*A Brother's Price* Wen Spencer, 2005-07-05 In a world where male children are rare, a man is a valuable commodity—to be sold to the highest bidder... It isn't easy being the oldest boy in a house run by women—especially for Jerin Whistler. The grand-matriarchs of his clan are descended from soldiers, spies, and thieves. That's partly what's kept their family alive in the wilderness. But it also means Jerin's doomed to marry the girls next door—a fate he's convinced is worse than death. But Jerin gets in even worse trouble when, in the process of a daring rescue, he falls in love with a royal princess who's as high above his station as it's possible to be. Ren knows that Jerin is too far below her class to be an appropriate match for her and her royal sisters. But then she hears rumors of a long-held Whistler family secret—one that might provide a way for them to finally be together. Unfortunately, she still has four sisters to convince. And that's before Jerin even comes to the capital—where simmering political tensions will threaten not just their love, but all their lives... “Don't plan on getting anything else done if you start a Wen Spencer novel; they are exceedingly hard to put down!”—Nebula Award-Winning Author Catherine Asaro

**Into the Looking Glass** John Ringo, 2005-06-01 WORST TWO OUT OF THREE When a 60 kiloton nuclear explosion destroys the University of Central Florida, terrorism is the first suspect. But terrorists don't generally leave doorways to another world in their wake. Or, rather, a generator of doorways to multiple other worlds. With time of the essence, the Secretary of Defense scrounges up the nearest physicist with a high level security clearance. With doctorates in everything from nuclear physics to electrical engineering, William Weaver, PhD, is the egghead's egghead. On the other hand, with skills in everything from mountain biking to screaming electric guitar, he's also fast enough and tough enough to survive when the alien gates start disgorging demons. As a snap decision, he appears to be the perfect choice, smart, tough and capable. Now if he could only patch things up with his girlfriend, get his boss off his back and get his cellphone bill paid. Oh, yeah, and figure out why the heck these gates keep opening. Okay, so sometimes he's got priority issues. As the gates spread and evil aliens spread with them, it is up to Weaver and SEAL Command Master Chief Miller to find a way to stop the proliferation and close the hostile gates. The problem being that the only way they can see to save the earth is destroy it. Then there's not going to be any more girlfriends or cellphones or

bosses . . . Hmmm... Okay, two out of three of those are bad. They're really, really bad. Bad on toast. Bad like the Pacific is watery. Every day a Monday, bad. One and a half at the very least. Worst two out of three. Gotta prioritize. Guess Weaver and Miller are just gonna have to save the world. At the publisher's request, this title is sold without DRM (Digital Rights Management).

**A Fistful Of Sky** Nina Kiriki Hoffman, 2004-05-25 Gypsum LaZelle had nearly given up. She'd already watched her two older siblings experience the transition—the sudden, debilitating process that turned them from ordinary children into mages, gifted spellcasters like their beautiful mother.

Perhaps she was a late bloomer, she thought until her younger siblings came into their powers as well. Now, at twenty, Gypsum fears that she must accept her fate: a mundane life without magic. She can live with being ordinary, an outsider. After all, someone in the family had to take after her father...But one day, alone at home wither family away, Gypsum falls terribly ill. And when the symptoms pass, something has changed. Something she's dreamed of for such a long time—and suddenly, isn't ready for at all. "One of the most original and important writers of fantasy working in America today."—The New York Review of Science Fiction

**Hogfather** Terry Pratchett,2021-04-22 It's the night before Hogswatch. And it's too quiet. Superstition makes things work in the Discworld, and undermining it can have consequences. It's just not right to find Death creeping down chimneys and trying to say 'Ho Ho Ho...' It's the last night of the year, the time is turning, and if Susan, gothic governess and Death's granddaughter (sort of), doesn't sort everything out by morning, there won't be a morning. Ever again... Adapted by Terry Pratchett's long-time collaborator Stephen Briggs, this play text version of Pratchett's bestselling Discworld novel Hogfather wittily and faithfully reimagines the story for the stage.

**She and Her Cat** Makoto Shinkai,Naruki Nagakawa,2022-11-22 For fans of Mieko Kawakami's Breasts and Eggs and Murata Sayaka's Earthlings, this Japanese bestseller from renowned anime director Makoto Shinkai features four inspirational and heartwarming vignettes following women and their cats in their quests for love and connection. Lying alone on the edge of the sidewalk in an abandoned cardboard box, a nameless narrator contemplates the indifferent world around him. With his mother long gone, his only company is the sound of the nearby train. Just as he fears that the end is near, a young woman peers down at him, this fateful encounter changing their lives forever. So begins the first story in She and Her Cat, a collection of four interrelated, stream-of-conscious short

stories in which four women and their feline companions explore the frailty of life, the pain of isolation, and the limits of communication. With clever narration alternating between the cats and their owners, *She and Her Cat* offers a unique and sly commentary on human foibles and our desire for connection. A whimsical short story anthology unlike any other, it effortlessly demonstrates that even in our darkest, most lonesome moments, we are still united to this wondrous world—often in ways we could never have expected.

**The Descent** Jeff Long, 1999-11-12 We are not alone. Some call them devils or demons. But they are real. They are down there. And they are waiting for us to find them. In a cave in the Himalayas, a guide discovers a self-mutilated body with a warning: Satan exists. In the Kalahari Desert, a nun unearths evidence of a proto-human species and a deity called Older-than-Old. In Bosnia, something has been feeding upon the dead in a mass grave. So begins mankind's most shocking realization: the underworld is a vast geological labyrinth populated by another race of beings. With all of Hell's precious resources and territories to be won, a global race ensues. Nations, armies, religions, and industries rush to colonize and exploit the subterranean frontier. A scientific expedition is launched westward to explore beneath the Pacific Ocean floor, both to catalog the riches there and to learn how life could develop in the sunless abyss. But in the dark underground, as humanity falls away from them, the scientists and mercenaries find themselves prey not only to the savage creatures, but also to their own treachery, mutiny, and greed. One thing is certain: Miles inside the earth, evil is very much alive.
