Piranesi's Candelabra and the Presence of the Past Caroline van Eck,2023-01-17 Near the end of his life, Giovanni Battista Piranesi (1720-78) created three colossal candelabra mainly from fragments of sculpture excavated near the Villa Hadriana in Tivoli, two of which are now in the Ashmolean Museum, and one in the Louvre. Although they were among the most sought-after and prestigious of his works, and fetched enormous prices during Piranesi's life, they suffered a steep decline in appreciation from the 1820s onwards, and even today they are among the least studied of his works. Piranesi's Candelabra and the Presence of the Past uncovers the intense investment, by artists, patrons, collectors, and the public around the start of the nineteenth century in objects that made Graeco-Roman Antiquity present again. Caroline van Eck's study examines how objects make their makers or viewers feel that they are again in the presence of Antiquity, that not only Antiquity has revived, but that classical statues become alive under their gaze. what it takes to make such objects, and what it costs to own them; and about the ramifications of such intense if not excessive attachments to artefacts. This book considers the three candelabra in depth, providing the biography of these objects, from the excavation of the Roman fragments to their entry into private and public collection. Van Eck considers the context that Piranesi gave them by including them in his *Vasi, Candelabri e Cippi* (1778), to rethink the processes that led to the development of neoclassicism from the perspective of the objects and objectsapes that came into being in Rome at the end of the eighteenth century.

Like most goats, Jayna, Bumsie, and Pep's greatest fear is being eaten for dinner by the legendary chupacabra—it's common knowledge that goats are a chupacabra's favorite food! One night, tired of living in fear, the impetuous goats whip out their trusty candelabra and head off to find the beast and scare it away before it can find them. Little do they know that candelabras are the chupacabra's third-favorite food . . . and he isn't about to stop there. This chupacabra has quite the appetite, and the goats are in for a big surprise!

**Candelabra** David Ajluni,2023-05-14 The year is 1981. 21-year-old Kevin Foster is listless. He still lives at home and is housesitting while his parents are on a business trip. He is also hopelessly in love with his neighbor and former classmate Marlene. As he checks the attic for rats one day, he finds a pewter candle holder, and things quickly get weird. He starts catching glimpses of a hooded figure around the house and begins having terrible and very detailed death dreams. Enlisting the help of Marlene, the two work together in an attempt to solve the mystery behind the haunted candelabra. But the more they learn, the less prepared they realize they are. Before long, things take a very dark turn and Kevin and Marlene find themselves in the path of a sadistic witch, hell-bent on making them suffer.

Behind the candelabra ,2013 Before Elvis, before Elton John, Madonna and Lady Gaga, there was Liberace: virtuoso pianist, outrageous entertainer and flamboyant star of stage and television. A name synonymous with showmanship, extravagance and candelabras, he was a world-renowned performer with a flair that endeared him to his audiences and created a loyal fan base spanning his 40 year career. Liberace lived lavishly and embraced a lifestyle of excess both on and off stage. In summer 1977, handsome young stranger Scott Thorson walked into his dressing room and, despite their age difference and seemingly different worlds, the two embarked on a secretive five-year love affair. -- Container. | Performed by Michael Douglas, Matt Damon, Dan Ackroyd, Scott Bakula, Rob Lowe, Debbie Reynolds. | Casting by Carmen Cuba; Costume designer Ellen Mirojnick; Music supervisor Evyen J.
