sightings of cryptozoological and mythological creatures abound around the globe. Sometimes the creatures simply appear and then vanish again, content merely to put in an appearance. Other times they make themselves known to entire cities, and leave their mark. Damaged buildings. Scars on the landscape. The occasional death. Then suddenly, the death toll escalates. One by one Hellboy and his friends at the BPRD are dispatched to avert disaster. Hellboy encounters a dragon in Brazil. Abe Sapien tackles a giant alligator in Venice. Liz Sherman faces off against a phoenix in the Mediterranean. But in dawning horror they realize it's all a distraction -- heralding nothing so much as an event of apocalyptic proportions . . .

Seven Seasons of Buffy Glenn Yeffeth, 2009-06-22

This collection of irreverent and surprising essays about the popular television series *Buffy the Vampire Slayer* includes pieces by leading science fiction and fantasy authors. Contributors include bestselling legend David Brin, critically acclaimed novelist Scott Westerfeld, cult-favorite vampire author Chelsea Quinn Yarbro, and award-

winner Sarah Zettel. The show and its cast are the topics of such critical pieces as Lawrence Watt-Evans's Matchmaking in Hellmouth and Sherrilyn Kenyon's The Search for Spike's Balls. An informed introduction for those not well acquainted with the show, and a source of further research for Buffy buffs, this book raises interesting questions concerning a much-loved program and future cult classic.

Buffy the Vampire Slayer Season 8 Volume 3: Wolves at the Gate Joss Whedon, Various, 2008-11-18
Vampires that, at will, can transform into wolves, panthers, insects, or fog invade the Slayer base of operations in northern Scotland, and not only walk away unscathed, but in possession of Buffy's scythe, the symbol of Slayer power worldwide. Buffy and the Slayer legion travel to Tokyo in order to learn more about their dangerous new foes, as Xander journeys to Transylvania to solicit the only person they've ever known to possess such power: Dracula. * The celebrated Buffy Season Eight continues with Drew Goddard (Cloverfield, Lost) writing Wolves at the Gate, with Joss Whedon continuing his role as executive producer, and Georges Jeanty as series artist. * Includes the stand-alone issue written by Buffy creator Joss Whedon, A Beautiful Sunset. * The dialogue is Whedonesque and I can hear how the actors would read their lines. It's fun and witty and we're treated to more fantastical stories than the WB/UPN could ever pony up the money to do. - Comic Book Resources * A New York Times bestseller!

Buffy Goes Dark Lynne Y. Edwards, Elizabeth L.

Rambo, James B. South, 2014-01-10 Buffy the Vampire Slayer earned critical acclaim for its use of metaphor to explore the conflicts of growth, power, and transgression. Its groundbreaking stylistic and thematic devices, boldness and wit earned it an intensely devoted fan base—and as it approached its zenith, attention from media watchdog groups and the Federal Communications Commission. The grim and provocative evolution of the show over its final two seasons polarized its audience, while also breaking new ground for critical and philosophical analysis. The thirteen essays in this collection, divided into the perspectives of feminist, cultural, auteur and fan studies, explore the popular series' conclusion, providing a multifaceted examination of Buffy's most controversial two seasons.

Why Buffy Matters Rhonda Wilcox, 2005-08-26 Hugely enjoyable, long awaited book by top world authority on Buffy the Vampire Slayer. Buffy is still on screens and on DVD in home television libraries of a wide array of TV watchers and fans. This is also the student text for TV and cultural studies at colleges and universities where Buffy is widely taught. Rhonda Wilcox is a world authority on Buffy the Vampire Slayer, who has been writing and lecturing about the show since its arrival on our screens. This book is the distillation of this remarkable body of work and thought, a celebration of the series that she proposes is an aesthetic test case for television. Buffy is enduring as art, she argues, by exploring its own possibilities for long-term construction as well as producing individual episodes that are

powerful in their own right. She examines therefore the larger patterns that extend through many episodes: the hero myth, the imagery of light, naming symbolism, Spike, sex and redemption, Buffy Summers compared and contrasted with Harry Potter. She then moves in to focus on individual episodes, such as the Buffy musical *Once More, with Feeling*, the largely silent *Hush* and the dream episode *Restless* (T.S. Eliot comes to television). She also examines Buffy's ways of making meaning - from literary narrative and symbolism to visual imagery and sound. Combining great intelligence and wit, written for the wide Buffy readership, this is the worthy companion to the show that has claimed and kept the minds and hearts of watchers worldwide.

Buffy the Vampire Slayer Anne Billson, 2005-12
From 1997 to 2003, *Buffy the Vampire Slayer* single-handedly reinvented the high-school genre, splicing it with action, comedy and the supernatural. Series by series, Anne Billson unravels the magic of Buffy, examining the antecedents, influences and the new twist on the age-old story of the struggle between Good and Evil.

Coyote Moon John Vornholt, Joss Whedon, 1998 Or has the Slayer become the prey?

Buffy the Last Vampire Slayer Casey Gilly, 2022-01-12 After a coven rally meant to heal the atmosphere ends in tragedy, Thessally seeks out Buffy guided only by instructions from an old friend. Despite their shared past, Buffy refuses to train her. Instead, she delivers Thess to The Watcher's Council, certain they'll be more

suitable guardians. But the Council isn't what they seem, putting Buffy and Thessally in peril, until the intervention of three hooded figures...

Buffy Vampire Slayer Season 8 Omnibus 1 Joss Whedon, 2017 Series creator Joss Whedon brought Buffy the Vampire Slayer back to life with this comics-only follow-up to Season 7 of the television show. Aptly named Season 8, these comics are the official sequel to Buffy and continue where the live-action series left off with the Slayer, her friends, and their ongoing challenge to fight the forces of darkness. This oversized omnibus edition is one of two volumes that will contain the entirety of Season 8. It includes the first four arcs of the series along with one-shots and short stories.

The Truth of Buffy Sally Emmons-Featherston, Jim Ford, 2014-01-10 Seemingly the most fantastical of television series, Buffy the Vampire Slayer proves on close examination to be firmly rooted in real-world concerns. In this collection of critical essays, 15 authors from several disciplines, including literature, the visual arts, theatre, philosophy, and political science, study ways in which Buffy illuminates viewers' real-life experiences. Topics include the series' complicated portrayals of the relationship between soul, morality, and identity; whether Buffy can truly be described as a feminist icon; stereotypes of Native Americans in the episode "Pangs"; the role of signs in the interaction between Buffy's aesthetics and audience; and the problem of power and underhanded politics in the Buffy universe.

Buffy and the Heroine's Journey Valerie Estelle

Frankel,2014-01-10 The worlds of Percy Jackson, Harry Potter, and other modern epics feature the Chosen One—an adolescent boy who defeats the Dark Lord and battles the sorrows of the world.

Television's Buffy the Vampire Slayer represents a different kind of epic—the heroine's journey, not the hero's. This provocative study explores how Buffy blends 1990s girl power and the path of the warrior woman with the oldest of mythic traditions. It chronicles her descent into death and subsequent return like the great goddesses of antiquity. As she sacrifices her life for the helpless, Buffy experiences the classic heroine's quest, ascending to protector and queen in this timeless metaphor for growing into adulthood.

The Lost Slayer Bind-Up Christopher Golden,2003
In her freshman year at U.C. Sunnydale, Buffy Summers is visited by a prophecy of impending danger and catapulted into an alternate future dimension where vampires run amok because of a mistake she made.

Welcome to the Team Various,Andrew Chambliss,Joss Whedon,2013 Rededicated to the Slayer mission, Buffy is reducing the zompile population one by one - until she is ripped from the middle of a battle and transported to LA. The demon Illyria and a mystical council make the Slayer an unwilling recruit in a team formed to take down an increasingly powerful enemy, the Siphon. Having regained his strength after a brutal battle with Buffy, he's back in action, gathering power and endangering whatever remnants of magic linger in the world.
