Grandpa Cacao Elizabeth Zunon,2019-05-21 This beautifully illustrated story connects past and present as a girl bakes a chocolate cake with her father and learns about her grandfather harvesting cacao beans in West Africa. Chocolate is the perfect treat, everywhere! As a little girl and her father bake her birthday cake together, Daddy tells the story of her Grandpa Cacao, a farmer from the Ivory Coast in West Africa. In a land where elephants roam and the air is hot and damp, Grandpa Cacao worked in his village to harvest cacao, the most important ingredient in chocolate. Chocolate is a gift to you from Grandpa Cacao, Daddy says. We can only enjoy chocolate treats thanks to farmers like him. Once the cake is baked, it's ready to eat, but this isn't her only birthday present. There's a special surprise waiting at the front door . . .

Chocolate and Sustainable Cocoa Farming Peter McMahon,Philip Keane,2023-04-11 This second edition includes an updated bibliography.Astley's signature is a highly allusive, layered and self-conscious prose style, non-linear and open-ended (Gillian Whitlock, JASAL: Journal of Association for the Study of Australian Literature, 6, 2007, p. 154.)The essays offer insights into issues of language, art, gender and religion ... as well as Astley's evolving body of writing and the historical and literary context of her work (Lyn Jacobs, Australian Literary Studies v.23, n.3, 2008, p.358).

Chocolate Nations Órla Ryan,2012-04-12 Chocolate - the very word conjures up a hint of the forbidden and a taste of the decadent. Yet the story behind the chocolate bar is rarely one of luxury. From the thousands of children who work on plantations to the smallholders who harvest the beans, Chocolate Nations reveals the hard economic realities of our favourite sweet. This vivid and gripping exploration of the reasons behind farmer poverty includes the human stories of the producers and traders at the heart of the West African industry. Orla Ryan shows that only a tiny fraction of the cash we pay for a chocolate bar actually makes it back to the farmers, and sheds light on what Fair Trade really means on the ground. Provocative and eye-opening, Chocolate Nations exposes the true story of how the treat we love makes it on to our supermarket shelves.

Chocolate Ross F. Collins,2022-06-01 Chocolate is nearly always with us—when celebrating or mourning, in love or alone, healthy or sick, happy or sad. This book offers a comprehensive look at how an exotic food grew to play such a central role in our lives. No food in the world can offer as storied a history as chocolate. *Chocolate: A Cultural Encyclopedia* focuses on cocoa's history from ancient Mesoamerican beginnings as a symbol of ritual, life, and death, to its omnipresence in Europe, North America, and the rest of the world. In 10 thematic chapters covering chocolate in society and culture, 80 shorter entries, recipes, and a comprehensive timeline, this new book takes a closer look at how chocolate has served as a medicine, an indulgence, a symbol of decadence, a door to romance, a tempting taboo, a means of survival, and a snack for children and adults alike. Why did popes and kings so fear their chocolate? Who invented milk chocolate, and why was its formula kept secret? Why did soldiers in World War II despise their chocolate rations? Who makes the most chocolate today? Find out the answers to these questions and more as this book tells you everything you wanted to know—and a lot you didn't even know existed—about the seed from the world's favorite fruit tree.

Saving Fine Chocolate: Equity, Productivity and Quality in Cocoa Co-ops Ted Weihe,

CacaoSource: An Emerging Sustainable Chocolate Landscape Alain M. D'Aboville,2019-09-06 What is happening with chocolate?The seemingly endless expansion of the chocolate shelves at your local food store is only the visible side of the deep metamorphosis happening to the aging chocolate industry. Written by a small bean to bar maker based in the Caribbean, in association with a certified taster from the International Chocolate Awards, the book includes a dozen interviews of farmers and new chocolate makers from countries as diverse as Madagascar, Colombia, the Philippines and even Myanmar. Approximately five million tropical farmers, mostly in West Africa, produce over four and half million tons of cacao beans that are converted into an eighty-three-Billion-dollar industry run by two dozen multinational companies. Since the 1980's' the shareholder's value and profits of many of these businesses have multiplied, in some cases by a factor of thirty and even more while the amount paid to the farmers has been divided by a factor of up to three. Concurrently, global warming has made cacao farming more difficult and hazardous, diminishing further its appeal to the next generations. The alternative to this clearly un-sustainable status quo remains to be found. In today's financialized world, one can only hope that

consumers' behavior will have an impact meaningful enough to save the cacao planet. The book introduces the main factors involved in cacao farming and chocolate making and details how young Chocolate hobbyist and bean to bar makers, in the consuming regions as well as in the cacao producing ones, are trying to team-up with small farmers, mostly in South America and the Caribbean, to initiate a new and sustainable cacao industry. This burgeoning movement is trying to transform quality chocolate making into a specialty cottage industry. At the same time, some major industrial producers and International Aid organizations which have been supporting farmers for decades without producing the needed outcome, seem to be adopting different tactics to reverse the negative price trend. This book provides a thorough view of this new chocolate scene, focusing on the fine and specialty chocolate makers and their supply chain.
