Carnifex Tom Kratman,2008-04-01 BE CAREFUL WHO YOU CHOOSE AS YOUR ENEMY, HE'S GOING TO BECOME JUST LIKE YOU Patricio Carrera has been waging what amounts to a private world war to bring to justice the murderers of his family; He's raised an army and air force and used them. He's raised a fleet and he's about to use that. He's suborned one republic and is about to undermine another. He's tracked his enemies across half a world, breaking, in the process, any notion of international law that stood in his way. Now he's deployed his legions to Pashtia, penultimate hideout of the Salafi Ikhwan who have made him what he has become. But with each step further from his home, revenge seems no closer. And with each step he leaves behind him a little of his dwindling humanity. Revenge is a dish best served cold. Yet the trail itself grows cold, as cold as the snow-capped, windswept mountains of Pashtia. Only Carrera's hate still burns hot, and that's a fire that is slowly consuming him. At the publisher's request, this title is sold without DRM (Digital Rights Management).

Monsieur Carnifex Alexander Crawford,1912

Carnifex D. P. Prior,2016-01-16 For more than a thousand years, the dwarves have hidden away from the world in their ravine city of Arx Gravis. Governed by an inflexible council whose sole aim is to avoid the errors of the past, the defining virtue of their society is that nothing should ever change. But when the Scriptorium is broken into, and Ravine Guard Carnifex Thane sees a homunculus fleeing the scene of the crime, events are set in motion that will ensure nothing will ever be the same again. Deception and death are coming to Arx Gravis. The riddles that preceded Carnifex's birth crystalize into a horrifying fate that inexorably closes in. But it is in blood that legends are born, and redemption is sometimes seeded in the gravest of sins. For Carnifex is destined to become the Ravine Butcher, before even that grim appellation is forever lost, along with everything that once defined him.

Carnifex Mardi Gras John F. Carr,1982

Naturalized Reptiles and Amphibians of the World Christopher Lever,2003 This book describes how the various alien reptiles and amphibians now living in the wild throughout the world were first introduced, how they subsequently became naturalized, their present distribution and status in those countries to which they were introduced, and their ecological and socio-economic impact on the native biota and local economies. Many species have had a more or less neutral impact, being neither beneficial nor harmful. However, several have had a positive ecological or socio-economic impact, while some such as the cane toad, have had an extremely destructive effect. The criteria for inclusion of a species are that it should have been imported from its natural range to a new country by human agency--either accidentally or deliberately--and that it should currently be established in the wild in self-maintaining and self-perpetuating populations unsupported by and independent of mankind.

Violence in Late Antiquity H.A. Drake,2016-12-05 'Violence' is virtually synonymous in the popular imagination with the period of the Later Roman Empire-a time when waves of barbarian invaders combined with urban mobs and religious zealots to bring an end to centuries of peace and serenity. All of these images come together in the Visigothic sack of the city of Rome in A.D. 410, a date commonly used for the fall of the entire empire. But was this period in fact as violent as it has been portrayed? A new generation of scholars in the field of Late Antiquity has called into question the standard narrative, pointing to evidence of cultural continuity and peaceful interaction between barbarians and Romans, Christians and pagans. To assess the state of this question, the fifth biennial 'Shifting Frontiers' conference was devoted to the theme of 'Violence in Late Antiquity'. Conferees addressed aspects of this question from standpoints as diverse as archaeology and rhetoric, anthropology and economics. A selection of the papers then delivered have been prepared for the present volume, along with others commissioned for the purpose and a concluding essay by Martin Zimmerman, reflecting on the theme of the book. The four sections on Defining Violence, 'Legitimate' Violence, Violence and Rhetoric, and Religious Violence are each introduced by a theme essay from a leading scholar in the field. While offering no definitive answer to the question of violence in Late Antiquity, the papers in this volume aim to stimulate a fresh look at this age-old problem.

Carnifex: Un augurio de sangre D.P. Prior,2016-06-30 Crudo, tenso y brutalmente trágico. Su narración es de alta calidad y tiene unos personajes grandiosos y una trama implacable. -- Mitchell Hogan, autor de Un crisol de almas y ganador del Aurealis Award. Por más de 1000 años, los enanos se han ocultado del mundo en Arx Gravis, su ciudad al borde de un barranco. Gobernada por un concejo inflexible, cuya única meta es el evitar los errores del pasado, la única virtud que caracteriza a su sociedad es que nada debería cambiar jamás. Pero cuando asaltan el Scriptorium, y el Guardia del Barranco Carnifex Thane, ve a un homúnculo huyendo de la escena del crimen, se ponen en marcha los eventos que asegurarán que nada vuelva a ser como antes. El engaño y la muerte se acercan a Arx Gravis. Los acertijos que anteceden al nacimiento de Carnifex se cristalizan en un destino horripilante el cual se acerca implacablemente. Sin embargo, las leyendas nacen de la sangre, y en ocasiones la redención proviene del peor de los

pecados. El destino dicta que Carnifex debe convertirse en el Carnicero del barranco, incluso antes de que ese apelativo sombrío se pierda para siempre, junto con todo lo que alguna vez lo defino. Carnifex, la tan esperada novela de origen del Enano sin Nombre y el comienzo de una nueva serie: Leyendas del Enano sin Nombre, de D.P. Prior es una adición bienvenida a la tradición de espadas y hechicería que dio a luz a autores como R.E. Howard, Michael Moorcock, Fritz Lieber y Lin Cartes, y que retoma exactamente en donde nos dejó la fantasía heroica de David Gemmell. Con una narrativa centrada en el personaje principal, una caracterización compleja y una abundancia de horror, matanza y la marcha imparable de un destino insensible, también lleva los sellos distintivos de la escritura lúgubre y sombría de hoy en día a la que los lectores de Joe Abercrombie y George R.R. Martin están acostumbrados.

EBO Christopher R. Bridges,Dale Sanders,Adam Curtis,2012-12-06 Though it is a pleasure to write a short foreword to this collection of excellent scientific papers covering a range of biological topics, the rather depressing feature is the small number of papers. All-electronic publishing is developing and your Editors do have great faith in it. One problem for potential authors has been the reluctance of the abstracting journals to pay any attention to electronic journals - perhaps Springer should make a rapid move in this area and start the first all-electronic journal abstracting this type of literature. However, even the paper citation journals are starting to pay attention to the medium. The particular advantages of all-electronic publishing are beginning to emerge more clearly and it is clear that publishing video material is a unique advantage of our format. Several papers took advantage of this - for example those by Riehle and others on cell behaviour in tunnels, by Bereiter-Hahn and Voss on zonation in the plasmalemma and by Pavlikova, Zicha, Chaloupkova and Vesely on cell motility of tumour cells. These papers made essential and extensive use of video material, publishing some material of great originality. The work on cell polarity and calcium ions in Fucus embryos by Brownlee, Manison and Anning used animation to present their results in an especially clear way. The facility of use of animation is another special advantage of our type of publication that should be more widely used.

A Desert Called Peace, Second Edition Tom Kratman,2013-01-24 Now with new Content by Tom Kratman HE RAISED AN ARMY AGAINST THOSE WHO TOOK EVERYTHING FROM HIM They should have picked their enemies more carefully. Five centuries from now, on a remarkably Earthlike planet that is mankind's sole colony in space, religious fanatics called the Salafi Ikhwan have murdered the uncle of former colonel Patrick Hennessey. That was their first mistake, because uncle was rich and Hennessey was rather a good colonel. But they also murdered Hennessey's wife, Linda, and their three small children, and that was their worst mistake for she was the only restraint Hennessey had ever accepted. From the pile of rubble and the pillar of fire that mark the last resting place of Linda Hennessey and her children arises a new warrior¾Carrera, scourge of the Salafis. He will forge an army of ruthless fanatics from the decrepit remains of failed state's military. He will wage war across half a world. He will find those who killed his family. He will destroy them, and those who support them, utterly, completely, without restraint or remorse. Only when he is finished will there be peace: the peace of an empty wind as it blows across a desert strewn with the bones of Carrera's enemies.
