History's Most Important Racing Aircraft Don Berliner, 2013-11-14 Don Berliner, a prolific aviation author, puts pen to paper once again to provide us with a definitive overview of the most important, influential, and iconic racing aircraft of the last century. The book looks at the incredible variety, growth, and rapid expansion of this area of aviation design and production. Individual events are relayed which deal with teams of designers, often equipped with a lot more ideas than money, making wild dashes for the checkered flag and fame. The excitement of this endeavor is translated here into vivid prose. Supplemented throughout by extensive illustrations (over 200 images) this piece of work is sure to appeal to enthusiasts of the genre interested in seeing the most select racing aircraft of all time consolidated into one volume. Aircraft featured include the Schneider Cup winning 1919 Supermarine Sealion, the iconic De Havilland Comet, post-war jet racers such as the Lockheed P-80A and the North American F-86A as well as a whole host of Formula One, Sport Biplane and Jet Class racers. Details of the current status of each racer is given, indicating whether the craft is still active or whether preserved models are available for viewing. Berliner continues with characteristic style and ease of delivery, adding to his expanding library of acclaimed Pen and Sword publications.

Balloons to Jets Howard L. Scamehorn, 2000 *Balloons to Jets: A Century of Aviation in Illinois, 1855–1955*, written by historian Howard L. Scamehorn, was originally published in 1957 by the Illinois State Historical Society and distributed only to the society's membership and to select libraries in the state. Scamehorn offers a wealth of information not only on one hundred years of aviation in Illinois but also on events leading up to the Wright Brothers' initial flight in 1903. Scamehorn's history of aviation in Illinois covers such topics as amateur pilots, aviation contests and meets, the development of airmail, military aeronautics, commercial air transport, the expansion of airports, flyers and flying achievements, and state and federal regulation of aeronautics. But *Balloons to Jets* is not just a history of aviation in one state. Scamehorn also traces national and international aviation progress from the free balloon to the dirigible. He then describes aeronautical activities and experiments by such people as Octave Chanute, Glenn Curtiss, Thomas Scott Baldwin, Otto Lilienthal, Samuel Pierpont Langley, and others that lent support to the Wrights' flight at Kitty Hawk. Of interest to both armchair aviation enthusiasts and professionals, Scamehorn's study illustrates the evolution of commercial aviation from its origins with the military and the itinerant flyer to Charles Lindbergh's successful transatlantic trip in 1927 and the subsequent explosion in public interest in flight. *Balloons to Jets* is lavishly illustrated with eighty-six black-and-white historic photographs of early aviators and a range of flying craft, including hot-air balloons, dirigibles, gliders, biplanes, monoplanes, bombers, and early luxury transports. This reprint features a new foreword by Gene Abney, the former director of the Illinois Department of Aeronautics.

Cleveland's National Air Races Thomas G. Matowitz, 2006-03 Enthusiasm for aviation exploded after Charles Lindbergh's solo flight across the Atlantic in May 1927. The National Air Races, held in Cleveland between 1929 and 1949, collectively represent one of the most significant aviation events of the 20th century. Cleveland's newly constructed municipal airport, the world's largest airport facility at the time, along with its permanent 50,000-seat bleachers, won the city hosting rights to the event. The National Air Races captivated the public during the grim years of the Great Depression and provided a showcase for many aviation innovations including retractable landing gear, low-wing monoplanes, aircooled engines, and careful streamlining. A deadly crash ended the National Air Races more than 50 years ago, but the races made an unforgettable impression. This book should reinforce the memories of those who saw the races firsthand and pique the interest of those who have always wished they had.
