**The Battle Rifle** Russell C. Tilstra,2014-03-13 While the 20th century brought many technological advancements to the battlefield, a key weapon of warfare remains the soldier and his rifle. This volume chronicles the historical development of the modern service rifle after World War II and examines its resurgence in Afghanistan after generations of absence following the introduction of the assault rifle. Individual chapters survey the most combat-tested models—including the FN FAL, U.S. M14 and HK 417—in technical detail, emphasizing key points in the evolution of rifle technology and ammunition. Also explored is the development of the current M16 series rifle, and how recent difficulties in Afghanistan have led to an increasing reliance on the venerable M14. Providing a strong knowledge base of the various weapons now in service throughout the world, this instructive work demonstrates that the battle rifle has not outlived its usefulness.

### **Il Cimitero di Guerra di Assisi** Janet Kinrade

Dethick,2018-02-08 Nel Cimitero di Guerra del Regno Unito ed il Commonwealth, locato a Rivotorto, Assisi, risultano sepolti 941 militari conosciuti e quattro sconosciuti; insieme a loro ci sono quattro italiani appartenenti alla no. 1 Special Force d'intelligence britannica. 903 erano soldati e 41 aviatori. Di uno si sa solo che era di nazionalità britannica. Dividendo i morti per nazione, ci sono 802 britannici, 55 sudafricani, 49 canadesi e 29 neozelandesi. 10 appartenevano ai reparti indiani. Solo nove di questi militari morirono il 17 giugno 1944, giorno in cui la città di Assisi fu liberata. Gli altri, secondo il sito ufficiale della CWGC, furono portati ad Assisi 'dai campi di battaglia circostanti'. Questo libro non solo elenca i campi di battaglia, ma fa riferimento agli ospedali da campo ed anche alle altre circostanze in cui alcuni militari incontrarono la morte, fra i quali 17 prigionieri di guerra che morirono in Umbria, Lazio ed Abruzzo prima del passaggio del fronte.
