**History's Most Important Racing Aircraft** Don Berliner, 2013-11-14 Don Berliner, a prolific aviation author, puts pen to paper once again to provide us with a definitive overview of the most important, influential, and iconic racing aircraft of the last century. The book looks at the incredible variety, growth, and rapid expansion of this area of aviation design and production. Individual events are relayed which deal with teams of designers, often equipped with a lot more ideas than money, making wild dashes for the checkered flag and fame. The excitement of this endeavor is translated here into vivid prose. Supplemented throughout by extensive illustrations (over 200 images) this piece of work is sure to appeal to enthusiasts of the genre interested in seeing the most select racing aircraft of all time consolidated into one volume.??Aircraft featured include the Schneider Cup winning 1919 Supermarine Sealion, the iconic De Havilland Comet, post-war jet racers such as the Lockheed P-80A and the North American F-86A as well as a whole host of Formula One, Sport Biplane and Jet Class racers. Details of the current status of each racer is given, indicating whether the craft is still active or whether preserved models are available for viewing. ??Berliner continues

with characteristic style and ease of delivery, adding to his expanding library of acclaimed Pen and Sword publications.

Plane Talk: Cessna Export Tales Eyvinn H. Schoenberg, Eyvinn Hansen

Schoenberg, 2004-03-21 Plane Talk: Cessna Export Tales is the story of the team of close friends in the Export Department of the Cessna Aircraft Company, Wichita Kansas as seen through the eyes of Eyvinn H. Schoenberg as he relates through forty tales and five epilogue histories, experiences of his own and those of his friends in exporting Cessnas worldwide. He describes his strict flight training in a Piper Cub, and the fun of flying Cessnas once authorized to be a Cessna Utility Pilot while learning to fly The Cessna Way, as well as his own and others adventures in flying, selling, and developing an internationally based Distributor and Dealer organization, whose sales of Cessnas in the Caribbean, South America, Hawaii, Australia, New Zealand, The Far East, Europe, The Middle East, and various African countries in great part caused Wichita Kansas to be called The Air Capitol of the World.

FORTUNE FAVOURS THE BOLD Capt Donald L. Van Dyke, FRAeS,2009-01-28 Fortune Favours the Bold is the true story of Comair Ltd, one of aviation's greatest successes in the most demanding but exciting marketplaces. By mastering "the art of bonding brand promise and delivery", Comair's 63 unbroken years of profit are exceptional in an industry plagued with volatility and troubles. This book traces its role in African air commerce and beyond, ultimately operating the first British Airways franchise outside Europe. The book has its share of bizarre and amusing moments too. It debunks a number of myths and mysteries. It is heavily illustrated and interspersed with capsule commentaries on life in southern Africa over the past 65 years, often coinciding with some of the region's most tumultuous and significant periods. It covers events from World War II campaigns in East and North Africa through post-war development, rising political movements, international isolation, regional conflict and cooperation to evolving democracy. Through it all, Comair's history reflects the diversity of African experience. This book is one of the best records of an aviation group ever produced. It will be of interest to aviation and military historians, students of business, commercial law and political science, owners and operators of aircraft and anyone drawn to Africa's mystique. *Scientific and Technical Aerospace Reports* ,1978 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database.

*The Planes of Wichita* Daryl Murphy, 2008-05 For more than eight decades, Wichita, Kansas has been recognized as the world's Air Capital, and there doesn't seem to be any other city that can make that claim. More than half of all the airplanes in the world were built in this prairie town of 360,000. Three elements drew early builders-weather, workers and wampum. Three hundred days of good flying weather can be guaranteed; a work force with experience learned on the farm or in the oil patch was on hand; and plenty of cash was available. Of the literally scores of airplane companies that called Wichita home over the years, today's survivors dominate the worldwide General Aviation market. *The Planes of Wichita* is a collection of thumbnail sketches that tell the stories that contributed to the legend.
