**Lost Eight** Liam Young,2021-07-31 Winter has come to Freylar, concealing the presence of an ancient evil now released from its shackles. This unseen force seeks a way back to its homeland. To realise its goal, it must first pass through the Ardent Gate, diligently defended by its venerable custodians, the secretive Order of the Knights Thranis. Investigating the mysterious disappearance of her lover, Knight Anika tenaciously pursues Xenia, the young Knight's zeal steering her course beyond the southern lands, unwittingly following the path of malevolence. A distraught mother desperately searches the vale for her missing daughter. Tormented by recent events, Nathanar – newly appointed Captain of The Blades – undertakes a quest to locate and bring back the missing Freylarkin. Aided by the powerful scribe Darlia, a repentant exile working to earn the acceptance of her kin, Nathanar's investigation takes him beyond the vale, to the Ardent Gate. Reunited with his former charge, their paths intertwined, both he and Anika learn of the shadow infiltrating the Knights' ranks. Accompanied by a pair of reluctant Knights, the unlikely group travel through the Ardent Gate into a new domain, far from the relatively safety of Freylar, in search of answers. Can they work together to discern the cause of the recent disappearances and uncover the mysteries trapping them in their new world?

**Citadel of Demons (Kormak Book Eleven)** William King,

*Jack Four* Neal Asher,2021-06-10 This high-octane adventure is set in the same world as Neal Asher's acclaimed Polity universe. It's a thrilling, fast-paced standalone novel, perfect for fans of Alastair Reynolds and Stephen Baxter. Created to die–determined to live . . . Jack Four—one of twenty human clones—has been created to be sold. His purchasers are the alien prador and they only want him for their experimentation program. But there is something different about Jack. No clone should possess the knowledge that's been loaded into his mind. And no normal citizen of humanity's Polity worlds would have this information. The prador's king has been mutated by the Spatterjay virus into a creature even more monstrous than the prador themselves. And his children, the King's Guard, have undergone similar changes. They were infected by the virus during the last humans-versus-prador war, now lapsed into an uneasy truce. But the prador are always looking for new weapons – and their experimentation program might give them the edge they seek. Suzeal trades human slaves out of the Stratogaster Space Station, re-engineering them to serve the prador. She thinks the rewards are worth the risks, but all that is about to change. The Station was once a zoo, containing monsters from across known space. All the monsters now dwell on the planet below, but they aren't as contained as they seem. And a vengeful clone may be the worst danger of all. 'Neal Asher's books are like an adrenaline shot targeted directly for the brain' John Scalzi, author of the Old Man's War series 'Magnificently awesome. Then Asher turns it up to eleven' Peter F. Hamilton, author of Salvation and others, on Asher's The Soldier
