Human Cargo Caroline Moorehead, 2007-04-01 An arresting portrait of the lives of today's refugees and a searching look into their future The word refugee is more often used to invoke a problem than it is to describe a population of millions of people forced to abandon their homes, possessions, and families in order to find a place where they may, quite literally, be allowed to live. In spite of the fact that refugees surround us-the latest UN estimates suggest that 20 million of the world's 6.3 billion people are refugees-few can grasp the scale of their presence or the implications of their growing numbers. Caroline Moorehead has traveled for nearly two years and across four continents to bring us their unforgettable stories. In prose that is at once affecting and informative, we are introduced to the men, women, and children she meets as she travels to Cairo, Guinea, Sicily, the U.S./Mexico border, Lebanon, England, Australia, and Finland. She explains how she came to work and for a time live among refugees, and why she could not escape the pressing need to understand and describe the chain of often terrifying events that mark their lives. Human Cargo is a work of deep and subtle sympathy that completely alters our understanding of what it means to have and lose a place in the world.

History of Air Cargo and Airmail from the 18th Century Camille Allaz, 2005-03 It was first published in French by the Institut du Transport Aerien in 1998 and received very favourable reviews. Through the publication of the English language edition, this remarkable work is now accessible to many more readers around the world. In addition, the author has expanded the book with new sections and he has extensively updated it to bring the story of air cargo into the twenty first century, concluding with a look into the future. The author, Camille Allaz, served as Senior Vice President Cargo at Air France for 10 years which gave him an insider's close-up view of his subject, a privilege not enjoyed by many

historians. There is no aspect of mail or cargo transport by air that has not been thoroughly researched and documented by Allaz, from the first brief transport of animals by balloon in France in 1783 to the vast global networks of the integrated express carriers in the 21st century. As a true scholar, he fits his narrative into the larger framework of political, military, economic and aviation history. This book should stand for years as the definitive work on the history of air cargo and airmail, and will be of immense value to the academic community, to the air cargo industry, the postal services, and to the general public.

White Cargo Felicity Kendal, 1998 Felicity Kendal was brought up in India, touring the country as part of a troupe of actors managed by her father. Aged 17, she came to England for the first time. This book describes that exotic upbringing in India and explains what an unusual effect it has had on the rest of her life.

White Cargo Don Jordan, Michael Walsh, 2008-03-08 *White Cargo* is the forgotten story of the thousands of Britons who lived and died in bondage in Britain's American colonies. In the seventeenth and eighteenth centuries, more than 300,000 white people were shipped to America as slaves. Urchins were swept up from London's streets to labor in the tobacco fields, where life expectancy was no more than two years. Brothels were raided to provide breeders for Virginia. Hopeful migrants were duped into signing as indentured servants, unaware they would become personal property who could be bought, sold, and even gambled away. Transported convicts were paraded for sale like livestock. Drawing on letters crying for help, diaries, and court and government archives, Don Jordan and Michael Walsh demonstrate that the brutalities usually associated with black slavery alone were

perpetrated on whites throughout British rule. The trade ended with American independence, but the British still tried to sell convicts in their former colonies, which prompted one of the most audacious plots in Anglo-American history. This is a saga of exploration and cruelty spanning 170 years that has been submerged under the overwhelming memory of black slavery. *White Cargo* brings the brutal, uncomfortable story to the surface.

Forbidden Cargo Rebecca K. Rowe, 2006 It's 2110 and Creid Xerkler, the creator of the Molecular Advantage Machine - a virtual system that facilitates instantaneous access to all of humanity's knowledge and experience - is unwillingly entangled in a government Council plot to prove the existence of an illegally engineered race called the Imagofas. Unfortunately Xerkler knows more than he should and fears what the Council might discover. The Imagofas are revered by many as the next step in human evolution - a nano-DNA hybrid: part human, part machine - but to the Council they are a dangerous aberration and a threat to the very existence of humankind. In their quest to prove this crime against humanity, the Council plans on abducting specimens from the Order sanctioned research facility on Mars. When the kidnapping takes an unexpected turn and the Imagofas are forced to become fugitives, the Council vows to destroy them - while others plan to capitalize on their existence. The Imagofas, in a determined bid to return to Mars, must draw upon their still developing and unique skills to survive the dangers of Earth. Along the way, they are helped by three unexpected and unlikely heroes: the Cadet, a hard core gamer; Ochbo, a cleanlife pervert; and Prometheus, an enlightenment-seeking MAMintelligence, who, while on his own secret quest, ultimately holds the answers to everyone's survival.

Precious Cargo Clyde Ford, 2010-03 Charlie Noble, former coast-guard-officer-turned-marine-PI, is back. This time, he is hot on the trail of a human trafficking scheme that begins in Mexico and ends in murder. Still reeling from the untimely death of his wife, Charlie begins to warm to the idea of a second chance at true love with new girlfriend Kate Sullivan. These plans are quickly docked when boating friends Marvin and Angela Baynes come to him with a horrifying discovery - the body of an unidentified young woman impaled on the flukes of their boat anchor. The Bayneses themselves lost a child years ago. No stranger to loss, Charlie finds it impossible not to help them - even though it could mean putting his new romance in jeopardy. Charlie enlists a friend, Raven, a Native American salvage diver. Together, the pair plunge beneath the waters of Puget Sound to seek out any clues about the identity of the dead woman and how she wound up there. But they find more bodies instead - all young, all female, all Hispanic. Soon Charlie finds himself navigating a course that leads him through the choppy waters of transporting human cargo, and right into the seedy underworld of the Northwest's sex trade. With its fresh, nautical flavor, riveting mystery, and incredible depth of humanity, *Precious Cargo* is a winner from Clyde Ford that is truly unique - and compulsively readable.

Cargo Cult Lamont Lindstrom, 2019-03-31 Who is not captivated by tales of Islanders earnestly scanning their watery horizons for great fleets of cargo ships bringing rice, radios and refrigerators - ships that will never arrive? Of all the stories spun about the island peoples of Melanesia, tales of cargo cult are among the most fascinating. The term cargo cult, Lamont Lindstrom contends, is one of anthropology's most successful conceptual offspring. Like culture, worldview and ethnicity, its usage

has steadily proliferated, migrating into popular culture where today it is used to describe an astonishing roll-call of people. It's history makes for lively and compelling reading. The cargo cult story, Lindstrom shows, is more significant than it at first appears, for it recapitulates in summary form three generations of anthropological theory and Pacific studies. Although anthropologists' enthusiasm for the notion of cargo cult has waned, it now colors outsiders' understanding of Melanesian culture, and even Melanesians' perceptions of themselves. The repercussions for contemporary Islanders are significant: leaders of more than one political movement have felt the need to deny that they are any kind of cargo cultist. Of particular interest to this history is Lindstrom's argument that accounts of cargo cult are at heart tragedies of thwarted desire, melancholy anticipation and crazy unrequited love. He makes a convincing case that these stories expose powerful Western scenarios of desire itself—giving cargo cult its combined titillation of the fascinating exotic and the comfortably familiar.

Precious Cargo Craig Davidson, 2020-08-04 NATIONAL BESTSELLER For readers of Kristine Barnett's *The Spark*, Andrew Solomon's *Far From the Tree* and Ian Brown's *The Boy in the Moon*, here is a heartfelt, funny and surprising memoir about one year spent driving a bus full of children with special needs. With his last novel, *Cataract City*, Craig Davidson established himself as one of our most talented novelists. But before writing that novel and before his previous work, *Rust and Bone*, was made into a Golden Globe-nominated film, Davidson experienced a period of poverty, apparent failure and despair. In this new work of riveting and timely non-fiction, Davidson tells the unvarnished story of one transformative year in his life and of his unlikely relationships with a handful of unique and vibrant children who were, to his initial astonishment and bewilderment, and eventual delight, placed in his care for a couple of hours each day--the kids on school bus 3077. One morning in 2008, desperate and impoverished while trying unsuccessfully to write, Davidson plucked a flyer out of his mailbox that read, *Bus Drivers Wanted*. That was the first step towards an unlikely new career: driving a school bus full of special-needs kids for a year. Armed only with a sense of humour akin to that of his charges, a creative approach to the challenge of driving a large, awkward vehicle while corralling a rowdy gang of kids, and unexpected reserves of empathy, Davidson takes us along for the ride. He shows us how his evolving relationship with the kids on that bus, each of them struggling physically as well as emotionally and socially, slowly but surely changed his life along with the lives of the precious cargo in his care. This is the extraordinary story of that year and those relationships. It is also a moving, important and universal story about how we see and treat people with special needs in our society.

Cargo Access Equipment for Merchant Ships Ian Lyon Buxton, 2012-12-06 As President of International MacGregor I am deeply indebted to the authors of this excellent book for the very considerable amount of work and scholarship it contains. It is the first authoritative work on cargo access equipment to be published and I am sure that it will be greatly welcomed by the Marine Industries. You will see from the authors' preface that the book was commissioned by the Henri

Kummerman Foundation which was established in 1976 to assist and promote internationally research and development in the field of marine transportation and cargo handling. The Foundation has already made a number of grants to universities and to students but this book is its first major contribution to the furthering of education in the Marine Industries. For me, it is a rewarding fruition of a long involvement in maritime affairs. However, much requires to be done in the future and the Foundation can only succeed if it is encouraged and assisted by people who are forward thinking. I should be pleased therefore to hear from any readers of this book if they feel that they can help or be helped within the aims and objectives of the Foundation. 28 Chemin du Pommier, HENRI KUMMERMAN 1218 Geneva, Switzerland.
