The Chakram Benjamin Higham, 2016-05-10 The Chakram, a science fiction, literary novel, explores the effect of an infinite term of existence on the consciousness experience of Dan, a once mortal man, whose mind is transferred into a cloned body leased to him by his employer. Dan lives in a dystopia in which voluntary immortality exists. His story illustrates how the obtainment of immortality might affect the mental and emotional condition of an individual consciousness. Dan chooses to escape the immortal world and, during his journey, he meets mortals who suggest that the reality of nonexistence creates a self-aware consciousness that is driven to investigate whether life is a series of decisions that we make freely or if the decisions have been made for us. Whatever the answer, Dan finds that the investigation imbues the experience of life with meaning and purpose.

The Astral Body and Other Astral Phenomena Arthur Edward Powell, 1926

Fable Queen Del Winterbottom, Throughout history, Fable Kings and Queens have been a myth to most. Who would believe that there are boys and girls who can communicate with all life? But they are real--and so is Memoril, the mythical island that contains every kind of life, even dragons, and dinosaurs, phoenixes, krakens, and so many more magnificent things. Fable Kings and Queens have always been drawn to the island of all; some have even been born there. Right now, on Memoril, there are no Fable Kings--but there is a young Fable Queen. Her name is Miral: she is quite different, and she holds close to her heart...something very special indeed. Meanwhile, in the Ponds of Peace, the Elder Frog, Papa Ernes, sends Cupid the courageous frog out into the jungle for the first time to deliver something very important; but on the way, Cupid loses the package, and then he meets Miral, the Fable Queen. Miral and Cupid soon become friends and decide to go on an adventure around the island. Now things are about to happen: good things and bad things. Wonderful things. Terrible things. Things that have never happened before. Everything is about to change, forever. There is no going

back. The colours are home.

Tools of War Syed Ramsey,2016-09-01 The Medieval period of history was extremely violent. The quest for wealth and power was driven by the violent society of the European countries. Massive stone castles were built to act as power bases. Lands were subject to invasion leading to wars, battles and siege situations. This was the period of the Norman conquest and the battle of Hastings in England. Warfare, siege warfare and weapons strategy and tactics where subject to change due to new weapons ideas and changes in Medieval technology and architecture. The fighting in Europe had a brief respite when the attentions of the Medieval warlords turned their attention to the Holy Land when the Medieval Weapons were used by the religious knights who fought in the Crusades. This book has been written keeping in view the requirements of undergraduate and postgraduate students and research scholars in the area of weapons and warfare and Military history.

Principles and Forces in Nature and Man Helena Petrovna Blavatsky,2018-04-03 Tattvas and Bhutas are the Principles and Aspects of Cosmos and Man. Lokas and Talas are Divine and Worldly planes of being. Colours and sounds are all spiritual numerals. Colour is Spirit (Atman), Sound is Voice (Buddhi), Proportion of Numbers is Word (Higher Manas). Woe to the selfish man who seeks to develop occult powers only to attain earthly benefits, or revenge, or to satisfy his ambition. And warnings to those who are anxious to develop powers by sitting for yoga. Tattvas are the substratum of the Forces in Nature and Man. Sound is no attribute at all, but the primal correlation of Akasha.

Akasha is both the highest Tattva and the synthesis of all Tattvas. Esoteric and Tantric Tattvas, and their correspondences with states of matter, body parts, and colours, explained. In the realm of hidden Forces of Nature, an audible sound is but a subjective colour; and a perceptible colour, but an inaudible sound. The Seven Rays of Logos keep vibrating not only in the Tattvic centres of action but in every atom of the body. The lower you go in the Talas the more intellectual you become and the less spiritual. You may be a morally good man but not spiritual. Every human passion, every thought and quality, is indicated in one's aura by corresponding colours and shades of colour; certain of these are sensed and felt, rather than perceived. The introspective Adept can see the golden aura of a man in his normal condition, pulsating in both the Pineal and the Pituitary Glands, a pulsation like that of the heart, never ceasing throughout life. Watch out! Tantric works tend to Black Magic and are most dangerous to take for guides in self-training.
