Buzz Jeffrey Spivak, 2011 The Great Depression was defined by poverty and despair, but visionary American filmmaker Busby Berkeley (1895-1976) managed to divert the public's attention away from the economic crash with some of the most iconic movies of all time. Known for his kaleidoscopic dance numbers featuring multitudes of performers in extravagant costumes, his musicals provided a brief respite for an audience whose reality was hard and bitter. *Buzz: The Life and Art of Busby Berkeley* is a revealing study of the director, drawing from interviews with his colleagues, newspaper and legal records, and Berkeley's own unpublished memoirs to uncover the life of a Hollywood legend renowned for his talent and creativity. Jeffrey Spivak examines how Berkeley's career evolved from creating musical numbers for other directors in films such as *42nd Street* (1933) and *Gold Diggers of 1933* (1933) to directing his own pictures, such as *Strike up the Band* (1940) and *The Gang's All Here* (1943). Though Berkeley claimed he was no choreographer, his movies revitalized the public's waning interest in musical pictures. While other popular filmmakers advertised their works specifically as nonmusical, Berkeley embraced his niche, eventually becoming the premier dance director of his time. However, the happy face Berkeley presented publicly did not necessarily reflect his life. Offstage and away from the set, the director met with scandal, and his fondness for liquor and women was well known. In September 1935, he was involved in a car accident that left three people dead and four others severely injured. Accused of driving under the influence, he was put on trial for second-degree murder. The accident significantly changed the nature of his stardom.

Buzz Katherine Ellison, 2022-12-08 Once a mother and her pre-teen son discover they're both clinically incapable of paying attention, how will they stop bickering and move forward together? A story of love and persistence... Buzz will teach, charm, and bolster you. --Edward Hallowell, MD, author of *Driven to Destruction* When Pulitzer Prize winning investigative reporter Katherine Ellison and her twelve-year-old son, Buzz, were both diagnosed with attention-deficit/hyperactivity disorder, they realized they had more than just an uphill battle ahead-they were facing a cliff. Ellison, inquisitive and driven by nature (even while grappling with the storm of ping-pong balls in her head), hunts down every possible approach to supporting a child with ADHD, from neurofeedback to nutritional supplements. BUZZ will not only make you laugh out loud but also provides insights on every page for parents seeking answers for how to provide the best help for their particular child. What answers does an award-winning journalist track down when the story she's investigating is her own parenting? Read BUZZ today to find out! Long after reading this smart and tender memoir, I am still rooting for Buzz. -Kelly Corrigan, author of *THE MIDDLE PLACE* and *LIFT*

Buzz Thor Hanson, 2018-07-10 As seen on PBS's *American Spring LIVE*, the award-winning author of *The Triumph of Seeds and Feathers* presents a natural and cultural history of bees: the buzzing wee beasties that make the world

go round. Bees are like oxygen: ubiquitous, essential, and, for the most part, unseen. While we might overlook them, they lie at the heart of relationships that bind the human and natural worlds. In *Buzz*, the beloved Thor Hanson takes us on a journey that begins 125 million years ago, when a wasp first dared to feed pollen to its young. From honeybees and bumbles to lesser-known diggers, miners, leafcutters, and masons, bees have long been central to our harvests, our mythologies, and our very existence. They've given us sweetness and light, the beauty of flowers, and as much as a third of the foodstuffs we eat. And, alarmingly, they are at risk of disappearing. As informative and enchanting as the waggle dance of a honeybee, *Buzz* shows us why all bees are wonders to celebrate and protect. Read this book and you'll never overlook them again.

Buzz Eileen Spinelli, 2010-07-06 *Buzz* loves absolutely everything there is about being a bee. She loves her yellow and black jacket. She loves the way the flowers smell in the springtime. But the thing she loves most of all is being able to fly. Through the trees and down around the pond, past the farm and around the rosebushes - she flies everywhere. But when she hears that bees aren't supposed to be able to fly, she finds herself unable to get off the ground. What is little *Buzz* to do? How will she find her wings again?

Buzz! Melvin Berger, 2000 Through fascinating text and fabulous color photos, readers can find the answers to questions about a variety of insects, including flies, bees, butterflies, and caterpillars.

Buzz Lisa Jean Moore, Mary Kosut, 2013-09-27 Winner, 2014 Distinguished Scholarship Award presented by the Animals & Society section of the American Sociological Association Bees are essential for human survival—one-third of all food on American dining tables depends on the labor of bees. Beyond pollination, the very idea of the bee is ubiquitous in our culture: we can feel buzzed; we can create buzz; we have worker bees, drones, and Queen bees; we establish collectives and even have communities that share a hive-mind. In *Buzz*, authors Lisa Jean Moore and Mary Kosut convincingly argue that the power of bees goes beyond the food cycle, bees are our mascots, our models, and, unlike any other insect, are both feared and revered. In this fascinating account, Moore and Kosut travel into the land of urban beekeeping in New York City, where raising bees has become all the rage. We follow them as they

climb up on rooftops, attend beekeeping workshops and honey festivals, and even put on full-body beekeeping suits and open up the hives. In the process, we meet a passionate, dedicated, and eclectic group of urban beekeepers who tend to their brood with an emotional and ecological connection that many find restorative and empowering. Kosut and Moore also interview professional beekeepers and many others who tend to their bees for their all-important production of a food staple: honey. The artisanal food shops that are so popular in Brooklyn are a perfect place to sell not just honey, but all manner of goods: soaps, candles, beeswax, beauty products, and even bee pollen. Buzz also examines media representations of bees, such as children's books, films, and consumer culture, bringing to light the reciprocal way in which the bee and our idea of the bee inform one another. Partly an ethnographic investigation and partly a meditation on the very nature of human/insect relations, Moore and Kosut argue that how we define, visualize, and interact with bees clearly reflects our changing social and ecological landscape, pointing to how we conceive of and create culture, and how, in essence, we create ourselves.

A motivated new teacher raises awareness about screen use inside her Reflective Writing class, but she doesn't realize there's danger lurking. Contemporary communication dramatically impacts the learning environment, identity formation, and charged emotions of high school students in the story. When an intimate act is shared over social media, an inciting incident demonstrates that the potential in our pockets could be lethal. Can Miss Gabby Oliver protect her students? Who survives the traumatic turn of events? Wait for the twist! Get to know the characters. Consider the possibilities. From Chicago and new to California, Gabby considers her life's timing unique-on the cusp of technology's cutting edge, yet reminiscent of a time before the Internet dominated. She dares to date a coworker, their schoolyard romance tested by today's cyber world. Meanwhile, Gabby manages to stay connected with her deceased mother by way of hopeful handwritten letters. Inside Miss Oliver's room, a research assignment looks at language, modes of persuasion, and topical issues from distinct teenage perspectives. Inspired by historic figures, students detail their pressing concerns to the president. This colorful novel, set pre-pandemic, depicts demands upon teachers due to class size, special needs, language barriers, gender sensitivity, gun threats, cell phones, and the challenge of holding students' attention. By providing understanding to those who grew up before and after current trends, this insightful book could build rapport among members from different schools of thought. A variety of people will relate to feelings of digital distraction and modern-day accountability. The story is suited for mature readers ages sixteen and up. Despite the Buzz is educational, existential, and exciting! A mix of narrative elements makes it an engaging read!

Buzz a Buzz Or the Bees Anonymous, 2023-06-14

Buzz Riff Sam Hill, 2020-08-20 'Fast, funny and popping with surprises' Robert Crais Top Keirnan has got problems. The research firm he's been running out of his 30s-era schoolhouse in Athens, Georgia, is beginning to

founder, thanks to his former office manager (and ex-lover), who has stolen half his clients and set up shop on her own. And Top is no longer banking big bucks as an operative for Shaw's Mercantile Marine since they've decided his addiction to the adrenaline buzz is more of a risk than an asset. Things are looking tough for Top, when he gets a call. American Civil War General 'Stonewall' Jackson was shot by his own men while on night patrol. His aide-de-camp reached into the General's saddlebags to find something to press against the wound and pulled out a new flag, the Stars and Bars. Stonewall died, but the Bloody Red Rag, as the flag became known, went on to become the most valuable relic of the war. Now it's been stolen and Top is asked to find it. Normally Top wouldn't touch a job like this: the money's too small, and he's not excited about his arrogant, bigoted client, Professor Jay Pope-Scott. Problem is, Top badly needs those twenty thousand dollars. So he's soon taking on fanatical collectors, ultra-right-wing religious paramilitaries, a biker gang, Fourth Federal Bank and his former lover to save the school and recover the flag. In this sequel to Sam Hill's knockout debut novel, BUZZ MONKEY, the action comes non-stop. The scrapes are daunting, the escapes hair-raising and the outcome stunningly unpredictable.

It was if they were saying, Hi there! Well, what are you gonna do with us now. So as they started buzzing around in my conscious mind and vision, I was thinking about them and all that would follow. I think I laughed a few times about their curious and funny personalities. What a deal! A dad and a son. Mentor and protégé. A buddy and sidekick. For these two, it had just started. The first episode is an introduction to these two learning and well-meaning East Coast house flies. They move to sort of escape the cold winters but still consider themselves East Coasters. But foremost, they are patriots. They love God, family, each other, and their great country. They also enjoy others from various places and seek to travel to new areas that they have maybe only read or heard about. The second book, The Pilot, is coming afterward, with new adventures to follow in the future. There are so many things to check out, from the atom to the universe and everything in between. Don't forget history and the happenings back when all the while going to the library to read some stories. Go back in time by way of the theater of the mind! With a little entertainment and education and bits of knowledge all the way through, these two are on track and are going places together! They are always glad to have their new human friends come along for the ride. Time flies and you're havin' fun.
