When the new girl in school joins a group of teen witches, she and her friends must team up with a rival coven to take down a mysterious killer. New girl and secret witch Iris just wants to get through her first day of school without a panic attack. The last thing she expects is to be taken in by a coven of three witches: soft-spoken Greta, thoughtful and musical Ridley, and fiery and spirited Binx. They may be the first witches Iris has met IRL, but their coven is not alone in their small northwestern town. The Triad is the other coven at their school. When the Triad's not using spells to punish their exes or break up happy couples for fun, they practice dark magic. The two covens have a rivalry stretching all the way back to junior high. When tragedy strikes and one of their own is murdered, the rival covens must band together to find out who is responsible before it's too late. Someone's anti-witch ideology has turned deadly . . . and one of them is next. With an inclusive cast of teen witches who leap off the page with style, attitude, and charm, B*Witch is a perfectly bingeable read for fans of Buffy the Vampire Slayer and Mean Girls alike.

Totem Salmon Freeman House,2000-05-12 Part lyrical natural history, part social and philosophical manifesto, Totem Salmon tells the story of a determined band of locals who've worked for over two decades to save one of the last purely native species of salmon in California. The book-call it the zen of salmon restoration-traces the evolution of the Mattole River Valley community in northern California as it learns to undo the results of rapacious logging practices; to invent ways to trap wild salmon for propagation; and to forge alliances between people who sometimes agree on only one thing-that there is nothing on earth like a Mattole king salmon. House writes from streamside: I think I can hear through the cascades of sound a systematic plop, plop, plop, as if pieces of fruit are being dropped into the water. Sometimes this is the sound of a fish searching for the opening upstream; sometimes it is not. I breathe quietly and wait. Freeman House's writing about fish and fishing is erotic, deeply observed, and simply some of the best writing on the subject in recent literature. House tells the story of the annual fishing rituals of the indigenous peoples of the Klamath River in northern California, one that relies on little-known early ethnographic studies and on indigenous voices-a remarkable story of self-regulation that unites people and place. And his riffs on the colorful early history of American hatcheries, on property rights, and on the happiness of the state show precisely why he's considered a West Coast visionary. Petitions to list a dozen West Coast salmon runs under the provisions of the Endangered Species Act make saving salmon an issue poised to consume the Pacific West. Never before, said Federal officials, has so much land or so many people been given notice that they will have to alter their lives to restore a wild species (New York Times, 2/27/98). Totem Salmon is set to become the essential read for this newest chapter in our relations with other wild things.
