The Dealer Jim Ciardella,2022-07-15 When Ferrari of Los Gatos opened, few people could afford an expensive sports car. In 1976, the average annual income was \$12,686, and a new home cost about \$48,000. Motorists in California could only buy gas on odd or even-numbered days based on the last digit of their license plate, due to the global oil crisis. Times were tough, and people were hesitant to take chances, especially with a car that cost more than a house. At the same time, Brian Burnett and his friend Richard Rivoir had the idea of starting a Ferrari dealership. The Dealer is the story of how one dealership, Ferrari of Los Gatos, fueled the rise of the iconic Italian sports car in the U.S. market on its way to becoming the number one Ferrari dealer in North America. Even Enzo Ferrari himself took notice, flying Brian and the other dealers to Italy to show his appreciation for their success. Customers included movie stars, sports celebrities, entertainers, and some with unusual sources of income and a strong desire for a low profile. Along the way, Burnett made friends, enemies, and millions of dollars, only to lose everything in the blink of an eye. Author Jim Ciardella shows readers a part of Ferrari that no one has even seen, with behind-the-scenes stories as told to him by Richard Rivoir and Brian Burnett, their customers and employees, and other North American dealers who all rode high and eventually burned out on selling fast cars.

DEALING | the Incredible Journey of an African American Car Dealer Kevin Anderson,2020-05-30 This book takes you on my journey of becoming a car dealer. It offers a bird's-eye view of the automobile industry. It evaluates the conditions under which I and many other Black car dealers operate in order to determine why so many of us failed. In 2005 there were 751 new car franchise-rooftops¹ owned by African Americans. As of December 2017, that number declined drastically to 270, out of a total of 19,284 American new car franchise-rooftops. In 2005, black car dealers accumulated billions of dollars in wealth; unfortunately, they lost most of it when the recession ended in 2009. Yet African Americans continue to purchase new cars in record numbers. African Americans purchased 1,105,931 new cars in 2015, with gross revenue of \$35,357,792,000, most of which went to white car dealers. With an annual growth rate of 9.4%, it's estimated that African Americans will purchase over 1.5 Million New Cars in 2020, with gross revenue surpassing \$50 Billion!With African Americans owning only 1.4% of car dealerships nationwide, can we afford to give \$50 Billion dollars of our hard-earned income every freaking year to folks who don't look like us? \$50 Billion dollars circulating within the African American community can go a long way and will do wonders for African Americans! It will create jobs with fair incomes and will allow Blacks to purchase houses that appreciate in value instead of simply buying cars that depreciate. Ultimately, it will allow Blacks to build wealth. After all, it's our damn money! In September of 1992, at the age of 36, after a 10-year career as a Business Consultant for Ford Motor Company and a Ford Dealer Trainee, I joined the ranks of the Black car dealers in America and became the proud owner of a Lincoln Mercury franchise in St. Louis, Missouri. Five years later, like the majority of Black car dealers, I lost my franchise.Dealing chronicles the emotional highs and lows I experienced both before and after becoming a Black car dealer.

Like I See It Dale Pollak,2017-10-17 Simply Selling More Cars Won't Be Enough: Revolutionizing the Retail Automotive Industry Dale Pollak believes that the car business—and the dealers who make their living in it—are in more trouble than anyone cares to admit. After four decades and three best-selling books, Pollak has witnessed the trials and triumphs of the retail automotive industry from a vantage point that few get. While car dealers are making good money, he warns that the industry is at a critical turning point, with too few paying attention to how inefficiency and lack of transparency are sapping the industry's true potential. Amid the ever-faster confluence of technology, the Internet, and changing consumer preferences, the future prosperity of the industry is far from secure. Like I See It offers practical solutions, such as making the sales process more customer-focused and digitally driven to encourage sales, managing new and used inventory to mitigate margin compression, and ending factory bonus checks. It spurs much-needed conversations and sets guideposts that help dealers, OEMs, and solution providers improve how they do business. It also shows dealers how to stay relevant, evolve to keep up with the changing times, and deal with issues like high personnel turnover and the coming disruption of ride-sharing, self-driving cars, and Millennials who don't want (or can't afford) to own a car. Pollak believes that success will come to dealers who recognize that each customer engagement is a chance to make a positive impact and create a bond. He offers a collectively minded approach that will help build a better, more profitable, and prosperous retail automotive industry for tomorrow.

True Confessions of a Car Dealer Bob Aldons,2017-01-01

This popular, definitive guide teaches you how to enter the process informed, empowered, and in charge: Negotiate with confidence, whether you're buying or leasing Establish the right target price for any new vehicle Discover the real dealer cost, so you'll know whether the deal is a good or bad one before you agree to it Negotiate successfully by phone or fax, without entering the showroom--a sure-fire technique Determine the true wholesale value of your trade-in, so you get the most for it You'll also learn how to evaluate your financing options and obtain dealer invoice prices and information on factory-to-dealer incentives. And it's the only comprehensive car buyer's and leaser's guide to help you fight dealers' price discrimination against women and minorities. How to Buy a Car James R. Ross,2001-11-19 A comprehensive guide to car buying covers negotiating the price, computing dealer cost, depreciation value, and trade-in value; common sales tactics; inspection lists for used cars; financing; fuel efficiency; and other matters.

Effective Car Dealer Max Zanan,2020-07-13 This is my fourth book on the auto industry, and I have written it because this business is complicated, sophisticated, and ever-changing. Automotive retail is changing slowly, and one of the main reasons for that are the franchise laws. I want to urge you to operate as though franchise laws don't exist to protect you. Carvana is not going anywhere and neither is Amazon. At some point they will join forces. Also, OEM's such as Tesla, Rivian, and many more are going to go directly to the consumer, bypassing the dealer network altogether. At the end of the day, awesome customer service, whether in sales, service, or parts, will keep your customers coming back for more. Poor service and a cumbersome sales experience will drive them elsewhere-Carvana, CarMax, Tesla, Jiffy Lube, Firestone, Good Year, Valvoline, NAPA Parts, Pep Boys, etc.COVID-19 is already having a profound effect on consumer behavior and the way in which we buy and service cars. I predict that there will be two types of dealers after this pandemic abates-the first will change their business operations, adopting frictionless digital and showroom retail; the second will hope that things go back to normal and that nothing needs to change. Unfortunately, the second type of dealer will be out of business. It is ultimately your choice whether to accept change. Consumers will continue to purchase cars. The only question is: Will they will be buying from you?
