Maggie the One-Eyed Peregrine Falcon Christie Gove-Berg,2016-04-04 Maggie has just learned to fly when she crashes into the side of a building. She falls to the ground, alone and injured. Who will help her? As told with real photographs, this true story explains how wildlife hospitals rescue and treat injured animals. Their goal is to release the animals back into the wild. Sometimes, this isn't possible--but there can still be a happy ending. Maggie's story, written by Christie Gove-Berg, is just such a success!

Maggie's Man Bella Settarra,2016-11-15 Looks can be deceptive—but a deceitful ex with a grudge can be downright dangerous. Maggie Welch lives in a crummy apartment while working in a run-down café in Bracken Ridge, Cavern County. Her days have recently been brightened by the handsome cowboy who has started to frequent her workplace. Unfortunately, Aiden Fielding, the wealthy rancher, can't be anything more than a friend, though, as her demise in social standing has robbed her of the confidence and money she once had. Aiden Fielding is smitten with Maggie and enjoys her company at the café, which has recently become his regular haunt. When he finally plucks up the courage to ask her out, they have a wonderful evening. He suspects there is more to Maggie Welch than meets the eye. A crass remark, however, seems to ruin their chances of a future together, and a later attempt to help Maggie ends in disaster when she is humiliated in front of his family and dinner-party guests. Just when things had seemed to be looking up for Maggie, it has all come crashing down again. She realizes that Aiden doesn't see her in the way she had hoped, and when she finds him entertaining her ex-fiancé, Robert Rossington, she feels that he is certainly not the gentleman she had perceived. She knows that Rossington is a cheat and a thief. The trouble is...that's only the half of it.

Greenies Girl Devon St Johns,2012-08-01 GREENIES are a secret shared by Cathy and her Father. Certainly not shared by her hidebound, exacting and domineering Mother. Cathy's personal journey in the tough, demanding male dominated industrial scene in the Detroit area to full, satisfying and comfortable adulthood plus her attraction to big Sam Carew will keep the reader's attention as will scene shifts from a Florida beach to Detroit to Northern Michigan ski hills. Also compelling are the intertwined stories of widowed Maggie and Shortstuff, the best rock and roller around.Cathy, Sam, Maggie, Pete, Shortstuff and snothead B.

Complementary and Alternative Medicine Paul Quinn,2023-12-14 Explore the many forms of complementary and alternative medicine (CAM) practiced today and discover their histories, guiding principles, purported benefits, and potential risks. Part of Bloomsbury's Q&A Health Guides series, this book examines a wide variety of forms of CAM popular in the 21st century. The volume's 48 questions begin with 10 that address foundational topics such as who uses CAM, how CAM has been studied and regulated, and how to gauge a particular treatment's safety and efficacy for yourself. The remaining 38

questions cover alternative medical systems and complementary treatments, including mind-body interventions, biologically based therapies, manipulation- and body-based methods, and energy therapies. Each answer utilizes a standardized format that examines a treatment's history, how it's practiced, the scientific community's view, potential benefits and risks, and special considerations. The text takes an unbiased approach, balancing respect for individuals' beliefs with the rigor of modern science. Augmenting the main text, a collection of 5 case studies illustrate key concepts and issues through relatable stories and insightful recommendations. The Common Misconceptions section at the beginning of the volume dispels 5 long-standing myths about CAM, directing readers to additional information in the text. The Glossary defines terms that may be unfamiliar to readers, while the Directory of Resources curates a list of the most useful books, websites, and other materials. Finally, whether they're looking for more information about this subject or any other health-related topic, readers can turn to the Guide to Health Literacy section for practical tools and strategies for finding, evaluating, and using credible sources of health information both on and off the Internet.

"Deaf Maggie Lee Sayre" Maggie Lee Sayre,1995 Maggie Lee Sayre was born deaf near Paducah, Kentucky, in 1920. She lived 51 years of her life on a river houseboat as her family made a living fishing throughout Kentucky and Tennessee. Colton Larry Sheffield,2004-07-08 Take a train to Southern California, and you'll pass through Colton. Once the home of Gabrielino and Serrano Indians, Colton is now known as the Hub City, the only place in the United States where the Union Pacific and the Burlington, Northern & Santa Fe railroads cross. Westward-bound rail passengers travel through the horseshoe-shaped valley along the same trails that served Spanish explorers journeying from Mexico to Monterey in the 1770s. The valley's early settlers made use of the rich soil and ready transportation, cultivating fruit trees and shipping their harvest north and east. Legendary figures have also roamed Colton's streets, including the famous Tombstone gunslingers Wyatt Earp and his brother Virgil, who was Colton's first marshal, and their father, Nicholas, who served as a justice of the peace and city recorder. Over the 150 years of the community's history, many have passed through Colton, and all have left their mark on this classically Californian town.

DEVASTATION POINT Paul R. Kirk,2015-05-19 **DEVASTATION POINT** What would you do if you were stranded halfway around the world when it crumbled? The world collapsed after the spread of the hyper-aggressive H5N1 Avian plague and several airborne mutations. By simply breathing the air, billions upon billions around the world died in less than a few months' time. Soon after, technology and infrastructure disintegrated. Electricity is gone; there are no cell phones, Internet, television or much else. Humanity lies in waste, disease and ruin. Among the remaining survivors, one very rare gene in the human DNA surfaced as resistant to the onslaught. Stuck in the remote mining town of Mudgee, Australia, Airborne Special Forces Colonel Connor MacMillen survives the dark and dangerous times. Motivated by family, he intends to get home to Pittsburgh, Pennsylvania--or rather, the Fayette Mountains south of Pittsburgh. He has unfinished business to attend to there. After four impossible years traveling in a post-apocalyptic world, Connor Mac lands in San Francisco and commences the last leg of his journey across the continental United States. **DEVASTATION POINT** begins Connor Mac's exploits in the fifth year of the New Dark Ages as he encounters a strange and changed America turned upside down by the Cuckoo Flu. Encountering new friends as well as making fierce enemies along the way, his personal journey reveals a furious and confident fight for life. But, unbeknownst to Connor Mac, his journey to get home is noticed by those still in power in America; and they're looking for him. It seems he is decidedly different than most men left standing. While all living men are infertile, he is still able to reproduce. And, that changes everything. **DEVASTATION POINT** takes a comprehensive look at how one man, trained by America's best, would respond to a world completely altered by the pandemic destruction. To Connor Mac, family connections are critical and returning home can be a prime motivator for one last and final mission. "**DEVASTATION POINT** stands head and shoulders over the pulp that permeates the post-apocalyptic genre." A full and complete first novel of over 250,000 words, aficionados of the post-apocalyptic genre will fully enjoy reading this. This is an exploration of what it might take to smartly survive the apocalypse and still retain the higher elements of what it means to be human. Sorry, but there are no Zombies."
