Friends, Acquaintances, Pupils and Patrons Anna Beerens,2006 Annotation. This study of the social circumstances of Japanese intellectuals in the last quarter of the eighteenth century is based on biographical data concerning 173 individuals. It deals with the image of intellectual life of that period in current scholarship, and with the self-image and ethos of scholars, authors, poets and artists. That self-image and ethos, however, often clash with the realities of their everyday lives. This prosopographical investigation offers a new look at intellectual life on a basic level. The current image of intellectual life in the Tokugawa period is one of dissatisfaction and withdrawal, whereas the image that results from this study is one of dynamism and interaction. The Oral Chronicle of the Boorana in Southern Ethiopia Chikage Oba-Smidt,2015 This book deals with the Boorana people in southern Ethiopia who do not have a tradition of writing. However, for over 600 years, they have passed down rich and detailed historical narratives, which form a highly elaborated Oral Chronicle. Herein lies a great mystery. How did they share and pass down this history without using any writing system? The purpose of this book is to answer this question. This book documents and discusses the cultural and socio-political mechanisms of constructing and preserving historical memories, and presents a complete text of the Oral Chronicle of the Boorana, based on a rigid comparison of oral sources. Chikage Oba-Smidt is currently a JSPS Research Fellow at Osaka Prefectural University, Japan. □□□□ Roger K. Thomas,2008 Though the haiku is the best known Japanese verse form in the west, its appearance in the early modern period (1600-1868) was preceded by at least a millennium of waka poetry, whose thirty-one syllable version, tanka, had dominated Japanese letters among the aristocracy from the beginning of the tenth century. The Way of the Shikishima demonstrates how, from the beginning of the Tokugawa hegemony in the early seventeenth century, waka was in fact closely tied to contemporary social, cultural, and intellectual developments, and how those ties became closer over time. The aristocratic monopoly of the art that prevailed at the beginning of the early modern period gave way to popularizing forces until, by the middle of the nineteenth century and nearly all practitioners of note were commoners.

Imagining Harmony Peter Flueckiger,2010-10-19 Many intellectuals in eighteenth-century Japan valued classical poetry in either

Chinese or Japanese for its expression of unadulterated human sentiments. They also saw such poetry as a distillation of the language and aesthetic values of ancient China and Japan, which offered models of the good government and social harmony lacking in their time. By studying the poetry of the past and composing new poetry emulating its style, they believed it possible to reform their own society. Imagining Harmony focuses on the development of these ideas in the life and work of Ogyu Sorai, the most influential Confucian philosopher of the eighteenth century, and that of his key disciples and critics. This study contends that the literary thought of these figures needs to be understood not just for what it has to say about the composition of poetry but as a form of political and philosophical discourse. Unlike other scholars of this literature, Peter Flueckiger argues that the increased valorization of human emotions in eighteenth-century literary thought went hand in hand with new demands for how emotions were to be regulated and socialized, and that literary and political thought of the time were thus not at odds but inextricably linked.

Remembering Paradise Peter Nosco,2020-10-26 Remembering Paradise studies three major eighteenth-century nativist scholars in Japan: Kada no Azumamaro, Kamo no Mabuchi, and the celebrated Motoori Norinaga. Peter Nosco demonstrates that these scholars, frequently depicted as the formulators of rabid xenophobia, were intellectuals engaged in a quest for meaning, wholeness, and solace in what they perceived to be disordered times. He traces the emergence and development of their philosophies, identifying elements of continuity into the eighteenth century from the singular Confucian-nativist discourse of the seventeenth century. He also describes the rupture between nativism and Confucianism at the start of the eighteenth century and the quest for ancient, distinctly Japanese values. The emphasis on patriotism and nostalgia in the works of these three scholars may have relevance to the kind of nationalism emerging in Japan in the 1980s, manifested in a renewed interest in visiting one’s home place and in the history and culture of the seventeenth through mid-nineteenth centuries. The current fusion of nationalism and nostalgia can perhaps be better understood through Nosco’s analysis of comparable sentiments that were important in earlier times.
