Mary Greene Lee

Checker Madness Byron Babbish, 2014-02-16 From the author of Train Madness and Car Madness, Checker Madness is the story of owning Checker Cab automobiles. It continues the series of Madness books by the author. Checker Madness begins by chronicling the author's purchase of a 1982 Checker Marathon that he bought new from Checker Motors Corporation of Kalamazoo, Michigan as his daily driver. This was the last year of car production by Checker Motors and the author was able to purchase one of the last Checker Cabs built. Checker Madness tells the stories that come with buying a new Checker car and owning it for 31 years, driving it to work, raising kids with it, taking it to car shows and maintaining it. Checker Madness then continues with the story of the author buying a second used 1979 Checker Cab for his son as his first car when he was in high school. Checker Madness tells the stories of finding this second Checker Cab, bringing it home, his son's restoration of it with his friend, driving it to school and car shows and owning it and keeping it running for ten plus years. The stories go beyond just the cars' facts to include the many adventures and escapades the author and his son had with their Checker Cabs. Included are many photographs, mostly in color, from the author's photographs of his Checkers. If you or someone you know loves Checker Cabs or cars in general, this book of owning a classic car like the Checker Cab is a must have. Even if you don't know about Checker Cabs this book will stir memories of some classic car in your life and how

much fun it was to own, drive and maintain.

American Automobile Advertising, 1930-1980 Heon Stevenson, 2008-09-10 This book provides a comprehensive history of American print automobile advertising over a half-century span, beginning with the entrenchment of the "Big Three" automakers during the Depression and concluding with the fuel crises of the 1970s and early 1980s. Advances in general advertising layouts and graphics are discussed in Part One, together with the ways in which styling, mechanical improvements, and convenience features were highlighted. Part Two explores ads that were concerned less with the attributes of the cars themselves than with shaping the way consumers would perceive and identify with them. Part Three addresses ads oriented toward the practical aspects of automobile ownership, concluding with an account of how advertising responded to the advance of imported cars after World War II. Illustrations include more than 250 automobile advertisements, the majority of which have not been seen in print since their original publication.

American Cars, 1973-1980 J. "Kelly" Flory, Jr., 2012-11-02 The 1973 oil crisis forced the American automotive industry into a period of dramatic change, marked by stiff foreign

competition, tougher product regulations and suddenly altered consumer demand. With gas prices soaring and the economy in a veritable tailspin, muscle cars and the massive “need-for-speed” engines of the late ’60s were out, and fuel efficient compacts were in. By 1980, American manufacturers were churning out some of the most feature laden, yet smallest and most fuel efficient cars they had ever built. This exhaustive reference work details every model from each of the major American manufacturers from model years 1973 through 1980, including various “captive imports” (e.g. Dodge’s Colt, built by Mitsubishi.) Within each model year, it reports on each manufacturer’s significant news and details every model offered: its specifications, powertrain offerings, prices, standard features, major options, and production figures, among other facts. The work is heavily illustrated with approximately 1,300 photographs.

Tall Tales at the General Store Mary Greene Lee, 2012-09 Enjoy the bygone days of a time precariously nestled between the comforts of peace and the ever-present threat of impending war in 1939. Meander the dirt roads converging at the general store, where tall tales flow freely. A young parson from the Northeast arrives and receives an education from the mountaineers far beyond his preacher schooling. The unsolicited courtin' assistance pushes his patience to the limits. Laugh with six brothers as they unconventionally live balancing compassion with tomfoolery; gaiety with grief; all while holding fast to a simple yet steadfast faith. A new resident arrives, not fitting the mold of a Greenbed woman; she clings to high fashion and longs for the social life she enjoyed in the big city. Her actions and attitudes alienate the residents from her husband's struggling store until she is forced to put her life into the hands of the most unlikely character in the mountain. The war touched the mountain community in a

shocking manner they'd never imagined possible.

Call Me A Cab Donald E. Westlake, 2022-02-22 The final unpublished novel by MWA Grandmaster – a wild, romantic road trip across America by taxi cab – demonstrates why this beloved author is so fondly remembered and so dearly missed. “A book by

this guy is cause for happiness.” Stephen King
DONALD E. WESTLAKE GOES OFF THE BEATEN PATH In 1977, one of the world’s finest crime novelists turned his pen to suspense of a very different sort – and the results have never been published, until now. Fans of mystery fiction have often pondered whether it would be possible to write a suspense novel without any crime at all, and in CALL ME A CAB the masterful Donald E. Westlake answered the question in his inimitable style. You won’t find any crime in these pages – but what you will find is a wonderful suspense story, about a New York City taxi driver hired to drive a beautiful woman all the way across America, from Manhattan to Los Angeles, where the biggest decision of her life is waiting to be made. From Pennsylvania to Ohio, Indiana, Illinois, Missouri, Kansas, Colorado, Utah, Arizona and Nevada on the way to California, the characters’ odyssey takes them through uncharted territory – on the map and in their lives. It’s Westlake at his witty, thought-provoking best, and it proves that a page-turner doesn’t need to have a bomb set to go off at the end of it in order to keep sparks flying every step of the way.
