Earthquake: How the Ever-shifting Healthcare Model Victimizes Americans

Brian H. Casull MD, MPA, 2019-06-11 Healthcare in America is littered with confusing rules and unclear systems. The discussion is oft centered on misconstrued facts and downright lies. Some politicians claim that nobody ever died from lack of access, that the Affordable Care Act is unnecessary and American healthcare isn't cost-prohibitive. Some claim no one has lost Medicare or Medicaid coverage and pre-existing conditions don't threaten coverage. One thing that can't be denied about American healthcare is how often the average consumer is left confused. "Earthquake: How the Ever-shifting Healthcare Model Victimizes Americans" uses an easy-to-understand metaphor that equates the ever-shifting healthcare system with tectonic plates: just as earthquakes create victims with every shift of tectonic plates, so does the unstable American healthcare system. Dr. Brian Casull, a physician and physician executive of over 40 years, provides information that will help you escape to solid ground, including discussions about: What drives healthcare cost and what you can do about it; What the Affordable Care Act does and doesn't do; The on-going political assault on your healthcare including pre-existing conditions, preventive care and the 10 essential categories of care you rightfully deserve. "Earthquake" aims to give you, the average healthcare consumer, the information necessary to become informed about America's healthcare system and understand the tectonic plates that make your healthcare shake and tremble. With this book in hand, you can stay up-to-date on America's Healthcare in Transition.

This Can Kill You Brian H. Casull, 2017-06-06 As a physician and Physician Executive

with 40+ years in service supporting the patient, I share the passion and concern about the Affordable Care Act and the American Health Care Act. Having supported our men and women in uniform as well as patients in the private sector, I feel compelled to speak out. In fact, I feel so strongly about the issue of providing affordable healthcare to many of our vulnerable fellow Americans that I am self-publishing a discussion of Healthcare in America in Transition. I was nudged into the fray so to speak by a comment from a sitting Congressman (see below). The fact that vulnerable Americans might be at risk of the ultimate negative health care result (death) continues to trouble me. There is much about healthcare that hasn't been discussed. We should concentrate on the confounding variables. I have even become so bold as to offer some advice. Like you and many other Americans, what motivates me is to do what is right. A U.S. Congressman said 'Nobody dies because they don't have access to healthcare.' REALLY? VETERAN'S ADMINISTRATION 307,000 veterans may have died awaiting care. -the VA Inspector General (2015). 3% of Veterans may have died due to impeded access to care. UNINSURED American Health Care Act (AHCA) cuts program by 13-14 million people by 2026, -Congressional Budget Office (CBO). Mortality and Access to Care among Adults after State Medicaid Expansions -New England Journal of Medicine (2012) found a connection between access to Medicaid and reduced mortality. There was a 6.1% reduction in mortality. EMPLOYER PROVIDED HEALTH CARE Another 7 million people who currently have insurance through their employer would drop that coverage if the individual mandate- which currently requires that most people have coverage or pay a penalty at tax time - goes away under the AHCA. INDIVIDUAL MARKETPLACE Still more people would lose insurance from the changes to subsidies, which

help people pay monthly premiums in the individual market. Nearly 83% (10.5 million of 12.7 million) received premium subsidies according to HHS. UNDERINSURED 31 Million people or more than two out of five (44%) reported not getting needed care because of costs. Specifically, someone who is insured all year is underinsured if any of the following occurred (all excluding premiums): - 12 mo. out-of-pocket costs=10% percent or more of household income - out-of-pocket costs=5 percent or more if household income is under 200 % of federal poverty level (\$22,980 individual/\$47,100 family of four) - deductible is 5 percent or more of household income. THE NONCOMPLIANT A World Health Organization (WHO) study estimates that only 50% of patients suffering from chronic diseases in developed countries follow treatment recommendations. The figures are even lower in respect to adherence rates for preventative therapies, and can be as low as 28% in developed countries. MENTAL HEALTH Health Affairs quantitates that mental health care lags behind regular health care, even if you have Health care coverage. Mental illness is associated with increased occurrence of chronic diseases such as cardiovascular disease, diabetes, obesity, asthma, epilepsy and cancer. Mental illness is associated with lower use of medical care, reduced adherence to treatment therapies for chronic diseases and higher risks of adverse health outcomes. Major depressive disorder is the leading cause of disability in the U.S. for ages 15-44. Major depressive disorder affects approximately 14.8 million American adults, or about 6.7 percent of the U.S. population age 18 and older in a given year. TOTAL AT RISK POPULATION 271,437 deaths per year from health-related causes. If six percent die from lack of healthcare insurance-16,558 Americans could die from being UNINSURED, UNDERINSUED, or having a diagnosis of depression each year. The

impact of other MENTAL HEALTH issues and NONCOMPLIANCE are additional confounding variables.

This Can Kill You Brian Casull, 2019-03-27 As a physician and now Physician Executive with 40+ years in service supporting the patient, I share the passion and concern about the current health care law of the land the Affordable Care Act. Having supported our men and women in uniform for over thirty years as physician, Commander and Medical Director, I feel compelled to speak out. In fact, I feel so strongly about the issue of providing affordable healthcare to many of our vulnerable fellow Americans that I am self-publishing a discussion of Healthcare in America. I was nudged into the fray so to speak by a comment from a sitting Congressman-'No one every died from lack of health care.'. The fact that vulnerable Americans might be at risk of the ultimate negative health care result (death) continued to trouble me. There is much about healthcare that hasn't been discussed. We should concentrate on the confounding variables. I have even become so bold as to offer some advice. Like you and many other Americans, what motivates me is to do what is right. A U.S. Congressman said 'Nobody dies because they don't have access to healthcare.' REALLY? In the PROLOG, the stage is set for the link between the risk of death and the lack of healthcare insurance. In CHAPTER ONE, we learn about the typical political Side Step-now you see me now you don't. The Walk Back or Double Down which is the standard procedure on both sides of the political aisle. .CHAPTER TWO briefly discusses the Affordable Care Act-the basis for all the controversy. Moving on to CHAPTER THREE we ask:WHAT JUST HAPPENED? This will lead to a discussion and simplification of The House passed American Health Care Act to promote better understanding. CHAPTER FOUR discusses the DOWN

STREAM IMPACT-both seen and unseen. In CHAPTER FIVE we suggest why you should TRUST ME I'M A DOCTOR. This chapter is about the the author. In CHAPTER SIX we join Clara Peller in asking-WHERE'S THE BEEF? In other words, we will discuss Data to be applied to the discussion. CHAPTER SEVEN we cut to the chase AT THE END OF THE DAY to show what the data actually support in regards to the relationship between mortality and the lack of health care. We will introduce Case Studies to bring the subject to the where the rubber hits the road for most Americans. At the individual patient level. The EPILOG is The summary. We finish with RECOMMENDATIONS:One Physician Executive's thoughts on how Health Care in America might be best transitioned.The FactsThe VA's inspector general found that out of about 800,000 records stalled in the agency's system for managing health care enrollment, there were more than 307,000 records that belonged to veterans who had died months or years in the past. When adjusted for the number of Veterans who have access to the VA Health Care System, three percent of Veterans may have died due to impeded access to care.MEDICAID-The largest drop is from changes to Medicaid; the AHCA would cut the program by 14 million people by 2026, according to the Congressional Budget Office (CBO). The New England Journal of Medicine in 2012 analyzed the effects of Medicaid expansion on adult mortality in several states and found a connection between access to Medicaid and reduced mortality. The exact figure was a 6.1% reduction in mortality.AT THE END OF THE DAY There are 271,437 deaths per year from the top preventable health-related causes. Based on CBO predictions and the literature, If six percent have their preventable death from lack of healthcare insurance-16,558 Americans could die from being UNINSURED or UNDERINSUED each year.So yes, Congressman, people

can die from lack of health care. THIS CAN KILL YOU.

Hope Reformed David Drake, Eric Flint, S.M. Stirling, 2014-10-16 Contains Books #7 and #8, *The Reformer* and *The Tyrant*, in the best selling General series *The Empire of Man* has fallen and a new Dark Age is upon the stars. With planets cut off and reduced to subsistence and ignorance, humanity has nearly forgotten its past greatness. But one battle computer has survived the Collapse. He is Center. And Center is determined to find and aid leaders who can return a star-faring republic to the galaxy. The first of these leaders is Raj Whitehall, a man born to be a general, and molded to retake civilization itself from the jaws of barbarism. *The Reformer* by S.M. Stirling and David Drake On Hafardine, civilization had fallen further than most. That men came from the stars was not even a rumor of memory in Adrian Gellert's day. The Empire of Vanbret spread across the lands in a sterile splendor that could only end in another collapse, more ignominious and complete than the first. Adrian Gellert was a philosopher, a Student of the Grove. His greatest desire was a life of contemplation in the service of wisdom . . . until he touched the 'holy relic' that contained the disincarnate minds of Raj Whitehall and Center. On that day, Adrian's search for wisdom would lead him to a life of action, from the law-courts of Vanbret to the pirate cities of the Archipelago and battlefields bloodier than any in the history he'd learned. The prize was the future of humanity. *The Tyrant* by Eric Flint and David Drake On the planet Hafardine, civilization must rediscover progress or collapse. Adrian, guided by disembodied electronic mentors from space, has brought gunpowder and steam power to the Kingdom of the Isles to break the stranglehold of the Empire. But he will have to avoid being killed by the suspicious King he serves, by the barbarians he must recruit, and even by his insanely vengeful brother.
