**Calendar and Community** Sacha Stern,Schaller Senior Lecturer Sacha Stern,2001-10-04 Calendar and Community traces the development of the Jewish calendar from its origins until it reached, in the tenth century CE, its present form. Drawing on a wide range of often neglected sources - literary, documentary, epigraphic, Jewish, Graeco-Roman and Christian - it is the first comprehensive work to have been written on the subject.It will be useful not only to historians and epigraphists for the interpretation of early Jewish datings, but also as a historical study of early Judaism in its own right. Its main theme is that the Jewish calendar evolved in the course of this period from considerable diversity (with a variety of solar and lunar calendars) to unity (with the normative rabbinic calendar). The unification of the calendar was one element in the unification of Jewish identity in later antiquity and the earlymedieval world.

Calendars and Years John M. Steele,2007-10-08 Dates form the backbone of written history. But where do these dates come from? Many different calendars were used in the ancient world. Some of these calendars were based upon observations or calculations of regular astronomical phenomena, such as the first sighting of the new moon crescent that defined the beginning of the month in many calendars, while others incorporated schematic simplifications of these phenomena, such as the 360-day year used in early Mesopotamian administrative practices in order to simplify accounting procedures. Historians frequently use handbooks and tables for converting dates in ancient calendars into the familiar BC/AD calendar that we use today. But very few historians understand how these tables have come about, or what assumptions have been made in their construction. The seven papers in this volume provide an answer to the question what do we know about the operation of calendars in the ancient world, and just as importantly how do we know it?

Topics covered include the ancient and modern history of the Egyptian 365-day calendar, astronomical and administrative calendars in ancient Mesopotamia, and the development of astronomical calendars in ancient Greece. This book will be of interest to ancient historians, historians of science, astronomers who use early astronomical records, and anyone with an interest in calendars and their development.

The Story of Clocks and Calendars Betsy Maestro, 2004-11-02 Travel through time with the maestros as they explore the amazing history of timekeeping! Did you know that there is more than one calendar? While the most commonly used calendar was on the year 2000, the Jewish calendar said it was the year 5760, while the Muslim calendar said 1420 and the Chinese calendar said 4698. Why do these differences exist? How did ancient civilizations keep track of time? When and how were clocks first invented? Find answers to all these questions and more in this incredible trip through history.

Elements of the Jewish and Muhammadan Calendars Sherrard Beaumont Burnaby,2015-06-15 Excerpt from Elements of the Jewish and Muhammadan Calendars: With Rules and Tables and Explanatory Notes on the Julian and Gregorian Calendars The following treatises on the Jewish and Muhammadan

Calendars were not originally intended for separate publication. They were first written as part of a more comprehensive book containing an account of other Calendars and Eras to which reference was frequently made. When, through the kindness of friends among my parishioners at Hampstead, I found it possible to publish this portion of the work, I gladly availed myself of the opportunity, and rearranged the MS. in such a manner that it assumed its present form. This, I thought, rendered it necessary to add some brief explanatory notes on the Julian and Gregorian Calendars, such as might take the place of references made to Articles in the larger work. A work of this kind must, of necessity, partake more or less of the nature of a compilation. Without claim to originality, I have endeavoured to bring to a focus materials gleaned from many various sources, as indicated by the list of books which I have consulted. There will, consequently, be found herein little, perhaps, which may not be read elsewhere; but many of the books and pamphlets which have been written on these Calendars are not easily accessible to the general reader, and in many, though rules are given and legal enactments respecting them are stated, the reasons for these rules and enactments are not fully and clearly described. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
