Char-Broil Great Book of Grilling Editors of Creative Homeowner,2020-10-01 Char-Broil Great Book of Grilling is the definitive outdoor cookbook and how-to guide, featuring hundreds of easy-to-follow recipes for grilled and barbecued appetizers, main courses, salads, vegetables, and even desserts.

The Library at Mount Char Scott Hawkins,2016-03-15 “Wholly original . . . the work of the newest major talent in fantasy.”—The Wall Street Journal “Freakishly compelling . . . through heart-thumping acts of violence and laugh-out-loud moments, this book practically dares you to keep reading.”—Atlanta Magazine A missing God. A library with the secrets to the universe. A woman too busy to notice her heart slipping away. Carolyn's not so different from the other people around her. She likes guacamole and cigarettes and steak. She knows how to use a phone. Clothes are a bit tricky, but everyone says nice things about her outfit with the Christmas sweater over the gold bicycle shorts. After all, she was a normal American herself once. That was a long time ago, of course. Before her parents died. Before she and the others were taken in by the man they called Father. In the years since then, Carolyn hasn't had a chance to get out much. Instead, she and her adopted siblings have been raised according to Father's ancient customs. They've studied the books in his Library and learned some of the secrets of his power. And sometimes, they've wondered if their cruel tutor might secretly be God. Now, Father is missing—perhaps even dead—and the Library that holds his secrets stands unguarded. And with it, control over all of creation. As Carolyn gathers the tools she needs for the battle to come, fierce competitors for this prize align against her, all of them with powers that far exceed her own. But Carolyn has accounted for this. And Carolyn has a plan. The only trouble is that in the war to make a new God, she's forgotten to protect the things that make her human. Populated by an unforgettable cast of characters and propelled by a plot that will shock you again and again, *The Library at Mount Char* is at once horrifying and hilarious, mind-blowingly alien and heartbreakingly human, sweepingly visionary and nail-bitingly thrilling—and signals the arrival of a major new voice in fantasy. Praise for *The Library at Mount Char* An engrossing fantasy world full of supernatural beings and gruesome consequences.—Boston Globe Vivid . . . the dialogue sings . . . you'll spend equal time shuddering and chortling.—Dallas Morning News

Char's Gift Steve Harryman,2020-05-19 Is it possible to find hope in the midst of tragedy? Or joy in the hardest times? When Char Harryman suffered a series of grand mal seizures and was rushed to the hospital on Easter Sunday, her life and that of her husband Steve would never be the same again. With Char's diagnosis of a malignant brain tumor requiring life-saving surgery, that tragic event in their lives would mark the beginning of a remarkable journey of faith and perseverance spanning nearly twenty-five years. It was on this journey that Steve and Char experienced the nearness of God and found true hope and joy amidst the suffering. *Char's Gift* is ultimately a story of triumph over the storms of life and a testament to the depth of God's faithfulness and unfailing love.

As biomass can be converted to energy, biofuels and bioproducts via thermochemical conversion processes, such as combustion, pyrolysis and gasification, this book is ideal for professionals in energy production and storage fields, as well

as professionals in waste treatment, gas treatment, and more. Investigation of Char Formation and Surface Recession of a Composite Ablation Material with a Silicone-resin Base Allen G. McLain, 1970 A composite ablation material containing a silicone- resin base, silica fibers, and phenolic and silica hollow microspheres has been subjected to a wide range of test conditions to study its charring behavior. The ablation tests were performed at stagnationpoint pressures ranging from 0.016 to 1.3 atm and heating rates ranging from 1.34 MW/m² to 14.8 MW/m² in air and nitrogen. The resulting char-layer surfaces fell into three categories - black char, glassy-coated char, and gray char - as heating rates (and char surface temperatures) were increased. The char layers formed contained large percentages by weight of silicon dioxide. Silicon carbide was found to be in chars formed at high heating rates. Empirical correlations of surface recession were determined. For the higher heating rates where steady-state ablation was approached, char-layer constituents and mass loss could be predicted adequately with chemical equilibrium in the reactions at the surface assumed.

Selected Poems of René Char Rene Char, 1992-04-17 “This is a fine, bilingual edition of the works of one of the great French Surrealists. . . . The translations, by several hands, serve Char well—full of insinuating rhythms and unusual verbal couplings, they come close to the piercing beauty of the originals.” —Pat Monaghan, Booklist The Selected Poems of René Char is a comprehensive, bilingual overview reflecting the poet’s wide stylistic and philosophical range, from aphorism to dramatic lyricism. In making their selections, the editors have chosen the voices of seventeen poets and translators (Paul Auster, Samuel Beckett, Cid Corman, Eugene Jolas, W.S. Merwin, William Carlos Williams, and James Wright, to name a few), in homage to a writer long held in highest esteem by the literary avant-garde.

Biomass Chars: Elaboration, Characterization and Applications II Lionel Limousy, Mejdí Jeguirim, 2019-10-16 Biomass can be converted to energy, biofuels, and bioproducts via thermochemical conversion processes, such as combustion, pyrolysis, and gasification. Combustion technology is most widely applied on an industrial scale. However, biomass gasification and pyrolysis processes are still in the research and development stage. The major products from these processes are syngas, bio-oil, and char (called also biochar for agronomic application). Among these products, biomass chars have received increasing attention for different applications, such as gasification, co-combustion, catalysts or adsorbents precursors, soil amendment, carbon fuel cells, and supercapacitors. This Special Issue provides an overview of biomass char production methods (pyrolysis, hydrothermal carbonization, etc.), characterization techniques (e.g., scanning electronic microscopy, X-ray fluorescence, nitrogen adsorption, Raman spectroscopy, nuclear magnetic resonance spectroscopy, X-ray photoelectron spectroscopy, and temperature programmed desorption and mass spectrometry), their properties, and their suitable recovery processes.

Vinegar and Char Sandra Beasley, 2018-10-01 Yes, there is barbecue, but that's just one course of the meal. With *Vinegar and Char* the Southern Foodways Alliance celebrates twenty years of symposia by offering a collection of poems that are by turns as sophisticated and complex, as vivid and funny, and as buoyant and poignant as any SFA gathering. The roster of contributors includes Natasha Trethewey, Robert Morgan, Atsuro Riley, Adrienne Su, Richard Blanco, Ed Madden, Nikky Finney, Frank X Walker, Sheryl St. Germain, Molly McCully Brown, and forty-five more. These poets represent past, current, and future conversations about what it means to be southern. Throughout the anthology, region is layered with race, class, sexuality, and other shaping identities. With an introduction by Sandra Beasley, a thought-provoking foreword by W. Ralph Eubanks, and luminous original artwork by Julie Sola, this collection is an ideal gift. Meant to be savored slowly or devoured at once, these pages are a perfect way to spend the hour before supper, with a glass of iced tea—or the hour after, with a pour of bourbon—and a fitting celebration of the SFA's focus and community.
