3d Paper Model Munster Koach Two Two Suns,2017-07-05 Classic television of the 60s gave us a number of TV shows where cars were a central or major supporting element. Two of the most famous and well known were from the situation comedy. The Munsters the Munster Coach and Dragula. The Munster Coach was the family vehicle, carrying the family on their trips. Where did they go? All the same places any normal family would, and probably a few more (tar pits, bat caves, graveyards, ghost towns). Of course Herman also used it to get to his job at the local funeral parlor; euphemistically referred to as the parlor. We suggest you collect a copy of the Munsters Koach. All you need is to cut out the details from the paper and glue them according to the instructions. Attention! The kit does not include glue and scissors!
