Calaveras Big Trees Carol A. Kramer, 2010 Augustus T. Dowd could scarcely believe his eyes when he stumbled upon one of nature's majestic wonders in 1852. Hunting down a wounded bear in the hills above the mining camp of Murphys, Dowd instead found a tree of mammoth proportions. After initial skepticism about the size of these trees, news of Dowd's discovery quickly spread. Local businessmen soon acquired the grove of 100 mammoth trees, or giant sequoia, and built accommodations for travelers. Thus began one of California's earliest tourist attractions in 1853. Dedicated as a California State Park in 1931, Calaveras Big Trees State Park hosts 250,000 annual visitors who come from around the world to marvel at these wondrous giants in their magnificent natural surroundings.

Funny Bones Duncan Tonatiuh, 2015-08-25 Funny Bones tells the story of how the amusing calaveras—skeletons performing various everyday or festive activities—came to be. They are the creation of Mexican artist José Guadalupe (Lupe) Posada (1852–1913). In a country that was not known for freedom of speech, he first drew political cartoons, much to the amusement of the local population but not the politicians. He continued to draw cartoons throughout much of his life, but he is best known today for his calavera drawings. They have become synonymous with Mexico's Día de los Muertos (Day of the Dead) festival. Juxtaposing his own art with that of Lupe's, author Duncan Tonatiuh brings to light the remarkable life and work of a man whose art is beloved by many but whose name has remained in obscurity. The book includes an author's note, bibliography, glossary, and index.

Northern Calaveras County Judith Marvin, Julia Costello, Salvatore Manna, 2007 Northern Calaveras County stretches eastward from the valley towns of Wallace and Jenny Lind, through the Campo Seco and Mokelumne Hill gold country, to the county seat in San Andreas and finally extends to the upcountry mining camps and logging settlements of West Point and Railroad Flat. Historically water and trails connected these diverse regions. The Mokelumne River and its tributaries--diverted into flumes and ditches--brought water to the river bars, mines, ranches, settlements, and towns and provided their lifeblood. Trails first followed Native American paths and then developed into stage roads, railroads, and state highways. These routes connected the valley to the mountains and carried pioneers seeking gold, water, timber, fertile land, and recreation to new lands and new lives.

Encyclopedia of Latino Culture [3 volumes] Charles M. Tatum, 2013-11-26 This three-volume encyclopedia describes and explains the variety and commonalities in Latina/o culture, providing comprehensive coverage of a variety of Latina/o cultural forms—popular culture, folk culture, rites of passages, and many other forms of shared expression. In the last decade, the Latina/o population has established itself as the fastest growing ethnic

group within the United States, and constitutes one of the largest minority groups in the nation. While the different Latina/o groups do have cultural commonalities, there are also many differences among them. This important work examines the historical, regional, and ethnic/racial diversity within specific traditions in rich detail, providing an accurate and comprehensive treatment of what constitutes the Latino experience in America. The entries in this three-volume set provide accessible, in-depth information on a wide range of topics, covering cultural traditions including food; art, film, music, and literature; secular and religious celebrations; and religious beliefs and practices. Readers will gain an appreciation for the historical, regional, and ethnic/racial diversity within specific Latina/o traditions. Accompanying sidebars and spotlight biographies serve to highlight specific cultural differences and key individuals.

Calaveras Gold Ronald H. Limbaugh, Willard P. Fuller, 2003-10-01 California's Calaveras County—made famous by Mark Twain and his celebrated Jumping Frog—is the focus of this comprehensive study of Mother Lode mining. Most histories of the California Mother Lode have focused on the mines around the American and Yuba Rivers. However, the “Southern Mines”—those centered around Calaveras County in the central Sierra—were also important in the development of California's mineral wealth. Calaveras Gold offers a detailed and meticulously researched history of mining and its economic impact in this region from the first discoveries in the 1840s until the present. Mining in Calaveras County covered the full spectrum of technology from the earliest placer efforts through drift and hydraulic mining to advanced hard-rock industrial mining. Subsidiary industries such as agriculture, transportation, lumbering, and water supply, as well as a complex social and political structure, developed around the mines. The authors examine the roles of race, gender, and class in this frontier society; the generation and distribution of capital; and the impact of the mines on the development of political and cultural institutions. They also look at the impact of mining on the Native American population, the realities of day-to-day life in the mining camps, the development of agriculture and commerce, the occurrence of crime and violence, and the cosmopolitan nature of the population. Calaveras County mining continued well into the twentieth century, and the authors examine the ways that mining practices changed as the ores were depleted and how the communities evolved from mining camps into permanent towns with new economic foundations and directions. Mining is no longer the basis of Calaveras's economy, but memories of the great days of the Mother Lode still attract tourists who bring a new form of wealth to the region.

Mining Resources of Calaveras County, California Mark Brickell Kerr, 1898

Brown of Calaveras Bret Harte, 2013-02-14 A subdued tone of conversation, and the absence of cigar smoke and boot heels at the windows of the Wingdam stagecoach, made it evident that one of the inside passengers was a woman. A disposition on the part of loungers at the stations to congregate before the window, and some concern in regard to the appearance of coats, hats, and collars, further indicated that she was lovely. All of which Mr. Jack Hamlin, on the box seat, noted with the smile of cynical philosophy. Not that he depreciated the sex, but that he recognized therein a deceitful element, the pursuit of which sometimes drew mankind away from the equally uncertain blandishments of poker—of which it may be remarked that Mr. Hamlin was a professional exponent.

The Notorious Jumping Frog of Calaveras County Mark Twain, 2014-06-05 The Notorious Jumping Frog of Calaveras County: Illustrated by Mark Twain. Mark Twain aka Samuel L Clemens (1835-1910) was an American author and humorist. Written in 1865, this short story by Mark Twain was an overnight success and reprinted all over the country. In fact, this is the piece of writing that launched Mark Twain into fame. The Notorious Jumping Frog focuses on a narrator from the East suffering through a Western man's tall tale about a jumping frog. In it, the narrator retells a story he heard from a bartender, Simon Wheeler, at the Angels Hotel in Angels Camp, California, about the gambler Jim Smiley. Twain describes him: If he even seen a straddle bug start to go anywheres, he would bet you how long it would take him to get to wherever he going to, and if you took him up, he would foller that straddle bug to Mexico but what he would find out where he was bound for and how long he was on the road.

The Extraordinary Pufffish of Calaveras County Joel Schwartz, 2008-12-18 When Jeremy McGinnis, a 15-year-old in the sleepy Gold Rush town of Murphys, discovers a retired teacher spasming with an asthma attack and out of medicine, it's a no-brainer to get him to the hospital. But the local media suddenly turns Jeremy into a hero, his second fifteen minutes of fame. As he gets to know the teacher, Lester Crump, a man who has invested his life savings in three breeding Vietnamese miniature potbellied pigs and a trailer, he raises Andy Warhol's comment into an intense and engaging study of personal integrity. Outside of town Eliza Hewlie, a 65-year-old widow brokering the sale of an abandoned gold mine just upstream from Lester, has to contend with the threat of the deal contaminating the town's groundwater. As Jeremy and Lester design a project which becomes a huge environmental scavenger hunt, involving dozens of high school students and half their parents, the tale of a town galvanized into action is told in alternating chapters by Jeremy and Eliza. In parallel coming-of-age stories, both begin feeling frustrated and trapped at the opening of the story but free and in control of their lives at the end for the first time. *****THE EXECUTION IS THOROUGHLY ENTERTAINING. People are never what they are made out to be. 'The Extraordinary Pufffish of Calaveras County' is a story with two unique view points. One follows Jeremy McGinnis, a fifteen-year-old whose reputation is overblown as a hero when he helps an old man suffering from an asthma attack. The other follows Eliza Hewlie, a sixty-five-year-old faced with a decision that could wreak havoc on the town's environment. 'The Extraordinary Pufffish of Calaveras County' seems unusual in set up, but the execution is thoroughly entertaining, leading it to a recommendation. Midwest Book Review, Oregon, WI
