*André Lefebvre, and the Cars He Created at Voisin and Citroën* Gijsbert-Paul Berk, 2011-11 Together with his colleagues at Citroën, Andre Lefebvre created the Traction Avant (1934), the TUB (1939) - Citroën's first front wheel drive utility van that was succeeded by the H and HY vans (1947) - the Deux Chevaux (1948), and, last but not least, the DS (1955). From 1923 to 1931 Lefebvre also designed several highly original and outstanding competition cars and record-breaking automobiles for Voisin. He even drove some these cars in races and record attempts. It is obvious that during his 16 years with Gabriel Voisin he was very much influenced by the ideas of this illustrious aviation pioneer and car manufacturer. The experience gained during that period gave him the self-confidence to persuade his successive bosses at Citroën that his unorthodox approach to automobile design was what the company needed; first he convinced André Citroën, later Pierre Michelin, then Pierre-Jules Boulanger, and finally Robert Puiseux and Pierre Bercot. His oeuvre for Citroën alone earns him a place of honour among the great automobile designers of the past century. The fact that most present-day cars still carry the DNA of his design philosophy makes him stand out above other automotive pioneers and innovators. That is why it is amazing that so little is known about this fascinating and brilliant engineer. This book was written in order to remedy that, and to pay tribute to André Lefebvre: the passionate pioneer who left car enthusiasts around the world such an important heritage.

*AIRCRAFT SPANISH CIVIL WAR* Gerald Howson, 1990-11-17 Since most of the 3,500 aircraft used in the Spanish Civil War were smuggled into the country, only recently have archives opened, lost records surfaced, and people found it safe to tell their stories. Over 280 types of aircraft used by the opposing forces are described, and their part in the war detailed. Most are illustrated with photographs. Aircraft built in most of the industrial countries took part, many of them prototypes, one-of-a-kind, and racing and record-setting planes. No bibliography.
