Prague & the Czech Republic Stephen Brook,2010 Capturing Prague's enchantment - its lavish palaces and baroque churches,

street musicians and Old World cafes - and the beauty of the Czech Republic's countryside, this guide takes you to the best sites, as well as some lesser-known ones, providing extensive background information and tips on how best to visit each place.

Historical Dictionary of Music of the Classical Period Bertil H. Van Boer, 2012 When we speak of classical music it often refers rather loosely to serious art music but at the core is really the music of the classical period running from about 1730 to 1800, give or take. This was truly one of the most glorious periods for both composition and performance and it is this classical music which is still at the core of today's repertoire. Obvious names connected with this period are Haydn, Mozart and Beethoven, but there were many more still reasonably well known like Gluck and C.P.E Bach, and dozens more who are regrettably little known today. This Historical Dictionary of Music of the Classical Period includes not only these composers, but also eminent conductors and performers, patrons, and publishers. There are also dictionary entries on major centers of music-making, typical instruments, important technical terms, and emerging musical forms, including the symphony and opera. Indeed, with a 1,000 cross-referenced entries, there is information on most matters of interest. This is

prefaced by an extensive chronology, tracing the course of this period from year to year, and an introduction taking a careful look at the period as a whole. Finally, there is a substantial bibliography. Surely, this is a book which will appeal not only to students and researchers but all music-lovers.

National Geographic Traveler Prague and the Czech Republic
Stephen Brook, 2017-01-03 This informative guide to the fast-changing land of the Czech Republic and its beautiful capital city, Prague, takes readers through Prague's Castle District and Little Quarter, the Old Town, and the New Town and the suburbs. It explores the Czech Republic heartland with chapters on Southern, Western, Northern and Eastern Bohemia, finishing up in Southern and Northern Moravia. Subsequent chapters include contemporary editorial features and experiential sidebars that highlight every aspect of Czech life and offer a wide range of activities for the traveler to seek out: Take a walk around the Little Quarter; enjoy a stroll around Old Town; learn about Mozart and Kafka, two of the city's most famous residents; visit Prague pubs; learn about the Prague Spring; drive through the land of castles; visit Jewish Moravia; and catch the Stráňnice Folk Festival. The guide offers practical advice on planning your trip and explains the country in

the context of its tumultuous history, art and culture, landscape, and food and drink. The extensive Travelwise section tells visitors the best places to stay and eat and the best shopping and entertainment in Prague and the Czech Republic.

Text, Speech and Dialogue Petr Sojka, Aleš Horák, Ivan Kopeček, 2008-09-09 The annual Text, Speech and Dialogue Conference (TSD), which originated in 1998, is now starting its second decade. So far almost 900 authors from 45 countries have contributed to the proceedings. TSD constitutes a recognized platform for the presentation and discussion of state-of-the-art technology and recent achievements in the field of natural language processing. It has become an interdisciplinary forum, interweaving the themes of speech technology and language processing. The conference attracts researchers not only from Central and Eastern Europe, but also from other parts of the world. Indeed, one of its goals has always been to bring together NLP researchers with different interests from different parts of the world and to promote their mutual cooperation. One of the ambitions of the conference is, as its title says, not only to deal with dialogue systems as such, but also to contribute to improving dialogue between researchers in the two areas of NLP, i. e. , between text

and speech people. In our view, the TSD conference was successful in this respect in 2008 as well. This volume contains the proceedings of the 11th TSD conference, held in Brno, Czech Republic in September 2008. Following the review process, 79 papers were - ceptedoutof173submitted,anacceptancerateof45. 7%.

The Fish Doctor: Autobiography of a World Fish Parasitologist
Glenn Hoffman, 2010-12-15 Described in 1986 as a living legend, Glenn Hoffman was one of the world's foremost authorities on the parasites of fishes. This book narrates his life and 65-year professional career as a scientist, researcher, ambassador, colleague, and family man. Born in 1918 to hard working Iowa farm folks, Dr. Hoffman grew up trapping and fishing for fun and profit. At the University of Iowa, he majored in zoology and worked for the Iowa State Conservation Department. From 1942 through 1946, he served in the U.S. Army as a lab technician, bacteriologist, and parasitologist in France, England, Germany, and Belgium. He returned to Iowa to earn his PhD in 1950, and taught at the

University of North Dakota 1950-1957. From 1958 to 1975 he worked at the U.S. Fish & Wildlife Services Eastern Fish Disease Laboratory in Leestown, WV, and then at the U.S. Fish Culture Station in Stuttgart, Arkansas, until his retirement in 1985. He was the author of four major books and more than 100 articles on the causes, spread, and cures of parasite-related diseases in fish, including *Parasites of North American Freshwater Fishes* (1967, 2nd ed. 1999), called the bible of American fish parasitology. His work and his generosity in collaboration developed an international following, and he made many trips abroad to share his expertise and receive the honors earned from his wide-ranging research and publication work. Personal, insightful, and reflective, this autobiography gives a glimpse inside the mind of a American scientist of the first rank.
