**Asian Folk Religion and Cultural Interaction** Yoshihiro Nikaidō,2015-10-28 This book uses a cultural interaction approach to discuss numerous temples and shrines of Sinitic origin that house Daoist, Buddhist, and folk gods. Such deities were transmitted outside the Chinese continent, or were introduced from other regions and syncretized. Examples include temple guardian gods that arrived in Japan from China and later became deified as part of the Five Mountain system, and a Daoist deity that transformed into a god in Japan after syncretizing with Myōken Bosatsu. The profoundly different images of Ksitigarbha in China and Japan are discussed, as well as Mt. Jiuhua, the center of Ksitigarbha in modern China. Lastly, the process by which Sinitic gods were transmitted to regions outside of the Chinese continent, such as Taiwan, Singapore, and Okinawa, is explored.

Symbols in Arts, Religion and Culture Farrin Chwalkowski,2016-12-14 We are a product of nature. Every single cell of our body is made of, and depends, on nature. Our inner soul is heavily influenced by nature. We feel sad if the sun is not shining for a few days, and feel pleasure when drawn to the wonder of flowers and uplifted by the song of birds. We came from nature; we are part of nature. In short, we are nature. Nature has been an intimate part of the human experience from the earliest times. Different religions and cultures, from all corners of the world, have honoured and worshipped nature in art, ritual and literature in their own unique ways. This book shows how we learn about our own human nature, our own sense of identity and how we fit into the larger scheme of life and spirit when we come to better understand how our human ancestors, through art, symbol and myth, expressed their relationship with the natural world.

The Tao of Craft Benebell Wen,2016-09-27 For the first time in English, Benebell Wen reveals the rich history and theoretical principles underlying the ancient practice of crafting Fu talismans, or magical sigils, in the Chinese Taoist tradition and gives detailed instructions for modern practitioners who would like to craft their own Fu. Fu talismans are ideograms and writings typically rendered on paper and empowered by means of

invocations, ritual, and transferences of energy, or Qi. Talismans can be used for many purposes, such as strengthening or weakening personality characteristics, finding love, earning more money, or easing emotional tensions in the home. The Tao of Craft shows how metaphysical energy can be harnessed to amplify, strengthen, weaken, dispel, or block other metaphysical energy and to rectify perceived imbalances in the material plane. Supported by an abundance of detailed charts and images, this book serves as a step-by-step handbook that gives readers the knowledge and confidence to craft their own Fu talismans for personal empowerment. Wen, author of *Holistic Tarot*, delves into historic and cultural contexts of the Fu, from the neolithic period of Chinese history to contemporary practices of esoteric Taoism. Providing a solid foundation in the principles of Eastern spellcrafting, she highlights the blending of Taoist metaphysical practices with Western approaches to magic by pointing out eclectic, integrating, and harmonizing facets from other cultures and religions. Historically, Fu talismans were used by medieval Chinese for alleviating illness; averting misfortune, magical attacks, and curses; defending against assaults; and avoiding poverty. This book shows Western practitioners that the skill and knowledge to develop an interactive relationship with spirit realms are still available to them today, and serves as a practical handbook for accumulating Qi energy from sources in the environment and channeling it in concentrated form into their own Fu talismans.

*Gods & Goddesses of Ancient China* Trenton Campbell, 2014-07-15 This authoritative volume examines the two main faiths, Confucianism and Daoism, that developed before China had meaningful contact with the rest of the world. Aspects of Buddhism later joined features of these faiths to form elements of Chinese ideology and, with the beliefs in immortals and the worship of ancestors, they led to a popular religion. The narrative describes the gods and goddesses that dominated China's mythology and folk culture, roughly from the 3rd millennium to 221 BCE, including the Baxian (Eight Immortals), Chang'e (moon goddess), Guandi (god of war), the Men Shen (door spirits), and Pan Gu (first man).

*Quantum Shadows* L. E. Modesitt, Jr., 2020-07-21 Bestselling author of *The Mongrel Mage*, L. E. Modesitt, Jr.'s *Quantum Shadows* blends science fiction, myth, and legend in an adventure that pits old gods and new against one another in a far future world. On a world called Heaven, the ten major religions of mankind each have its own land governed by a capital city and ruled by a Hegemon. That Hegemon may be a god, or a prophet of a god. Smaller religions have their own towns or villages of belief. Corvyn, known as the Shadow of the Raven, contains the collective memory of humanity's Falls from Grace. With this knowledge comes enormous power. When unknown power burns a mysterious black image into the holy place of each House of the Decalivre, Corvyn must discover what entity could possibly have that much power. The stakes are nothing less than another Fall, and if he doesn't stop it, mankind will not rise from the ashes. **The Encyclopedia of Taoism** Fabrizio Pregadio, 2013-05-13 The Encyclopedia of Taoism provides comprehensive coverage of Taoist religion, thought and history, reflecting the current state of Taoist scholarship. Taoist studies have progressed beyond any expectation in recent years. Researchers in a number of languages have investigated topics virtually unknown only a few years previously, while others have surveyed for the first time textual, doctrinal and ritual corpora. The Encyclopedia presents the full gamut of this new research. The work contains approximately 1,750 entries, which fall into the following broad categories: surveys of general topics; schools and traditions; persons; texts; terms; deities; immortals; temples and other sacred sites. Terms are given in their original characters, transliterated and translated. Entries are thoroughly cross-referenced and, in addition, 'see also' listings are given at the foot of many entries. Attached to each entry are references taking the reader to a master bibliography at the end of the work. There is chronology of Taoism and the whole is thoroughly indexed. There is no reference work comparable to the Encyclopedia of Taoism in scope and focus. Authored by an international body of experts, the Encyclopedia will be an essential addition to libraries serving students and scholars in the fields of religious studies, philosophy and religion, and Asian history and culture.

**China's Rise In Mainland Asean: Regional Evidence And Local Responses** Suthiphand Chirathivat, Buddhagarn Rutchatorn, Wasutadon Nakawiroj, 2020-09-28 In today's rapid rise and expansion of China's influence all around the world and in ASEAN during the past two decades, there has been an increasing awareness of various countries and regions adjusting themselves to the new trends, both in terms of opportunities and risks alike. This has become necessary due to the rapid changes in many aspects – political landscapes, economic issues, as well as social and cultural considerations. This book, *China's Rise in Mainland ASEAN: Regional Evidence and Local Responses*, provides timely insights on some of the latest issues pertaining to ASEAN and China, rapidly shifting interactions and upcoming geostrategic

challenges. ASEAN can be said to be undergoing a new era, with China becoming more intertwined and involved with the ASEAN region than ever before. The complexity of the regional dynamics means that this phenomenon cannot be captured with a single narrative or discipline of study. In addressing the matters at hand, this book sets out to examine and provide deeper understandings on the regional implications, and local responses from ASEAN countries, and from the perspective of the region as a whole. The underlying rationale is that adequate understanding on the matters involved in this new ASEAN-China era will help to encourage better and mutually beneficial relationships between both sides. The analysis of this book will be categorized into four main themes – (1) 'The Big Picture', concerning China's policies, strategies, and diplomatic stances, (2) 'Implications and Responses', dealing with how ASEAN members react and respond to China's actions and regional influence, (3) 'Perspectives on Trade, Investment and External Debt', which handles the economic facets of the ASEAN-China interactions, and (4) 'Connectivity in Focus', addressing various emerging and existing dimensions of connectivity expansion between ASEAN and China, both physical and virtual.

**The Market and Temple Fairs of Rural China** Gene Cooper, 2013-02-01 During the early communist period of the 1950s, temple fairs in China were both suppressed and secularized. Temples were closed down by the secular regime and their activities classified as feudal superstition and this process only intensified during the Cultural Revolution when even the surviving secular fairs, devoted exclusively to trade with no religious content of any kind, were suppressed. However, once China embarked on its path of free market reform and openness, secular commodity exchange fairs were again authorized,

and sometimes encouraged in the name of political economy as a means of stimulating rural commodity circulation and commerce. This book reveals how once these secular temple-less temple fairs were in place, they came to serve not only as venues for the proliferation of a great variety of popular cultural performance genres, but also as sites where a revival or recycling of popular religious symbols, already underway in many parts of China, found familiar and fertile ground in which to spread. Taking this shift in the Chinese state's attitudes and policy towards temple fairs as its starting point, *The Market and Temple Fairs of Rural China* shows how state-led economic reforms in the early 1980s created a revival in secular commodity exchange fairs, which were granted both the geographic and metaphoric space to function. In turn, this book presents a comprehensive analysis of the temple fair phenomenon, examining its economic, popular cultural, popular religious and political dimensions and demonstrates the multifaceted significance of the fairs which have played a crucial role in expanding the boundaries of contemporary acceptable popular discourse and expression. Based upon extensive fieldwork, this unique book will be of great interest to students and scholars of Chinese religion, Chinese culture, Chinese history and anthropology.

*A Brief History of the Relationship Between Confucianism, Daoism, and Buddhism* Zhongjian Mou,2023-01-01 Chinese traditions of Confucianism, Daoism, and Buddhism have a profoundly philosophical dimension. The three traditions are frequently referred to as three paths of moral teachings. In this book, Mou provides a clear account of the textual corpus that emerges to define each of these traditions and how this canonical axis was augmented by a continuing commentarial tradition as each generation reauthorized the written

core for their own time and place. In his careful exegesis, Mou lays out the differences between the more religious reading of these traditions with their defining practices that punctuate the human journey through life, and the more intellectual and philosophical treatment of the texts that has and continues to produce a first-order culture of annotation that become integral to the traditions themselves. At the center of the alternative religious experience reflected throughout the teachings of Confucianism, Daoism, and Buddhism is the project of personal cultivation as it comes to be expressed as robust growth in family and communal relations. For Mou, these three highly distinctive and yet complementary ways of thinking and living constitute a kind of moral ecology, wherein each of them complements the others as they stand in service to a different dimension of the human need for an educated spirituality.
