The Dreamcast Encyclopedia Chris Scullion, 2023-11-30 The Dreamcast Encyclopedia is the fifth book in Scottish author and games journalist Chris Scullion's critically-acclaimed series of video game encyclopedias. The Sega Dreamcast is fondly remembered by players as a games console that was ahead of its time, almost to a fault. Its incredible graphics offered a level of detail that hadn't been seen on home systems to that point, and its built-in modem brought online multiplayer to many console players for the first time ever. Ultimately though, the release of the PS2 (and later the GameCube and Xbox) led to struggling sales and Sega would eventually pull the plug on the Dreamcast just two years into its life, bowing out of the console manufacturing business altogether. On paper the Dreamcast was a commercial failure, but those who owned one remember it so fondly that for many it remains one of the greatest games consoles of all time, with a small but well-formed library of high-quality games. This book contains every one of those games, including not only the entire western library of around 270 titles, but also the 340 or so games that were exclusively released in Japan. With over 600 games covered in total, screenshots for every title and a light-hearted writing style designed for an entertaining read, The Dreamcast Encyclopedia is the definitive guide to one of the most underrated gaming systems of all time.

J.W. Waterhouse and the Magic of Color Dani Cavallaro, 2017-02-19 English painter John William Waterhouse (1849–1917) communicates his aesthetic vision through his use of color. Throughout his career, he experimented with color as an element with seemingly spatial qualities. His works have an unusual formalism—figures and settings often appear not merely realistic but somewhat hyperreal. Yet paradoxically Waterhouse's works border on the abstract, prioritizing chromatic features over content. They invite us to focus on colors—and through them line, shape, texture and rhythm—in much the same way as works by Kandinsky, Klee, Matisse or Pollock.

Goya Victor I. Stoichita, 2000-01-01 This intriguing book on Goya concentrates on the closing years of the eighteenth century as a neglected milestone in his life. Goya waited until 1799 to publish his celebrated series of drawings, the *Caprichos*, which offered a personal vision of the world turned upside down. Victor I. Stoichita and Anna Maria Coderch consider how themes of Revolution and Carnival (both seen as inversions of the established order) were obsessions in Spanish culture in this period, and make provocative connections between the close of the 1700s and the end of the Millennium. Particular emphasis is placed on the artist's links to the underground tradition of the grotesque, the ugly and the violent. Goya's drawings, considered as a personal and secret laboratory, are foregrounded in a study that also reinterprets his paintings and engravings in the cultural context of his time.

Gauguin's 'nirvana' Paul Gauguin, Wadsworth Atheneum Staff, Stephen H. Kornhauser, Wadsworth Atheneum Museum of Art, Wadsworth Atheneum, 2001-01-01
 Shortly before Gauguin made his first Tahitian journey in 1891, he spent nearly two years in the remote Breton fishing village of Le Pouldu. Seeking creative isolation in a primitive setting, he pursued his art accompanied by several followers. One of them was the Dutch painter Meyer de Haan, who was able to pay the living expenses in Le Pouldu and was also knowledgeable in literary and philosophical matters that fascinated Gauguin. Their association resulted in some of Gauguin's most remarkable works, including the Wadsworth Atheneum's symbolist portrait of de Haan inscribed Nirvana. This and the rich variety of paintings and sculpture by Gauguin produced in 1889-90 are the focus of this beautiful book. Gauguin and de Haan settled into an inn at Le Pouldu run by an attractive unwed mother named Marie Henry, who began a liaison with de Haan despite the fact that he was a sickly hunchback. The intensity of relations between Gauguin and de Haan is reflected in many of the works, including frescoes, which they installed in the inn. Gauguin's time in Le Pouldu was crucial to the advancement of his art, and the vivid Breton subjects and personality of Meyer de Haan remained in his imagination to reappear even during his later Tahitian period. In this book several distinguished experts draw on previously unavailable sources to examine in depth the history of this period, Gauguin's relationship with de Haan, their interest in religion and exotic cultures, and the meaning of the many innovative symbolist works they produced.

Caspar David Friedrich Norbert Wolf, 2003 This book is about the paintings of Caspar David Friedrich.

J.M.W. Turner and the Subject of History Leo Costello, 2017-07-05 J.M.W. Turner and the Subject of History is an in-depth consideration of the artist's complex response to the challenge of creating history paintings in the early nineteenth century. Structured around the linked themes of making and unmaking, of creation and destruction, this book examines how Turner's history paintings reveal changing notions of individual and collective identity at a time when the British Empire was simultaneously developing and fragmenting. Turner similarly emerges as a conflicted subject, one whose artistic modernism emerged out of a desire to both continue and exceed his eighteenth-century aesthetic background by responding to the altered political and historical circumstances of the nineteenth century.

Pierre Puvis de Chavannes Aimée Brown Price, 2010 An artist of pivotal importance to the generation of post-Impressionists from Seurat and Gauguin to Matisse and Picasso, Pierre Puvis de Chavannes (1824 - 1898) played a crucial role in the history of late-19th-century French art and the development of modernism. He was an artist of great range, originality, and idiosyncratic invention who executed mural complexes, compelling easel paintings, and numerous works on paper. These two companion volumes--a critical study of the artist's life and art, and a catalogue raisonné of his paintings--introduce many of Puvis's works for the first time, assess his contribution, and restore him to the pantheon of modern masters. Volume I situates Puvis and his work in his time. With a wealth of new documentation, it addresses the theories, forces, and events that impinged on his art. Volume II is a complete compendium of Puvis's easel paintings and mural cycles for civic buildings throughout France as well as for the Boston Public Library.

Baltic Light Catherine Johnston, Helmut Borsch-Supan, Helmut R. Leppien, National Gallery of Canada, Kasper Monrad, 1999-01-01 During the first half of the nineteenth century, Danish and German artists studying in Paris and Rome brought back the concept of plein air painting and began to paint out-of-doors on their native soil. They introduced a whole new aesthetic that was sensitive to the light and atmospheric conditions peculiar to the north, especially during the long summer days. This beautiful book focuses on the painters and paintings of this period, particularly Caspar David Friedrich, who produced many fine works before he developed the romantic style for which he is better known. The book presents topographical landscapes, panoramas, and some group and individual portraits that often include a window from which light emanates. Essays by eminent authorities discuss various aspects of the Danish and North German open air movement. They note, for example, that the paintings reflect a direct view of nature devoid of the intellectual and moral overtones of the neoclassical paintings that preceded them. They also discuss the fact that Schleswig Holstein was closely allied with Denmark until 1848, and this favored many Hamburg and north German artists studying at the Academy in Copenhagen where painting out of doors was encouraged. In addition to the essays, the book presents 108 works by twenty-three artists, catalogue entries for each work, and a biography of each artist.

Portrait in Sepia Isabel Allende, 2014-03-25 A sequel to *Daughter of Fortune*, New York Times bestselling author, Isabel Allende, continues her magic with this spellbinding family saga set against war and economic hardship. Aurora del Valle suffers a brutal trauma that erases from her mind all recollection of the first five years of her life. Raised by her ambitious grandmother, the regal and commanding Paulina del Valle, she grows up in a privileged environment, free of the limitations that circumscribe the lives of women at that time, but tormented by horrible nightmares. When she is forced to recognize her betrayal at the hands of the man she loves, and to cope with the resulting solitude, she decides to explore the mystery of her past. *Portrait in Sepia* is an extraordinary achievement: richly detailed, epic in scope, intimate in its probing of human character, and thrilling in the way it illuminates the complexity of family ties.

From Gainsborough to Constable, 1991 This is the catalogue to the exhibition held in summer 1991 at Gainsborough House, Sudbury, focusing on Constable and the artists whose work was important to him in his formative years - Gainsborough, Wilson, Beaumont and Farington. This exhibition complements the 1991 Tate Gallery exhibition which omits Constable's early work.
